

SUPPLEMENT TO OFFICIAL STATEMENT

\$101,695,000

COMMONWEALTH OF PUERTO RICO Public Improvement Refunding Bonds, Series 2006 A

This Supplement updates certain information appearing in the Official Statement, dated June 22, 2006 (the "Official Statement"), relating to the above referenced bonds (the "Bonds"). Capitalized terms used in this Supplement and not otherwise defined herein have the respective meanings ascribed to them in the Official Statement.

RECENT DEVELOPMENTS

Estimated Revenues for Fiscal Year 2006 and Projected Revenues for Fiscal Year 2007. On June 23, 2006, the Secretary of the Treasury indicated that collections for the first eleven months of fiscal year 2006 were \$164 million below budgeted revenues. This reduction is attributed to the current economic slowdown, the Commonwealth's current fiscal crisis and the high price of oil and its derivatives. If this trend continues, the shortfall in total revenues for the entire fiscal year, compared to the original estimate, and the Commonwealth's budget deficit for fiscal year 2006 may reach \$254 million. In light of the current slowdown in economic activity, the Secretary of the Treasury has also stated that the revenue projection for fiscal year 2007 of \$9.188 billion (excluding the revenues expected to be generated by the tax reform) may be reduced by approximately \$200 million to \$8.988 billion.

On June 25, 2006, the Senate approved the tax reform bill previously approved by the House of Representatives. Although the Senate and the House of Representatives approved identical bills, the Senate understands that the tax reform bill imposes an aggregate 7% sales tax while the Speaker of the House of Representatives has stated that the intention of the House of Representatives was to approve a 5.5% sales tax. The Speaker of the House of Representatives has indicated he may file a lawsuit against the Executive Branch if the Secretary of the Treasury imposes a sales tax higher than 5.5%.

Proposed Budget for Fiscal Year 2007. On June 23, 2006, the Acting President of Government Development Bank for Puerto Rico indicated that if a tax reform is not approved and the Urgent Needs Fund created by the Fiscal Reform Legislation to repay the Commonwealth's appropriation debt remains unfunded, the Commonwealth General Fund would have to include the \$532 million debt service payment due on such debt in its fiscal year 2007 budget. As such, Commonwealth expenditures for fiscal year 2007 would reach \$9.968 billion, consisting of \$9.436 billion included in the budget approved by the House of Representatives plus \$532 million of debt service due on appropriation debt for fiscal year 2007. Assuming expenditures of \$9.968 billion and revenues of \$8.988 billion for fiscal year 2007, the Commonwealth would experience a budget shortfall of approximately \$980 million (excluding the revenues expected to be generated by the tax reform).

On June 25, 2006, the Senate approved the fiscal year 2007 budget approved by the House of Representatives. After certain negotiations with representatives of the majority party in the House of Representatives, the Senate and the House of Representatives also agreed on a \$52 million special appropriation to be allocated between the Department of Justice, the Police Department and the Department of Corrections and Rehabilitation. Although this budget is approximately \$196 million below the Governor's proposed budget for fiscal year 2007, the Director of OMB has indicated she may recommend that the Governor approve this budget for fiscal year 2007.

The information set forth in this Supplement was supplied by certain officials of the Commonwealth or certain of its agencies or instrumentalities, in their respective official capacities, or was obtained from publications of the Commonwealth or certain of its agencies or instrumentalities, and is included in this Supplement on the authority of such officials or the authority of such publications as official public documents.

COMMONWEALTH OF PUERTO RICO

/s/ Juan Carlos Méndez
Secretary of the Treasury

Goldman, Sachs & Co.

June 26, 2006

NEW ISSUE - BOOK-ENTRY ONLY
See “Book-Entry Only System” under *The Bonds*

In the opinion of Bond Counsel, under the provisions of the Acts of Congress now in force, (i) subject to continuing compliance with certain tax covenants, interest on the Bonds will not be includable in gross income for federal income tax purposes, and (ii) the Bonds and interest thereon will be exempt from state, Commonwealth and local taxation under existing law. However, see “Tax Exemption” for a description of alternative minimum tax consequences with respect to interest on the Bonds and other tax considerations.

\$101,695,000
COMMONWEALTH OF PUERTO RICO
Public Improvement Refunding Bonds, Series 2006 A
(General Obligation Bonds)

Dated: Date of Delivery

Due: July 1, as shown on the inside cover

The Bonds are issuable as registered bonds without coupons in denominations of \$5,000 and integral multiples thereof. Interest on the Bonds will accrue from their date of issuance and will be payable semi-annually on each July 1 and January 1, commencing on January 1, 2007. The Bonds are subject to redemption prior to maturity as set forth herein, the earliest possible date of redemption being July 1, 2016.

THE BONDS ARE GENERAL OBLIGATIONS OF THE COMMONWEALTH. THE GOOD FAITH, CREDIT AND TAXING POWER OF THE COMMONWEALTH ARE IRREVOCABLY PLEDGED FOR THE PROMPT PAYMENT OF THE PRINCIPAL OF AND INTEREST ON THE BONDS. THE CONSTITUTION OF PUERTO RICO PROVIDES THAT PUBLIC DEBT OF THE COMMONWEALTH, WHICH INCLUDES THE BONDS, CONSTITUTES A FIRST CLAIM ON AVAILABLE COMMONWEALTH REVENUES.

The Bonds are offered for delivery when, as and if issued and accepted by Goldman, Sachs & Co. (the “Purchaser”), subject to the approval of legality by Sidley Austin LLP, New York, New York, Bond Counsel, and certain other conditions. Certain legal matters will be passed upon for the Purchaser by Pietrantoní Méndez & Alvarez LLP, San Juan, Puerto Rico. It is expected that the Bonds will be available for delivery through the facilities of The Depository Trust Company on or about June 23, 2006.

\$101,695,000
COMMONWEALTH OF PUERTO RICO
Public Improvement Refunding Bonds, Series 2006 A
(General Obligation Bonds)

INTRODUCTORY STATEMENT

This Official Statement of the Commonwealth of Puerto Rico (the “Commonwealth” or “Puerto Rico”), which includes the cover page, the inside cover page, the table of contents and the appendices, provides certain information in connection with the sale of \$101,695,000 Commonwealth of Puerto Rico Public Improvement Refunding Bonds, Series 2006 A (the “Bonds”).

The Bonds are being issued under the provisions of Act No. 33 of the Legislature of Puerto Rico, approved on December 7, 1942, as amended (“Act 33”), and pursuant to a resolution authorizing the issuance of the Bonds (the “Bond Resolution”) adopted in accordance with Act 33 by the Secretary of the Treasury of the Commonwealth of Puerto Rico (the “Secretary of the Treasury”) and approved by the Governor of Puerto Rico on June 22, 2006.

Under Act 33, the good faith, credit and taxing power of the Commonwealth are irrevocably pledged for the prompt payment of the principal of and interest on the Bonds. The Constitution of Puerto Rico provides that public debt of the Commonwealth, which includes the Bonds, constitutes a first claim on available Commonwealth revenues.

This Official Statement includes the Commonwealth’s Financial Information and Operating Data Report, dated June 1, 2006 (the “Commonwealth Report”), attached hereto as *Appendix I*, and the Comprehensive Annual Financial Report of the Commonwealth for the fiscal year ended June 30, 2005, prepared by the Department of the Treasury of the Commonwealth (the “Commonwealth’s Annual Financial Report”), which is incorporated by reference herein. The Commonwealth Report attached hereto as *Appendix I* includes important operating and financial information about the Commonwealth, including information about its economy, historical revenues and expenditures of its General Fund, the year-end results of fiscal year 2005, the current budget for fiscal year 2006, the proposed budget for fiscal year 2007, and the debt of the Commonwealth’s public sector, and should be read in its entirety. The Commonwealth’s Annual Financial Report includes the basic financial statements of the Commonwealth as of and for the fiscal year ended June 30, 2005, together with the independent auditor’s report thereon, dated March 14, 2006, of KPMG LLP, certified public accountants. The Commonwealth’s Annual Financial Report has been filed by the Commonwealth with each nationally recognized municipal securities information repository (“NRMSIR”). KPMG LLP did not audit the financial statements of the Public Buildings Authority capital project fund (a major fund), and certain activities, funds and component units separately identified in its report. Those financial statements were audited by other auditors whose reports have been furnished to KPMG LLP, and its opinion as to the basic financial statements, insofar as it relates to the amounts included in the basic financial statements pertaining to such activities, funds and component units, is based solely on the reports of the other auditors. The report by KPMG LLP contains an emphasis paragraph for the

adoption of Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposits and Investment Risk Disclosures*, as of June 30, 2005.

Any appendix of an Official Statement of the Commonwealth or of any instrumentality of the Commonwealth containing any revision to the Commonwealth Report or to the Commonwealth's Annual Financial Report that is filed with each NRMSIR and the Municipal Securities Rulemaking Board, or any new or revised Commonwealth Report or Commonwealth Annual Financial Report or other document containing information that modifies or supersedes the information contained in the Commonwealth Report or in the Commonwealth's Annual Financial Report that is filed with each NRMSIR, in each case after the date hereof and prior to the termination of the offering of the Bonds, shall be deemed to be incorporated by reference into this Official Statement and to be part of this Official Statement from the date of filing of such document. Any statement contained in the Commonwealth's Annual Financial Report shall be deemed to be modified or superseded for purposes of this Official Statement to the extent that a statement contained herein or in any such subsequently filed document modifies or supersedes such statement. Any statement contained in the Commonwealth Report or elsewhere herein shall also be deemed to be modified or superseded to the extent that a statement contained in any such subsequently filed document modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Official Statement.

The Commonwealth will provide without charge to any person to whom this Official Statement is delivered, on the written or oral request of such person, a copy of the Commonwealth's Annual Financial Report incorporated herein by reference. Requests should be directed to Director-New York Office, Government Development Bank for Puerto Rico, 666 Fifth Avenue, 15th Floor, New York, New York 10103-1599, telephone number (212) 422-6420, or to Director-General Obligations Division, Government Development Bank for Puerto Rico, P.O. Box 42001, San Juan, Puerto Rico 00940, telephone number (787) 722-7060.

A copy of the Commonwealth's Annual Financial Report may also be obtained by contacting a NRMSIR. The address of each NRMSIR is set forth in *Continuing Disclosure* below.

OVERVIEW

Puerto Rico is located approximately 1,600 miles southeast of New York City. According to the United States Census Bureau, its population was 3,808,610 in 2000. Puerto Rico's political status is that of a commonwealth. The United States and the Commonwealth share a common defense, market, currency and citizenship. The Commonwealth government exercises virtually the same control over its internal affairs as is exercised by the state governments of each of the fifty states over their respective internal affairs, with similar separation of powers among the executive, legislative and judicial branches. It differs from the states, however, in its relationship with the federal government. The people of Puerto Rico are citizens of the United States but do not vote in national elections. They are represented in Congress by a Resident Commissioner who has a voice in the House of Representatives but no vote. Most federal taxes, except those such as Social Security taxes, which are imposed by

mutual consent, are not levied in Puerto Rico. No federal income tax is collected from Puerto Rico residents on income earned in Puerto Rico, except for certain federal employees who are subject to taxes on their salaries. The official languages of Puerto Rico are Spanish and English.

Puerto Rico has a diversified economy with manufacturing and services comprising its principal sectors. Puerto Rico's economy is closely linked to the United States economy. In fiscal year 2005 (which ended on June 30, 2005), the Commonwealth's gross product (preliminary, in current dollars) was \$53.4 billion, and personal income per capita (preliminary, in current dollars) was \$12,502.

The Constitution of Puerto Rico limits the amount of general obligation debt that the Commonwealth can issue. The Commonwealth's policy has been and continues to be to maintain the level of such debt within a prudent range below the constitutional limitation.

Fiscal responsibility for the Commonwealth is shared among the Department of the Treasury, the Office of Management and Budget ("OMB") and Government Development Bank for Puerto Rico ("Government Development Bank"). The Department of the Treasury is responsible for collecting most of the Commonwealth's revenues, overseeing preparation of its financial statements and contributing to the preparation of the budget. The Office of Management and Budget prepares the Commonwealth's budget and is responsible for monitoring expenditures. Government Development Bank is the fiscal agent and financial advisor to the Commonwealth and its agencies, public corporations and municipalities and coordinates the management of public finances.

Additional information about the Commonwealth can be found in the Commonwealth Report attached hereto as *Appendix I*, including information about the economy, historical revenues and expenditures of the Commonwealth's General Fund, the year-end results of the fiscal year 2005, the current budget for fiscal year 2006, the proposed budget for fiscal year 2007, and the debt of the Commonwealth's public sector. The Commonwealth Report should be read in its entirety.

RECENT DEVELOPMENTS

This section summarizes certain information about the Commonwealth's current fiscal situation, which appears in the Commonwealth Report. This section should be read in conjunction with the information and descriptions about the Commonwealth's current fiscal situation included in the Commonwealth Report, which should be read in its entirety.

The Commonwealth's Budget Deficit for Fiscal Year 2006, Its Structural Budget Imbalance and Other Fiscal Challenges

Projected Budget Deficit for Fiscal Year 2006. Based on the spending rate experienced during the first nine months of fiscal year 2006, total expenditures for the fiscal year are currently estimated to reach \$9.683 billion, which are \$738 million above the originally budgeted amounts. These excess expenditures consist of \$434 million of payroll and other related costs, \$219 million of health and retirement systems related expenditures, and \$85 million of other

expenditures. Approximately \$362.6 million, or 49.1%, of the estimated excess expenditures is attributable to expenditures in excess of originally budgeted amounts by the Department of Education, of which \$315.5 million, or 87%, is attributable to payroll and related expenses. This amount of excess expenditures does not include certain additional expenditures related to fiscal year 2006 which had been excluded from the budget, including certain vendor debts from prior fiscal years (referenced below) and \$368 million of debt service due during fiscal year 2006 on the Commonwealth's general obligation bonds, which debt service is being paid from a Government Development Bank line of credit rather than from the General Fund and is expected ultimately to be paid from the proceeds of a Commonwealth bond issuance (the "Financed Debt Service"). These excluded expenditures are referred to as the "Additional Expenditures." See the discussion of "Additional Expenditures" in "Summary and Management's Discussion of General Fund Results – Commonwealth's Budget Structural Imbalance" under *Puerto Rico Taxes, Other Revenues, and Expenditures in Appendix I*.

The Secretary of the Treasury's estimate of total revenues for fiscal year 2006 is \$8.945 billion, which includes \$100 million of net proceeds from the sale of the Bonds that will be used to refinance certain principal and interest payments on outstanding Commonwealth general obligation bonds due during fiscal year 2006 by repaying certain General Fund advances made earlier in fiscal year 2006. As discussed below, however, this estimate has not been adjusted to take into account actual collections during the first ten months of fiscal year 2006. Without considering any other increase in projected expenditures nor the anticipated reduction in budgeted revenues during fiscal year 2006 discussed below, but considering the appropriations approved by the Legislative Assembly in connection with the authorization of the Bank's loan to cover the Commonwealth's budget deficit for fiscal year 2006, the Commonwealth will end fiscal year 2006 with a balanced budget.

On May 13, 2006, the Commonwealth enacted legislation authorizing the Bank to lend up to \$741 million to the Commonwealth to cover its budget deficit for fiscal year 2006. This legislation also contains various measures designed to address the Commonwealth's structural budget imbalance. See "2006 Projected Expenditures" under *Budget of the Commonwealth of Puerto Rico in Appendix I*.

On May 30, 2006, the Secretary of the Treasury indicated that collections for the first ten months of fiscal year 2006 were \$151 million below budgeted revenues. This reduction is attributed to the current economic slowdown, the Commonwealth's current fiscal crisis and the high price of oil and its derivatives. If collections remain below budgeted revenues to this extent, the Commonwealth's budget deficit for fiscal year 2006 may reach \$151 million.

Commonwealth's Structural Budget Imbalance. The budget imbalance in fiscal year 2006 comes in the wake of several recent fiscal years during which the Commonwealth had insufficient recurring revenues to cover its recurring expenditures. These budget imbalances have been covered in the past with loans from Government Development Bank, financing transactions (including long-term bond issues payable from the General Fund) and other non-recurring resources. The Commonwealth estimates that during fiscal year 2006 its recurring operating expenditures will exceed recurring revenues (the so-called structural imbalance) by approximately \$1.2 billion, compared to \$1 billion for fiscal year 2005. This amount represents

the difference between estimated expenditures of \$9.683 billion plus the Financed Debt Service (\$368 million), for a total of \$10.1 billion, less recurring revenues of \$8.845 billion (which excludes the \$100 million net proceeds from the sale of the Bonds that will be used to refinance a portion of the fiscal year 2006 debt service as described above and any adjustment required due to the level of collections being lower than the amount originally estimated). The Commonwealth expects to reduce this imbalance by financing the Financed Debt Service (\$368 million), issuing the Bonds, and, as discussed above, financing the remaining portion of the Commonwealth's fiscal year 2006 structural deficit with a loan from Government Development Bank. The amount of estimated expenditures does not take into account the Additional Expenditures discussed above. If these were included, the amount of the structural budget imbalance would increase. See "Summary and Management's Discussion of General Fund Results – Commonwealth's Budget Structural Imbalance" under *Puerto Rico Taxes, Other Revenues, and Expenditures* and "2006 Budget Approval Process" under *Budget of the Commonwealth of Puerto Rico* in *Appendix I*.

Other Fiscal Challenges. The Commonwealth faces other fiscal challenges besides its current budgetary issues. The principal one involves resolving the increasing unfunded pension liability of the Employees Retirement System and the Teachers Retirement System. The Commonwealth expects to reduce the unfunded liability of the Employees Retirement System based on proposed legislation which provides for increased employer and employee contributions and the issuance of up to \$2 billion of pension obligation bonds, which would be payable from the Commonwealth's General Fund.

The Employees Retirement System and the Teachers Retirement System are seeking reimbursement from the Commonwealth for certain special retirement benefits paid by them in prior fiscal years under legislation providing such retirement benefits. The Employees Retirement System is seeking reimbursement from the Commonwealth in the amount of \$77.4 million for cumulative benefits paid to beneficiaries through June 30, 2005. The Employees Retirement System projects an additional shortfall of \$39.4 million for fiscal year 2006 in connection with special benefits laws payments. OMB believes that the basis of the claims from the Employees Retirement System is valid but that the amounts claimed remain to be verified and reconciled. Recently, the Employees Retirement System received a \$42.9 million payment from OMB to cover shortfalls related to payments made in connection with special benefit laws. OMB does not recognize as a Commonwealth liability part of the claims by the Teachers Retirement System (\$119 million). OMB and the Teachers Retirement System are currently under inter-agency arbitration in an effort to resolve their differences. For more details, see *Retirement Systems* in *Appendix I*.

Tax and Fiscal Reform and the Fiscal Year 2007 Proposed Budget

In an effort by the two principal political parties to address the Commonwealth's structural budget imbalance and its other fiscal difficulties, the Executive Branch and the Legislative Assembly are currently considering the enactment of a comprehensive tax reform and have already enacted a fiscal reform, as discussed below. The proposed tax reform is aimed at increasing revenues by expanding the tax base through the implementation of the consumption

tax. The fiscal reform is aimed at limiting the growth of expenditures in relation to past spending rates and stabilizing expenditure growth to a level below that of recurring revenues.

Proposed Tax Reform. In general terms, the proposed tax reform is expected to (i) broaden the tax base through the implementation of a consumption tax, (ii) reduce certain individual income taxes, and (iii) simplify the administration of the tax system.

On November 16, 2005, legislation with respect to the tax reform, including a 7% consumption tax, was introduced in the House of Representatives with a proposed effective date of July 1, 2006. On January 16, 2006, the Governor presented his own tax reform proposal to the Legislative Assembly. The Governor's principal proposal included the replacement of the Commonwealth's excise tax with a 7% consumption tax, the elimination or reduction of many existing income tax deductions, and reductions in the existing income tax rates. While the Executive Branch and the Legislative Assembly agree that a comprehensive tax reform must be enacted, there has been disagreement as to the specifics of such tax reform, particularly as to what should be the aggregate consumption tax rate.

On June 21, 2006, the House of Representatives approved a package of tax reform measures intended as a substitute to the tax reform bill presented by the Governor. These measures impose a 5.5% sales tax, eliminate the 5% general excise tax for most articles and provide some income tax reductions.

The Senate is currently evaluating the sales tax bill approved by the House of Representatives. The President of the Senate has stated that the sales tax bill may require significant amendments prior to its approval by the Senate. The Governor has stated that he will sign the sales tax bill only if it is significantly amended. Therefore, there is no assurance that the sales tax bill will be enacted as presented and, if enacted, that it will generate sufficient revenues to resolve the Commonwealth's fiscal difficulties.

Fiscal Reform Legislation. On May 25, 2006, the Governor signed legislation providing for a fiscal reform of the Commonwealth government (the "Fiscal Reform Legislation"). The legislation applies to every instrumentality and entity of the Executive Branch funded, in whole or in part, from the General Fund and sets forth as the public policy of the Commonwealth the reduction of government spending, the elimination or consolidation of redundant agencies, the reduction of government payroll without causing the layoff of regular employees or increasing the actuarial liability of the retirement systems, the limitation of unnecessary, extravagant or excessive spending, and the limitation of public relations and other similar expenses. For a discussion of the Fiscal Reform Legislation, see "Fiscal Reform" under *Budget of the Commonwealth of Puerto Rico* in *Appendix I*.

Despite his approval of the Fiscal Reform Legislation, the Governor has stated that certain of its provisions may be unconstitutional because they impinge on Executive Branch prerogatives. As such, the Governor has informed the Legislative Assembly that certain provisions of the Fiscal Reform Legislation will be implemented at the Executive Branch's discretion and through the use of the Executive Branch's prerogatives. There is no assurance

that the Fiscal Reform Legislation will generate the expected savings or that it will be implemented as enacted.

Proposed Budget for Fiscal Year 2007. On April 3, 2006, the Governor submitted to the Legislative Assembly a proposed balanced budget of resources and expenditures for fiscal year 2007 providing for General Fund resources and expenditures of \$9.684 billion, which represented an increase of \$1 million from estimated actual expenditures for fiscal year 2006. The total resources included in the proposed budget assumed the enactment, on or prior to June 30, 2006, of the Governor's proposed tax reform, which was estimated to generate gross revenues of approximately \$2.15 billion. As such, total resources for the General Fund for fiscal year 2007 included a net increase in total tax collections of approximately \$776 million.

On June 22, 2006, the House of Representatives approved a General Fund budget for fiscal year 2007 of \$9.436 billion, which is \$248 million less than the budget proposed by the Governor. This budget reduction is attributable principally to decreases in the amount allocated to operational expenses. The budget approved by the House of Representatives is approximately \$52 million less than the budget cuts required by the Fiscal Reform Legislation. The Director of OMB has expressed concern over the consequences that these budget cuts may have on the government's ability to offer basic services.

There is no assurance that a budget for fiscal year 2007 will be approved by the Legislative Assembly and signed by the Governor on or prior to June 30, 2006. If the budget is not approved by such date, the fiscal year 2006 budget (which itself had carried over from fiscal year 2005) would carry over to fiscal year 2007. See "2006 Budget Approval Process" under *Budget of the Commonwealth of Puerto Rico in Appendix I.*

Rating Action Involving the Commonwealth

On March 22, 2006, Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. ("S&P"), placed the Commonwealth's rating on CreditWatch with negative implications as a result of the Commonwealth's anticipated budget deficit for fiscal year 2006, slow progress on tax and fiscal reform and the apparent political impasse regarding these measures. S&P indicated it may take further rating action on or prior to June 30, 2006. This action had been preceded in May 2005 by a reduction in S&P's rating of the Commonwealth's general obligation debt rating from "A-" to "BBB."

On February 24, 2006, Moody's Investors Service, Inc. ("Moody's") placed the Commonwealth's general obligation rating of "Baa2" on its Watchlist for review and possible downgrade. This action had been preceded in May 2005 by a reduction in Moody's rating of the Commonwealth's general obligation debt rating from "Baa1" to "Baa2." Moody's also placed on its Watchlist all other bonds issued by various Commonwealth instrumentalities whose credit is directly or indirectly linked to that of the Commonwealth. On May 2, 2006, Moody's issued a report in response to the partial shutdown of the Commonwealth's government. In the report, Moody's stated that a prolonged political stalemate with respect to the resolution of the Commonwealth's budget deficit for fiscal year 2006 will have negative ratings implications.

On May 8, 2006, Moody's downgraded the Commonwealth's general obligation and appropriation bond ratings from "Baa2" to "Baa3" and from "Baa3" to "Ba1," respectively, and kept the ratings on Watchlist for possible further downgrade. Moody's action reflected the Commonwealth's strained financial condition, ongoing political conflict and lack of agreement regarding the measures necessary to end the government's multi-year trend of financial deterioration. For a discussion of previous rating actions affecting the Commonwealth, see "Rating of Commonwealth General Obligation Bonds" under *Debt* in *Appendix I*.

PLAN OF FINANCING

The Bonds are being issued for the purpose of refinancing \$100 million of principal and interest payments on outstanding general obligation bonds of the Commonwealth due during fiscal year 2006.

Sources and Uses of Funds

Sources:

Principal amount of the Bonds.....	\$101,695,000.00
Aggregate Net Discount	(323,371.20) ⁽¹⁾
Total sources	101,371,628.80

Uses:

Reimbursement of Fiscal Year 2006 Debt Service	100,000,000.00
Underwriting discount ⁽²⁾ , legal, printing, and other financing expenses	1,371,628.80
Total uses	\$101,371,628.80

⁽¹⁾ This aggregate net discount reflects the premium or discount per maturity at which the Bonds were purchased from the Issuer, which reflect certain restrictions on the re-offering of the Bonds.

⁽²⁾ For more information regarding the underwriting discount, see *Underwriter's and Purchaser's Discount*.

THE BONDS

General

The Bonds will be dated, bear interest at such rates, be payable at such times, and mature on the dates and in the principal amounts set forth on the cover and inside cover page of this Official Statement. Certain of the Bonds are subject to redemption at the times and at the prices set forth below in "Redemption." Banco Popular de Puerto Rico will serve as paying agent and registrar (the "Registrar") for the Bonds.

Book-Entry Only System

The following information concerning The Depository Trust Company ("DTC"), New York, New York and DTC's book-entry system has been obtained from DTC. Neither the

Commonwealth nor Goldman, Sachs & Co. (the “Purchaser”) take any responsibility for the accuracy thereof.

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully registered bonds registered in the name of Cede & Co. (DTC’s partnership nominee) or such other nominee as may be requested by an authorized representative of DTC. One fully registered bond will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 2.2 million issues of U.S. and non-U.S. equity, corporate and municipal debt, and money market instruments from over 100 countries that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, FICC, and EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has the highest rating issued by S&P: “AAA.” The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of a Bond (“Beneficial Owner”) will in turn be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchases. Beneficial Owners are, however, expected to receive written confirmations providing details of their transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co, or such other nominee as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the note documents. For example, Beneficial Owners may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Trustee and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Commonwealth as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on such record date (identified in a listing attached to the Omnibus Proxy).

Principal, redemption premium, if any, and interest payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Commonwealth, on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, its nominee, or the Commonwealth, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, redemption premium, if any, and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Commonwealth, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the Commonwealth or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, definitive Bonds will be printed and delivered.

The Commonwealth may decide to discontinue use of the system of book-entry only transfers through DTC (or a successor depository). In that event, definitive Bonds will be printed and delivered.

Payments and Transfers

No assurance can be given by the Commonwealth that DTC will make prompt transfer of payments to the Participants or that Participants will make prompt transfer of payments to Beneficial Owners. The Commonwealth is not responsible or liable for payment by DTC or Participants or for sending transaction statements or for maintaining, supervising or reviewing records maintained by DTC or Participants.

For every transfer and exchange of the Bonds, the Beneficial Owners may be charged a sum sufficient to cover any tax, fee or other charge that may be imposed in relation thereto.

Discontinuance of the Book-Entry Only System

In the event that the book-entry only system is discontinued, the following provisions will apply: principal of and redemption premium, if any, on the Bonds shall be payable in lawful money of the United States of America at the principal office of the Registrar in San Juan, Puerto Rico. Interest on the Bonds will be payable by check mailed to the respective addresses of the registered owners determined as of the 15th day of the month preceding the interest payment date as shown on the registration books of the Commonwealth maintained by the Registrar. The Bonds will be issued only as registered bonds without coupons in denominations of \$5,000 or any integral multiple thereof. The transfer of the Bonds will be registrable and they may be exchanged at the corporate trust office of the Trustee in San Juan, Puerto Rico, upon the payment of any taxes or other governmental charges required to be paid with respect to such transfer or exchange.

Authorization

Act 33 authorizes the Secretary of the Treasury to issue the Bonds pursuant to one or more resolutions adopted by the Secretary of the Treasury and approved by the Governor. In accordance with Act 33, the Secretary of the Treasury adopted and the Governor approved the Bond Resolution.

Redemption

The Bonds maturing on or after July 1, 2017 are subject to redemption prior to maturity as described below.

Optional Redemption. At the option of the Secretary of the Treasury and upon at least 30 days' notice, the Bonds maturing on or after July 1, 2017 are subject to redemption, from any moneys that may be available for that purpose (other than from moneys set aside in respect of an amortization requirement), prior to maturity, on and after July 1, 2016, either in whole or in part, on any date, (and if in part, in such order of maturity as directed by the Secretary of the Treasury), at the principal amount of the Bonds to be redeemed, together with accrued interest to the date fixed for redemption, without premium.

Mandatory Redemption. The Bonds maturing July 1, 2031 and July 1, 2035 (the "Term Bonds") are subject to redemption to the extent of the respective amortization requirements therefor set forth below (less the amount applied to the purchase of any such Term Bonds and otherwise subject to adjustment as described below), upon at least 30 days' notice, on July 1, 2027 and July 1, 2032, respectively, and on July 1 in each year thereafter at a redemption price of par plus accrued interest to the dates fixed for redemption:

Amortization Requirements for the Term Bonds Due

Year	July 1, 2031	July 1, 2035
2027	4,985,000	
2028	4,600,000	
2029	4,090,000	
2030	3,340,000	
2031	2,580,000*	
2032		1,690,000
2033		1,220,000
2034		700,000
2035		295,000*
Average Life	22.7 years	26.9 years

* Maturity

If the amount of the Term Bonds purchased or redeemed in a fiscal year exceeds the amount of the amortization requirement for such Bonds for such fiscal year, the amortization requirement for such Bonds may be decreased for such subsequent fiscal years and in such amounts aggregating the amount of such excess as the Secretary of the Treasury shall determine.

Notice of Redemption; Effect of Redemption

Any redemption of the Bonds, either in whole or in part, shall be made upon at least a 30-day prior notice by mail to DTC or, if the book-entry only system described above has been discontinued, by first class mail, postage prepaid, to all registered owners of the Bonds to be redeemed in the manner and under the terms and conditions provided in the Bond Resolution. On the date designated for redemption, notice having been given as provided in the Bond Resolution and moneys for payment of the principal of and accrued interest on the Bonds or portions thereof so called for redemption being held by the Registrar, interest on the Bonds or portions thereof so called for redemption shall cease to accrue.

Each notice of redemption shall contain, among other things, the particular Bonds (or portions thereof) being called for redemption, the redemption date and price and the address at which such Bonds are to be surrendered for payment of the redemption price. Any defect in such notice or the failure so to mail any such notice to DTC in respect of, or the registered owner of, any Bond will not affect the validity of the proceedings for the redemption of any other Bond.

If less than all the Bonds of any maturity are called for redemption, the particular Bonds so called for redemption shall be selected by the Registrar by such method as it deems fair and appropriate, except that so long as the book-entry only system shall remain in effect, in the event of any such partial redemption, DTC shall reduce the credit balances of the applicable DTC Participants in respect of the Bonds and such DTC Participants shall in turn select those Beneficial Owners whose ownership interests are to be extinguished by such partial redemption, each by such method as DTC or such DTC Participant, as the case may be, in its sole discretion, deems fair and appropriate.

Security

Provision for Payment of Public Debt

Act 33 provides that the good faith, credit and taxing power of the Commonwealth are irrevocably pledged for the prompt payment of the principal of and interest on the bonds issued under the provisions of Act 33. The Secretary of the Treasury is authorized and directed under Act 33 to pay the principal of and interest on the Bonds as the same become due and payable from any funds available for such purpose with the Department of the Treasury in the fiscal year in which such payment is due. Act 33 provides that the provisions contained therein with respect to the payment of the principal of and interest on the Bonds shall be considered to be a continuous appropriation for the Secretary of the Treasury to make such payments, even though no specific appropriations are made for such purposes. The payments under Act 33 are required to be made pursuant to the provisions of the laws of the Commonwealth that regulate the disbursement of public funds.

The Constitution of Puerto Rico provides that public debt of the Commonwealth will constitute a first claim on available Commonwealth revenues. Public debt includes general obligation bonds and notes of the Commonwealth and any payments required to be made by the Commonwealth under its guarantees of bonds and notes issued by its public instrumentalities.

The Commonwealth has allocated certain motor vehicle fuel taxes, crude oil and derivative products excise taxes and license fees to Puerto Rico Highway and Transportation Authority (the "Highway Authority"). The amounts so allocated, however, are subject to first being applied to payment of the principal of and interest on the Commonwealth public debt, but only if and to the extent that all other available revenues of the Commonwealth are insufficient for that purpose. The Commonwealth has never applied such amounts to the payment of its public debt.

Since fiscal year 1989, the Commonwealth has pledged to Puerto Rico Infrastructure Financing Authority certain federal excise taxes imposed on alcoholic beverages and tobacco

products produced in Puerto Rico and sold in the United States, which taxes are returned to the Commonwealth. The amounts so pledged, however, are subject to first being applied to payment of the principal of and interest on the Commonwealth public debt, but only if and to the extent that all other available revenues of the Commonwealth are insufficient for that purpose. The Commonwealth has never applied such amounts to the payment of its public debt.

The Constitution expressly empowers a holder of bonds and notes evidencing public debt to bring suit against the Secretary of the Treasury to require application of available revenues, including surplus, to the payment of principal of and interest on public debt when due.

Special Fund for the Bonds (General Obligation) Debt Service

Act No. 83 of the Legislature of Puerto Rico, approved on August 30, 1991, as amended, provides for the levy of an annual special tax of 1.03% of the assessed value of all real and personal property not exempt from taxation. The proceeds of said tax are credited to the Commonwealth Debt Redemption Fund (the "Redemption Fund"), for application to the payment of general obligation bonds and notes of the Commonwealth.

Act No. 39 of the Legislature of Puerto Rico, approved on May 13, 1976, as amended ("Act No. 39"), requires the Secretary of the Treasury to transfer each month from available funds of the Commonwealth to the Redemption Fund such amounts which, together with certain other funds deposited therein, will be equal to the sum of one-sixth of the interest to be paid in the next six months and one-twelfth of the principal to be paid or required to be amortized within the next twelve months on all bonds and notes of the Commonwealth for which its full faith and credit are pledged as the same become due and all bonds and notes of the Commonwealth for which the guaranty of the Commonwealth has been exercised. Moneys in the Redemption Fund are held in trust by Government Development Bank. Act No. 39 provides that the obligation of the Secretary of the Treasury to make the above transfers is cumulative, and the amount of any deficiency in any month shall be added to the amount of transfers required in future months until such deficiency has been fully paid. On June 15, 2006, the amount on deposit in the Redemption Fund was \$374.7 million, which was the required amount.

Act No. 39 expressly relates to direct obligations of the Commonwealth. It may also apply to the payment of Commonwealth guaranteed obligations of public corporations outstanding prior to the date of its adoption but not to the payment of bonds and other obligations of such public corporations guaranteed by the Commonwealth issued after the date of its adoption.

Payment Record

The Commonwealth has never defaulted on the payment of principal of or interest on any of its debt.

Debt Limitation

Section 2 of Article VI of the Constitution of Puerto Rico provides that direct obligations of the Commonwealth evidenced by full faith and credit bonds or notes shall not be issued if the

amount of the principal of and interest on such bonds and notes and on all such bonds and notes theretofore issued which is payable in any fiscal year, together with any amount paid by the Commonwealth in the preceding fiscal year on account of bonds or notes guaranteed by the Commonwealth, exceeds 15% of the average annual revenues raised under the provisions of Commonwealth legislation and covered into the Treasury of Puerto Rico (hereinafter "internal revenues") in the two fiscal years preceding the then current fiscal year. Section 2 of Article VI does not limit the amount of debt that the Commonwealth may guarantee so long as the 15% limitation is not exceeded. Internal revenues consist principally of income taxes, property taxes and excise taxes. Certain revenues, such as federal excise taxes on offshore shipments of alcoholic beverages and tobacco products and customs duties, which are collected by the United States Government and returned to the Treasury of Puerto Rico, and motor vehicle fuel taxes and license fees, which are allocated to the Highway Authority, are not included as internal revenues for the purpose of calculating the debt limit, although they may be available for the payment of debt service.

All or a portion of the proceeds of certain refunding bonds issued by the Commonwealth were invested in guaranteed investment contracts or federal agency securities (in each case rated in the highest rating category by Moody's and S&P, none of which is eligible to be used for legal defeasance under Puerto Rico law ("non-eligible investments")). Since bonds refunded with proceeds invested in non-eligible investments are not legally defeased, such bonds are treated as outstanding for purposes of the 15% debt limitation.

Joint Resolution No. 2104 of September 30, 2004 ("Joint Resolution No. 2104"), authorized the Commonwealth to enter into interest rate exchange agreements with respect to the Commonwealth's \$447,875,000 Public Improvement Refunding Bonds, Series 2004 B (the "Series 2004 B Bonds"), which were issued as variable rate bonds. Joint Resolution No. 2104 allows the Commonwealth to calculate the constitutional debt limitation using (i) the fixed rate it is required to pay under any interest rate exchange agreement entered into by the Commonwealth in connection with the Series 2004 B Bonds, and (ii) the lesser of (A) the maximum interest rate allowed by law, and (B) the maximum interest rate set forth in the resolution approving the bonds, if any, in connection with the Commonwealth's \$279,240,000 Public Improvement Refunding Bonds, Series 2004 A (the "Series 2004 A Bonds") and any Series 2004 B Bonds for which no interest rate exchange agreement is executed. In November 2004, the Commonwealth entered into two interest rate exchange agreements with respect to the Series 2004 B Bonds.

After giving effect to the issuance of the Bonds, future maximum annual debt service for the Commonwealth's outstanding general obligation debt is \$659,525,918.39 in the fiscal year ending June 30, 2019 (based on the assumption that the Series 2004 A Bonds bear interest at their actual rate per annum through July 1, 2012 and thereafter at 12% per annum and the Series 2004 B Bonds bear interest at the fixed rate paid by the Commonwealth under the interest rate exchange agreements executed in connection with such bonds). Debt service for the PRASA Guaranteed Bonds paid by the Commonwealth during fiscal year 2005 (including for this purpose debt service payments due July 1, 2005) was \$30,127,367.50. The sum of those amounts (\$689,653,286) is equal to 8.86% of \$7,779,886,000, which is the average of the adjusted internal revenues for the fiscal year ended June 30, 2004 and the adjusted internal revenues for the fiscal year ended June 30, 2005. If the bonds refunded with non-eligible

investments were treated as not being outstanding, and the interest on the Series 2004 B Bonds was calculated using the effective fixed interest rate payable by the Commonwealth under the interest rate exchange agreements entered into in respect thereof, the percentage referred to in the preceding sentence would be 8.20%.

Maturity Limitation

The Constitution provides that no bonds or notes of the Commonwealth shall mature later than 30 years from their date of issue, except bonds or notes for housing facilities, which shall mature in no more than 40 years.

PUBLIC SECTOR DEBT OF THE COMMONWEALTH

Public Sector Debt

The following table presents a summary of the public sector debt of the Commonwealth as of March 31, 2006. The table also shows the public sector debt as further adjusted by the following bond issuances and events that have occurred after March 31, 2006: (i) the issuance by Government Development Bank on May 25, 2006 of \$740,000,000 principal amount of Senior Notes, 2006 Series B (the “Series B Notes”), (ii) the issuance by Government Development Bank on June 8, 2006 of \$81,960,000 principal amount of Senior Notes, 2006 Series C (the “Series C Notes” and, together with the Series B Notes, the “Notes”), and (iii) the issuance of the Bonds. The table should be read in conjunction with the information set forth under *Debt* in *Appendix I*.

Commonwealth of Puerto Rico Public Sector Debt* (in thousands)

	March 31, 2006	As Adjusted ⁽¹⁾
Puerto Rico direct debt ⁽²⁾	\$10,580,301	\$10,681,996
Municipal debt	2,283,652	2,283,652
Public corporations debt		
Puerto Rico guaranteed debt	697,073	697,073
Debt supported by Puerto Rico appropriations or taxes	16,945,455	16,945,455
Other non-guaranteed debt	8,972,463	9,794,423
Total public corporations debt	26,614,991	27,436,951
Total public sector debt	\$39,478,944	\$40,402,599

* For a complete recital of all notes to this table, see “Public Sector Debt” under *Debt* in *Appendix I*.

⁽¹⁾ Adjusted to include the issuance of the Notes and the Bonds.

⁽²⁾ Includes general obligation bonds, tax and revenues anticipation notes, and lines of credit provided by Government Development Bank. The amount excludes certain Commonwealth general obligations that have been refunded with proceeds that were invested in non-eligible investments, even though such bonds will be considered outstanding under their respective authorizing resolutions and for purposes of calculating the Commonwealth’s constitutional debt limitation.

Debt Service Requirements for Commonwealth General Obligation Bonds

The following table presents the debt service requirements for (i) Commonwealth general obligation bonds outstanding on July 1, 2006; (ii) debt service on the Bonds; and (iii) total debt service adjusted for the issuance of the Bonds. The table excludes debt service on Commonwealth general obligation bonds that have been refunded with the proceeds of refunding bonds invested in non-eligible investments, notwithstanding that such bonds will be considered to be outstanding under their authorizing resolution and for purposes of calculating the Commonwealth's debt limitation. Debt service requirements for each fiscal year, as shown in the following table, include principal and interest due on July 1 immediately following the close of such fiscal year.

Commonwealth of Puerto Rico
Debt Service Requirements*
(in thousands)

2034	34,760	700	50	750	35,510
2035	-	295	15	310	310
Total	\$12,162,014	\$ 101,695	\$ 74,609	\$176,304	\$12,338,318

* Totals may not add due to rounding.

⁽¹⁾ Since fiscal year 1997, the Commonwealth has made annual debt service payment of approximately \$30 million pursuant to its guaranty of PRASA bonds. On January 1, 2006, PRASA began making annual debt service payments under its bonds as a result of anticipated increased revenues from its rate increases. Thus, the Commonwealth has ceased making annual debt service payments on guaranteed PRASA bonds. Also, debt service requirements on all general obligation bonds outstanding on July 1, 2006 are adjusted to exclude debt service on all general obligation bonds refunded with proceeds invested in non-eligible investments, notwithstanding that such bonds will be considered to be outstanding under their authorizing resolution and for purposes of calculating the Commonwealth's debt limitation. Interest on the Series 2004 A Bonds is calculated at their actual rate per annum through July 1, 2012 and thereafter at 12% per annum. Interest on the Series 2004 B Bonds is calculated using the respective fixed interest rates to be paid by the Commonwealth under the respective interest rate exchange agreements executed in connection with the Series 2004 B Bonds.

⁽²⁾ Debt service requirements on all general obligation bonds outstanding are adjusted as discussed in footnote 1 above and further adjusted to include the issuance of the Bonds.

TAX EXEMPTION

The Internal Revenue Code of 1986, as amended (the "Code"), includes requirements regarding the use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the Treasury of the United States, if required, which must continue to be satisfied after the issuance of the Bonds in order that interest on the Bonds not be included in gross income for federal income tax purposes. The failure to meet these requirements may cause interest on the Bonds to be included in gross income for federal income tax purposes retroactive to their date of issuance. The Commonwealth has covenanted to comply, to the extent permitted by the Constitution and the laws of the Commonwealth, with the requirements of the Code in order to maintain the exclusion from gross income for federal income tax purposes of interest on the Bonds. Bond Counsel is not aware of any provision of the Constitution or laws of the Commonwealth which would prevent the Commonwealth from complying with the requirements of the Code.

In the opinion of Bond Counsel, subject to continuing compliance by the Commonwealth with the tax covenant referred to above, under the provisions of the Acts of Congress now in force and under existing regulations, rulings and court decisions, interest on the Bonds will not be includable in gross income for federal income tax purposes. Interest on the Bonds will not be an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations. Interest on the Bonds will, however, be includable in the computation of the alternative minimum tax on corporations imposed by the Code. Bond Counsel is rendering no opinion on the effect of any action taken or not taken after the date of its opinion without its approval (except for such action or omission to act as is provided for in the documents pertaining to the Bonds) or in reliance upon the advice of counsel other than such firm on the exclusion from gross income of the interest on the Bonds for federal income tax purposes. Bond Counsel is further of the opinion that under the provisions of the Acts of Congress now in force, the Bonds and the interest thereon will be exempt from state, Commonwealth and local income taxation.

Ownership of tax-exempt obligations such as the Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, certain foreign corporations, certain S Corporations with excess passive income, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations and taxpayers who may be eligible for the earned income tax credit.

Ownership of tax-exempt obligations such as the Bonds may also result in collateral income tax consequences under Puerto Rico law to financial institutions doing business in Puerto Rico.

Prospective purchasers of the Bonds should consult their tax advisors as to the applicability and impact of any collateral consequences.

Legislation affecting municipal securities is constantly being considered by the United States Congress. There can be no assurance that legislation enacted after the date of issuance of the Bonds will not have an adverse effect on the tax-exempt status of the Bonds. Legislative or regulatory actions and proposals may also affect the economic value of tax exemption or the market prices of the Bonds.

LEGAL MATTERS

The proposed form of opinion of Sidley Austin LLP, New York, New York, Bond Counsel, is set forth in *Appendix II* to this Official Statement. Certain legal matters will be passed upon for the Purchaser by Pietrantoní Méndez & Alvarez LLP, San Juan, Puerto Rico.

LEGAL INVESTMENT

The Bonds will be eligible for deposit by banks in Puerto Rico to secure public funds and will be approved investments for insurance companies to qualify them to do business in Puerto Rico, as required by law.

UNDERWRITER'S AND PURCHASER'S DISCOUNT

Goldman, Sachs & Co. has agreed to purchase the Bonds from the Commonwealth at an underwriting discount of \$818,001.25 from the initial limited offering prices of the Bonds. The initial limited offering prices of the Bonds represent an aggregate net discount from the par amount of \$323,371.20.

GOVERNMENT DEVELOPMENT BANK FOR PUERTO RICO

As required by Act No. 272 of the Legislature of Puerto Rico, approved May 15, 1945, as amended, Government Development Bank has acted as financial advisor to the Commonwealth in connection with the Bonds offered hereby. As financial advisor, Government Development Bank participated in the selection of the purchaser of the Bonds. The Purchaser has been selected by Government Development Bank to serve from time to time as an underwriter of its obligations and the obligations of the Commonwealth, its instrumentalities and public corporations. The Purchaser or its affiliates has participated from time to time in other financial transactions with Government Development Bank.

RATINGS

Moody's and S&P have not rated the Bonds.

CONTINUING DISCLOSURE

In accordance with the requirements of Rule 15c2-12, as amended (the "Rule"), promulgated by the Securities and Exchange Commission (the "SEC"), the Commonwealth has covenanted in the Bond Resolution for the benefit of the Beneficial Owners (as defined in the Bond Resolution):

1. to file, within 305 days after the end of each fiscal year commencing with the fiscal year ending June 30, 2006, with each NRMSIR and with any Commonwealth state information depository ("SID"), core financial information and operating data for the prior fiscal year, including (i) the Commonwealth's audited financial statements, prepared in accordance with generally accepted accounting principles in effect from time to time, and (ii) material historical quantitative data (including financial information and operating data) on the Commonwealth and its revenues, expenditures, financial operations and indebtedness, in each case generally found in this Official Statement; and
2. to file, in a timely manner, with each NRMSIR or with the Municipal Securities Rulemaking Board and with each Commonwealth SID, notice of any failure of the Commonwealth to comply with paragraph above and of the occurrence of any of the following events with respect to the Bonds, if material:
 - a. principal and interest payment delinquencies;
 - b. non-payment related defaults;
 - c. unscheduled draws on debt service reserves reflecting financial difficulties;
 - d. unscheduled draws on credit enhancements reflecting financial difficulties;
 - e. substitution of credit or liquidity providers, or their failure to perform;
 - f. adverse opinions or events affecting the tax-exempt status of the Bonds;
 - g. modifications to rights of the holders (including Beneficial Owners) of the Bonds;
 - h. Bond calls;
 - i. defeasances;
 - j. release, substitution, or sale of property securing repayment of the Bonds; and
 - k. rating changes.

Events (c), (d) and (e) are included pursuant to a letter from the SEC staff to the National Association of Bond Lawyers, dated September 19, 1995. However, events (c), (d) and (e) may not be applicable, since the terms of the Bonds do not provide for "debt service reserves," "credit enhancements," or "liquidity providers." In addition, with respect to the following events:

Events (d) and (e). The Commonwealth does not undertake to provide any notice with respect to credit enhancement added after the primary offering of the Bonds, unless the Commonwealth applies for or participates in obtaining the enhancement.

Event (f). For information on the tax status of the Bonds, see *Tax Exemption*.

Event (h). The Commonwealth does not undertake to provide the above-described event notice of a mandatory scheduled redemption, not otherwise contingent upon the occurrence of an event, if the terms, dates and amounts of redemption are set forth in detail in this Official Statement under “*The Bonds — Redemption*,” the only open issue is which Bonds will be redeemed in the case of a partial redemption, notice of redemption is given to the Bondholders as required under the terms of the Bonds, and public notice of the redemption is given pursuant to Securities Exchange Act of 1934 Release No. 34-23856 of the SEC, even if the originally scheduled amounts are reduced by prior optional redemptions or Bond purchases.

The Commonwealth expects to provide the information described in paragraph 1(ii) above by filing its first bond official statement that includes such information for the preceding fiscal year or, if no such official statement is issued by the 305-day deadline, by filing a separate document containing such information.

The Commonwealth has made similar continuing disclosure covenants in connection with prior bond issuances, and has complied with all such covenants, except as hereinafter noted. The Commonwealth’s audited financial statements for the fiscal year ended June 30, 2002 were filed after the Commonwealth’s filing deadline of May 1, 2003, because of delays in finalizing such financial statements resulting from the implementation of Governmental Accounting Standards Board Statement No. 34 (“GASB 34”). The Commonwealth’s audited financial statements for the fiscal year ended June 30, 2003 were also filed after the Commonwealth’s filing deadline of April 30, 2004, because of delays in finalizing the financial statements of certain of the Commonwealth’s reporting units due to the implementation of GASB 34.

As of the date of this Official Statement, there is no Commonwealth SID, and the NRMSIRs are: Bloomberg Municipal Repository, 100 Business Park Drive, Skillman, New Jersey 08558; Standard & Poor’s Securities Evaluations, Inc., 55 Water Street, 45th Floor, New York, New York 10041; FT Interactive Data, Attn: NRMSIR, 100 William Street, 15th Floor, New York, New York 10038; and DPC Data Inc., One Executive Drive, Fort Lee, New Jersey 07024.

The Commonwealth may from time to time choose to provide notice of the occurrence of certain other events in addition to those listed above if, in the judgment of the Commonwealth, such other events are material with respect to the Bonds, but the Commonwealth does not undertake to provide any such notice of the occurrence of any material event except those events listed above.

The Commonwealth acknowledges that its undertaking pursuant to the Rule described above is intended to be for the benefit of the Beneficial Owners of the Bonds, and shall be enforceable by any such Beneficial Owners; provided that the right to enforce the provisions of its undertaking shall be limited to a right to obtain specific enforcement of the Commonwealth’s obligations thereunder.

No Beneficial Owner may institute any suit, action or proceeding at law or in equity (“Proceeding”) for the enforcement of the foregoing covenants (the “Covenants”) or for any remedy for breach thereof, unless such Beneficial Owner shall have filed with the Commonwealth written notice of any request to cure such breach, and the Commonwealth shall have refused to comply within a reasonable time. All Proceedings shall be instituted only in a Commonwealth court located in the Municipality of San Juan, Puerto Rico for the equal benefit of all Beneficial Owners of the outstanding Bonds benefited by the Covenants, and no remedy shall be sought or granted other than specific performance of any of the Covenants at issue. Moreover, Proceedings filed by Beneficial Owners against the Commonwealth may be subject to the sovereign immunity provisions of Section 2 of Act No. 104, approved June 29, 1955, as amended, which governs the scope of legal actions against the Commonwealth, substantially limits the amount of monetary damages that may be awarded against the Commonwealth and provides certain notice provisions, the failure to comply with which may further limit any recovery.

The Covenants may only be amended if:

(1) the amendment is made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the Commonwealth, or type of business conducted; the Covenants, as amended, would have complied with the requirements of the Rule at the time of award of the Bonds, after taking into account any amendments or change in circumstances; and the amendment does not materially impair the interest of Beneficial Owners, as determined by persons unaffiliated with the Commonwealth; or

(2) all or any part of the Rule, as interpreted by the staff of the SEC at the date of the adoption of such Rule, ceases to be in effect for any reason, and the Commonwealth elects that the Covenants shall be deemed amended accordingly.

The Commonwealth has further agreed that the annual financial information containing any amended operating data or financial information will explain, in narrative form, the reasons for the amendment and the impact of the change in the type of operating data or financial information being provided.

Any assertion of beneficial ownership must be filed, with full documentary support, as part of the written request described above.

The Covenants have been made in order to assist the Purchaser in complying with the Rule.

MISCELLANEOUS

The foregoing summaries of or references to Act 33, the Bonds, the Bond Resolution and the summaries of or references to the various acts contained in the Commonwealth Report, are made subject to all the detailed provisions thereof to which reference is hereby made for further information and do not purport to be complete statements of any or all of such provisions.

Appended to and constituting a part of this Official Statement is the proposed form of opinion of Bond Counsel (*Appendix II*).

The information set forth in this Official Statement and incorporated herein by reference, except for information pertaining to DTC was supplied by certain officials of the Commonwealth or certain of its agencies or instrumentalities, in their respective official capacities, or was obtained from publications of the Commonwealth or certain of its agencies or instrumentalities, and is included or incorporated by reference in this Official Statement on the authority of such officials or the authority of such publications as public official documents. The information pertaining to DTC was supplied by DTC.

COMMONWEALTH OF PUERTO RICO
Financial Information and Operating Data Report
June 1, 2006

INTRODUCTION

Geographic Location and Demography

Puerto Rico, the fourth largest of the Caribbean islands, is located approximately 1,600 miles southeast of New York City. It is approximately 100 miles long and 35 miles wide.

According to the United States Census Bureau, the population of Puerto Rico was 3,808,610 in 2000 (3,911,299 in 2005 according to a Census Bureau estimate), compared to 3,522,000 in 1990. As of 2000, the population of San Juan, the island's capital and largest city, was 434,375.

Relationship with the United States

Puerto Rico was discovered by Columbus in 1493 and shortly thereafter the island was conquered and settled by the Spaniards. It remained a Spanish possession for four centuries.

Puerto Rico came under United States sovereignty pursuant to the Treaty of Paris, signed on December 10, 1898, which ended the Spanish-American War. Puerto Ricans have been citizens of the United States since 1917. In 1950, after a long evolution toward greater self-government for Puerto Rico, the Congress of the United States enacted Public Law 600, which is "in the nature of a compact" and which became effective upon its acceptance by the electorate of Puerto Rico. It provides that those sections of existing law which defined the political, economic, and fiscal relationship between Puerto Rico and the United States would remain in full force. It also authorized the people of Puerto Rico to draft and adopt their own Constitution. The Constitution was drafted by a popularly elected constitutional convention, overwhelmingly approved in a special referendum by the people of Puerto Rico and approved by the United States Congress and the President of the United States, becoming effective upon proclamation of the Governor of Puerto Rico on July 25, 1952. Puerto Rico's relationship with the United States is referred to herein as commonwealth status.

The United States and the Commonwealth of Puerto Rico (the "Commonwealth") share a common defense, market, and currency. The Commonwealth exercises virtually the same control over its internal affairs as do the 50 states. It differs from the states, however, in its relationship with the federal government. The people of Puerto Rico are citizens of the United States but do not vote in national elections. They are represented in Congress by a Resident Commissioner who has a voice in the House of Representatives but no vote. Most federal taxes, except those such as Social Security taxes which are imposed by mutual consent, are not levied in Puerto Rico. No federal income tax is collected from Puerto Rico residents on income earned in Puerto Rico, except for certain federal employees who are subject to taxes on their salaries.

The official languages of Puerto Rico are Spanish and English.

Governmental Structure

The Constitution of the Commonwealth provides for the separation of powers of the executive, legislative, and judicial branches of government. The Governor is elected every four years. The Legislative Assembly consists of a Senate and a House of Representatives, the members of which are elected for four-year terms. The highest court within the local jurisdiction is the Supreme Court of Puerto

Rico. Puerto Rico constitutes a District in the Federal Judiciary and has its own United States District Court. Decisions of this court may be appealed to the United States Court of Appeals for the First Circuit and from there to the Supreme Court of the United States.

Governmental responsibilities assumed by the central government of the Commonwealth are similar in nature to those of the various state governments. In addition, the central government assumes responsibility for local police and fire protection, education, public health and welfare programs, and economic development.

Principal Officials Responsible for Fiscal Matters

Aníbal Acevedo Vilá was sworn in as Governor of Puerto Rico on January 2, 2005. He is a graduate of the University of Puerto Rico, where he obtained a Bachelor's degree in Political Science and a Juris Doctor degree. He obtained an LL.M. from Harvard Law School and served as law clerk for Puerto Rico Supreme Court Judge Federico Hernández Denton and for U.S. First Circuit Court of Appeals Judge Levin Campbell. He also served in the public sector as legislative adviser to the Governor of Puerto Rico. From 1993 to 2001, he served as an elected member of the Puerto Rico House of Representatives. From 2001 until assuming his position as Governor, he served as the elected Resident Commissioner of the Commonwealth in the U.S. House of Representatives.

Juan C. Méndez, Secretary of the Department of the Treasury (the "Treasury"), took office in January 2005. He is a certified public accountant and a graduate of the University of Puerto Rico, where he obtained a Bachelor's degree in Accounting and a Juris Doctor degree. He obtained an LL.M. in tax law from Georgetown University Law Center. From 2002 to mid-2004, he worked as a technical advisor to the Secretary of the Treasury. Prior to 2002, he worked as a tax attorney at a large law firm in Puerto Rico.

Ileana F. Fas Pacheco, Director of the Office of Management and Budget ("OMB"), took office in January 2005. She is a graduate of the University of Puerto Rico, where she obtained a Bachelor's degree in Science with a major in Electrical Engineering. She obtained a Master's degree in Business Administration in International Management from Thunderbird, the American Graduate School of International Management. From 2001 until assuming her current position, she worked in the public sector as Special Assistant to the Puerto Rico Secretary of State, legislative assistant to the Resident Commissioner, and Director of the Office of Federal Affairs of the Puerto Rico Department of Education. Prior to 2001, she worked as an electrical engineer at an electronics company.

Alfredo Salazar Conde became Acting President of Government Development Bank for Puerto Rico ("GDB") effective on August 19, 2005. Mr. Salazar is a private investor with over 30 years of experience in commercial banking. Mr. Salazar served as President of GDB from 1975 to 1976 and as Executive Director of Puerto Rico Industrial Development Company during 1990. Mr. Salazar has a Bachelor's degree in economics from Villanova University and pursued post graduate studies in finance at New York University and Harvard Business School.

Political Trends

For many years there have been two major views in Puerto Rico with respect to Puerto Rico's relationship with the United States: one favoring commonwealth status, represented by the Popular Democratic Party, and the other favoring statehood, represented by the New Progressive Party. The following table shows the percentages of the total votes received by the gubernatorial candidates of the various parties in the last five elections. While the electoral choices of Puerto Rico's voters are not based solely on party preferences regarding Puerto Rico's relationship with the United States, candidates who

support a continuing relationship between Puerto Rico and the United States have prevailed in elections for many years.

	<u>1988</u>	<u>1992</u>	<u>1996</u>	<u>2000</u>	<u>2004</u>
Popular Democratic Party	48.7%	45.9%	44.5%	48.6%	48.4%
New Progressive Party	45.8%	49.9%	51.1%	45.7%	48.2%
Puerto Rico Independence Party	5.4%	4.2%	3.8%	5.2%	2.7%
Others	0.1%	--	0.6%	0.5%	0.6%

With the results of the 2004 election, control of the executive branch continued under the Popular Democratic Party while the legislative branch is now controlled by the New Progressive Party. The composition of the Senate and House of Representatives by political party is as follows:

	<u>Senate</u>	<u>House</u>
Popular Democratic Party	9	18
New Progressive Party	17	32
Puerto Rico Independence Party	1	1
Total	<u>27</u>	<u>51</u>

The next general election (gubernatorial, municipal, and legislative) in Puerto Rico will be held in November 2008. Voter participation in Puerto Rico is substantially higher than in the United States, averaging 82% since 1972.

THE ECONOMY

General

The Commonwealth has established policies and programs directed principally at developing the manufacturing and services sectors of the economy and expanding and modernizing the Commonwealth's infrastructure. Domestic and foreign investments have been stimulated by selective tax exemptions, development loans, and other financial and tax incentives. Infrastructure expansion and modernization have been to a large extent financed by bonds and notes issued by the Commonwealth, its public corporations, and municipalities. Economic progress has been aided by significant increases in the levels of education and occupational skills of the population.

Puerto Rico has enjoyed more than two decades of almost continuous economic expansion. Virtually every sector of the economy has participated in this expansion, and record levels of employment have been achieved. Factors contributing to this expansion include government-sponsored economic development programs, increases in the level of federal transfer payments, and the relatively low cost of borrowing. In some years, these factors were aided by a significant expansion in construction investment driven by infrastructure projects, private investment, primarily in housing, and relatively low oil prices. Since the last recession in fiscal year 2002 (from July 1, 2001 to June 30, 2002), the economy has been expanding at a moderate rate of 2.3%. Since key economic figures have begun to indicate a slowdown in the economy, the Planning Board is expected to publish a significant downward revision of its January forecast for fiscal year 2006 and 2007.

Personal income, both aggregate and per capita, has increased consistently each fiscal year from 1985 to 2005. In fiscal year 2005, aggregate personal income was \$48.8 billion (\$44.1 billion in 2000 prices) and personal income per capita was \$12,502 (\$11,304 in 2000 prices).¹ Personal income includes transfer payments to individuals in Puerto Rico under various social programs. Total federal payments to Puerto Rico, which include transfers to local government entities and expenditures of federal agencies in Puerto Rico, in addition to federal transfer payments to individuals, are lower on a per capita basis in Puerto Rico than in any state of the United States. Transfer payments to individuals in fiscal year 2005 were \$9.9 billion, of which \$7.5 billion, or 77%, represented entitlements to individuals who had previously performed services or made contributions to programs such as Social Security, Veterans' Benefits, Medicare, and U.S. Civil Service retirement pensions.

Total average annual employment (as measured by the Department of Labor and Human Resources Household Employment Survey) has also increased. From fiscal year 2001 to fiscal year 2005, annual employment increased from 1,144,120 to 1,237,593, an increase of 8.2%.

The dominant sectors of the Puerto Rico economy are manufacturing and services. The manufacturing sector has undergone fundamental changes over the years as a result of increased emphasis on higher wage, high technology industries, such as pharmaceuticals, biotechnology, electronics, computers, microprocessors, professional and scientific instruments, and certain high technology machinery and equipment. The services sector, including finance, insurance, real estate, wholesale and retail trade, and tourism, also plays a major role in the economy. It ranks second to manufacturing in contribution to the gross domestic product and leads all sectors in providing employment.

The following table shows the gross national product for the five fiscal years ended June 30, 2005.

	Commonwealth of Puerto Rico				
	Gross National Product				
	Fiscal Years Ended June 30,				
	2001	2002	2003	2004	2005⁽¹⁾
Gross national product - \$ millions ⁽²⁾	\$44,047	\$45,071	\$47,479	\$50,391	\$53,380
Real gross national product - \$ millions (2000 prices)	42,045	41,900	42,795	43,984	44,882
Annual percentage increase in real gross national product (2000 prices)	1.5%	(0.3%)	2.0%	2.8%	2.0%
U.S. annual percentage increase in real gross national product (2000 prices)	2.1%	0.6%	2.0%	4.3%	3.4%

(1) Preliminary.

(2) In current dollars.

Sources: Puerto Rico Planning Board and Global Insight Inc.

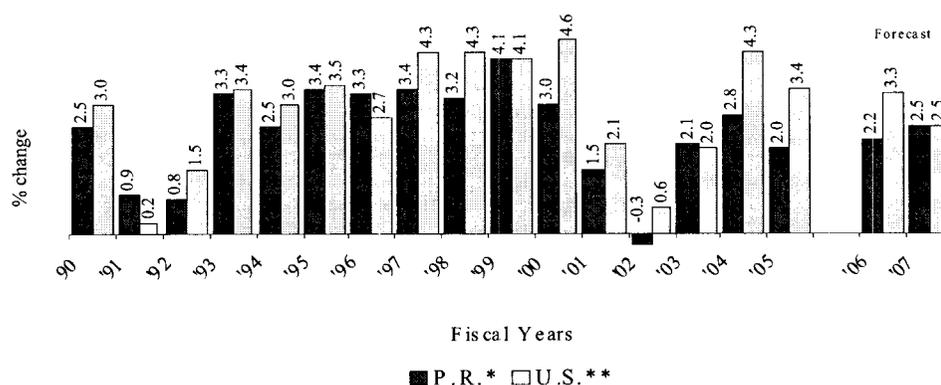

The economy of Puerto Rico is closely linked to the United States economy, as most of the external factors that affect the Puerto Rico economy (other than the price of oil) are determined by the policies and results of the economy of the United States. These external factors include exports, direct investment, the amount of federal transfer payments, the level of interest rates, the rate of inflation, and tourist expenditures. During fiscal year 2005 (from July 1, 2004 to June 30, 2005) approximately 83% of Puerto Rico's exports went to the United States mainland, which was also the source of approximately

¹ Different price deflators are used for gross national product and personal income statistics. The year 2000 is used as a basis for comparison because that is the year used by the U.S. Department of Commerce.

50% of Puerto Rico's imports. Consequently, the recession in the United States in 2001, and the subsequent recovery, was also reflected in the Puerto Rico economy, although to a lesser degree.

The following graph compares the growth rate of real gross national product for the Puerto Rico and United States economies since fiscal year 1990, and the forecast of the growth rate for fiscal years 2006 and 2007.

Real GNP Growth Rate

* Puerto Rico Planning Board is expected to revise downward fiscal years 2006 and 2007 forecast
 ** Global Insight 06/06.

Since the 1950s, the Puerto Rico Planning Board (the “Planning Board”) has prepared a complete set of macroeconomic measures like those prepared for the United States by the Bureau of Economic Analysis (“BEA”) of the Department of Commerce. In contrast with the BEA, which computes the economic accounts on a quarterly basis, the Planning Board computes the economic accounts on an annual basis. Like the BEA, the Planning Board revises the macroeconomic numbers on a regular basis. The Planning Board has always classified the latest annual numbers as preliminary until they are revised and made final in conjunction with the release of new data each year. At present, all macroeconomic accounts for fiscal year 2005 are preliminary until the revised figures are released.

Forecast for Fiscal Year 2007

The Planning Board’s current real gross national product forecast for fiscal year 2007, which was revised in January 2006, projected an increase of 2.5%, or 5.9% in current dollars. Personal income was also expected to grow by 2.4%, or 5.8% in current dollars. Since key economic figures have begun to indicate a slowdown in the economy, the Planning Board’s forecast will likely be revised downward significantly. Factors affecting the economy include the effect of increases in the price of oil and the expected adverse economic impact of the actions taken by the Commonwealth to address its budget deficit for fiscal year 2006. The impact of these actions will be mainly reflected during fiscal year 2007. For a discussion of these actions, see “2006 Projected Expenditures” under *Budget of the Commonwealth of Puerto Rico*.

Forecast for Fiscal Year 2006

The Planning Board's current real gross national product forecast for fiscal year 2006, which was revised in January 2006, projects an increase of 2.2%, or 5.8% in current terms. This forecast, however, is expected to be revised significantly downward by the Planning Board due to the effects of several key variables. Among the variables contributing to the Planning Board's downward revision in the forecast are the persistent high levels of oil prices, the upward trend in short-term interest rates, the depreciation of the dollar (which affects the value of imports from foreign countries, which account for approximately 50% of total imports to Puerto Rico), and the possible deceleration of public investment due to the Commonwealth's budget deficits (which could further reduce activity in construction and other sectors). The persistent high level of the price of oil and its derivatives (such as gasoline) has served to reduce the income available for alternative purchases and, thereby, negatively affected domestic demand. Due to the Commonwealth's dependence on oil for power generation and gasoline, the high level of oil prices will account for an increased outflow of approximately \$1 billion in fiscal year 2006. The upward trend in short term interest rates has also directly affected construction activity, which has been a major contributor to economic growth in recent years, and could accentuate the fiscal difficulties of the Commonwealth's government with respect to the fiscal year 2006 budget deficit. The implementation of a tax reform program, however, is expected to alleviate the Commonwealth's fiscal difficulties by raising additional revenues from the imposition of a consumption tax. For a discussion of the Commonwealth's fiscal difficulties and the proposed tax reform, see "2006 Projected Expenditures" under *Budget of the Commonwealth of Puerto Rico*, "Summary and Management's Discussion of General Fund Results — Commonwealth's Structural Budget Imbalance" and "Proposed Tax Reform" under *Puerto Rico Taxes, Other Revenues, and Expenditures*.

According to the Department of Labor and Human Resources Household Employment Survey (the "Household Survey"), total employment seasonally adjusted for the first eleven months of fiscal year 2006 averaged 1,257,200, an increase of 1.6% when compared to 1,237,800 for the same period of fiscal year 2005. The driving force of total employment is self-employment. The unemployment rate for the first eleven months of fiscal year 2006 was 11.8%, an increase from 10.5% for the same period in fiscal year 2005. The seasonally adjusted unemployment rate for May 2006 increased to approximately 20% due to the partial shutdown of the government in May 2006. This significant increase was due to the fact that the partial shutdown of the government coincided with the dates during which the Household Survey data are collected. This figure should return to more normal levels during June 2006.

Fiscal Year 2005

The Planning Board's preliminary reports of the performance of the Puerto Rico economy during fiscal year 2005 indicate that the economy registered an increase of 2.0% in real gross national product. Nominal gross national product was \$53.4 billion in fiscal year 2005 (\$44.9 billion in 2000 prices), compared to \$50.4 billion in fiscal year 2004 (\$44.0 billion in 2000 prices). This represents an increase in nominal gross national product of 5.9%. Aggregate personal income increased from \$45.9 billion in fiscal year 2004 (\$43.0 billion in 2000 prices), to \$48.8 billion in fiscal year 2005 (\$44.1 billion in 2000 prices), and personal income per capita increased from \$11,819 in fiscal year 2004 (\$11,072 in 2000 prices), to \$12,502 in fiscal year 2005 (\$11,304 in 2000 prices).

According to the Household Survey, total employment for fiscal year 2005 averaged 1,237,600, an increase of 2.7% compared to 1,205,600 for fiscal year 2004. The unemployment rate for fiscal year 2005 was 10.6%, a decrease from 11.4% for fiscal year 2004. As in the past, the economy of Puerto Rico followed the performance of the United States economy.

Economic Development Program for the Private Sector

The Commonwealth's economic development program for the private sector is now focused on initiatives aimed at producing a more diversified and sustainable economic development. The three principal elements of these initiatives are the following: (i) the promotion of foreign investment focused on life sciences and communications and information technology; (ii) the promotion of local entrepreneurial investment that builds upon the Commonwealth's competitive advantages in, among other areas, life sciences, tourism, commerce, and services; and (iii) investment in infrastructure and human capital to complement the promotion of foreign and local investment and focus on the current and future needs for human capital.

The Commonwealth has formulated a strategic plan to enhance its competitiveness in knowledge-based economic sectors, such as research and development of science and technology products. Four major components of this strategic plan are: (i) building on the strong presence in Puerto Rico of multinational companies in the science and technology sectors; (ii) building on Puerto Rico's skilled workforce to promote the expansion of research and development facilities by companies currently operating in Puerto Rico; (iii) attracting new companies in such sectors; and (iv) providing incentives for companies and entrepreneurs to engage in the process of innovation and commercialization of new products and to establish research and development facilities in Puerto Rico. The last initiative includes the creation of the Puerto Rico Science & Technology Trust, a government-sponsored trust, that will provide grants and financing to companies, entrepreneurs, and universities that engage in these activities.

The Commonwealth is also providing incentives to promote the establishment of distribution and call centers, the acquisition and development of patents, and the development of a local entrepreneurial class. Distribution and call centers located in the Commonwealth will benefit from special incentives such as: (i) an excise tax exemption on machinery and equipment acquired by a call center; and (ii) a preferential tax rate of 4% for call centers located in Puerto Rico if they offer services to Latin America and a preferential tax rate of 2% if they offer hemisphere or worldwide services. The Commonwealth has decided to focus on this type of industry because it is labor intensive, presents no environmental concerns, and is generally able to start operations quickly.

With respect to the acquisition and development of patents, under newly enacted legislation, the Secretary of the Treasury may (i) negotiate the payment of taxes on patent royalties; and (ii) reduce the tax rate on patent royalties to a rate as low as 2%. These incentives are in addition to those already enacted for research and development carried out in the Commonwealth. To further develop a local entrepreneurial class, the Commonwealth has enacted legislation providing local entrepreneurs with the following benefits: (i) tax incentives to retailers that use their distribution channels to sell products made in Puerto Rico in other jurisdictions; (ii) at least 15% of products and services purchased by government agencies must be locally manufactured or provided; and (iii) the use of government-sponsored financing, marketing and/or training to promote the production of economically feasible products or services for Puerto Rico markets.

Puerto Rico Tax Incentives

One of the benefits enjoyed by the Commonwealth is that corporations operating in Puerto Rico (other than corporations organized in the United States with a local branch) and individuals residing in Puerto Rico generally are not subject to federal income taxes. This enables the Commonwealth to utilize local tax legislation as a tool for stimulating economic development in Puerto Rico. See "Tax Incentives" below.

In this regard, the Commonwealth enacted legislation extending certain benefits of its most recent tax incentive law, Act No. 135 of December 2, 1997, as amended (the "1998 Tax Incentives Act"), to all eligible businesses operating under previous tax incentives laws. These benefits include a 200% deduction for research and development expenses and worker training expenses, the ability to deduct as a current expense investments in machinery and equipment, and the ability to claim a tax credit equal to 25% of the purchase price of a product manufactured in the Commonwealth (in excess of a base amount) or 35% of the purchase price of a locally manufactured recycled product.

The 1998 Tax Incentives Act was also amended to allow a credit against the Puerto Rico tax liability of investors that acquire the majority of the stock, partnership interests or operational assets of an exempted business that is in the process of closing operations in Puerto Rico. A credit against Puerto Rico tax liability is also provided to investors that contribute cash to such exempted business for the construction or improvement of its physical plant and the purchase of machinery and equipment. The amount of the credit is equal to 50% of the cash invested for such purposes, not to exceed \$5,000,000 per exempted business. The credits are subject to approval by the Secretary of the Treasury, and the maximum amount of such credits for any fiscal year is \$15,000,000.

In addition, legislation was enacted (i) amending the 1998 Tax Incentives Act to permit income tax rates lower than 2% for companies that establish operations in Puerto Rico in "core pioneer industries" which utilize innovative technology in their operations not used in Puerto Rico prior to January 1, 2000; (ii) granting tax credits with respect to eligible investments made in the construction or substantial rehabilitation of housing units to be rented to low income families; (iii) granting income tax exemption to financial institutions for the fees and interest income received in connection with loans or guarantees of loans made to finance tourism development projects; (iv) granting an exemption to qualified associations administering timesharing rights or vacation clubs and to owners' associations of areas designated as tourism enhancement districts; (v) granting income tax exemption to financial institutions for charges collected on obligations issued for the financing of tourism projects; (vi) granting tax exemption for investments in infrastructure made by housing developers; (vii) granting tax credits to Puerto Rico businesses that acquire products manufactured in Puerto Rico for exportation; and (viii) rehabilitating urban centers through the development of housing projects, community areas, commercial areas, parks and recreational spaces, construction and renovation of structures, and the development of undeveloped or under-developed sites.

Reduction of the Costs of Doing Business

The Commonwealth believes that, to make Puerto Rico more competitive and foster investment, it needs to reduce the cost of doing business in Puerto Rico. In order to accomplish this, the Commonwealth proposes to (i) promote the creation of more cogeneration power plants to diversify energy fuel sources and reduce oil imports for electric power generation; (ii) streamline the permitting process to accelerate and reduce the cost of investment in Puerto Rico; and (iii) create a multi-agency task force to expedite critical projects in the life sciences sector. The Commonwealth has also implemented additional initiatives to restructure certain government agencies in order to improve the services offered by these agencies and provide such services in a more efficient manner.

The Commonwealth is in the process of diversifying its energy fuel sources. Two cogeneration power plants, one of which is fueled by coal and the other by liquefied natural gas, have reduced Puerto Rico's dependence on oil imports for the generation of electricity by approximately 25%, from 99% to 74%. Currently, as part of the Electric Power Authority's capital improvement plan, the Authority is considering building an additional cogeneration power plant fueled by liquefied natural gas in the municipality of Mayagüez.

Federal Tax Incentives

In connection with the phase-out of Sections 30A and 936 of the U.S. Internal Revenue Code of 1986, as amended (the “U.S. Code”) (see “Tax Incentives – Incentives Under the U.S. Code” below), the United States Senate requested the Joint Commission on Taxation (“JCT”) and the General Accounting Office (“GAO”) to study the economic impact of such phase-out and present recommendations on alternative tax incentives for U.S.-based companies operating in Puerto Rico. In anticipation of the final phase-out of Sections 30A and 936 of the U.S. Code, most U.S.-based companies operating under Sections 30A and 936 of the U.S. Code have converted from United States corporations to Controlled Foreign Corporations (“CFCs”), thus lessening the impact of the phase-out of those sections. Currently, the United States Congress is considering legislation that would extend to production activities that take place in Puerto Rico the benefit of section 199 of the U.S. Code, which provides a three-point reduction in the federal income tax rate, phased-in over five years (from 35% to 31.85% after 2009). The Commonwealth is also seeking the extension of additional sections of the U.S. Code that provide a dividends received deduction for a percentage of profits generated in Puerto Rico by CFCs, as well as deductions that would encourage investments in research and development activities.

Employment and Unemployment

The number of persons employed in Puerto Rico during fiscal year 2005 averaged 1,237,600, a 2.7% increase from 1,205,600 in fiscal year 2004. Unemployment, although at relatively low historical levels, remains above the United States average. The average unemployment rate decreased from 11.4% in fiscal year 2004 to 10.6% in fiscal year 2005.

The following table presents annual statistics of employment and unemployment for fiscal year 2001 through fiscal year 2005 and seasonally adjusted for the first eleven months of fiscal year 2006. These employment figures are based on the Household Survey, which includes self-employed individuals, instead of the non-farm payroll employment survey (the "Payroll Survey"), which does not. The number of self-employed individuals represents around 17% of civilian employment in Puerto Rico, more than double the level in the United States.

Economic Performance by Sector

From fiscal year 2001 to fiscal year 2005, the manufacturing and services sectors generated the largest portion of gross domestic product. The three sectors of the economy that provide the most employment are manufacturing, services and government.

The following table presents annual statistics of gross domestic product by sector and gross national product for the five fiscal years ended June 30, 2001 through 2005.

Commonwealth of Puerto Rico Gross Domestic Product by Sector and Gross National Product (in millions at current prices)

Manufacturing

Manufacturing is the largest sector of the Puerto Rico economy in terms of gross domestic product. The Planning Board estimates that in fiscal year 2005 manufacturing generated \$33.1 billion or 40.4% of gross domestic product. During fiscal year 2005, payroll employment for the manufacturing sector was 117,242, a decrease of 1.1% compared with fiscal year 2004, with most of the job losses occurring in labor-intensive industries. Most of the island's manufacturing output is shipped to the United States mainland, which is also the principal source of semi-finished manufactured articles on which further manufacturing operations are performed in Puerto Rico. The United States minimum wage laws are applicable in Puerto Rico. As of December 2005, the average hourly manufacturing wage rate in Puerto Rico was 66.8% of the average mainland United States rate.

Manufacturing in Puerto Rico is now more diversified than during the earlier phases of its industrial development and includes several industries less prone to business cycles. In the last three decades, industrial development has tended to be more capital intensive and more dependent on skilled

labor. This gradual shift in emphasis is best exemplified by large investments over the last decade in the pharmaceutical, scientific instruments, computers and electrical products industries in Puerto Rico. One of the factors encouraging the development of the manufacturing sector has been the tax incentives offered by the federal and Puerto Rico governments. Federal legislation enacted in 1996, however, which amended Section 936 of the U.S. Code, phases out the federal tax incentives during a ten-year period. See "Tax Incentives - Incentives Under the U.S. Code" under *The Economy*.

The following table sets forth gross domestic product by manufacturing sector for the five fiscal years ended June 30, 2001 through June 30, 2005.

(2) Preliminary.

Source: Department of Labor and Human Resources, Current Employment Statistic Survey (Establishment Survey - NAICS Codes)

Total employment in the manufacturing sector decreased by 21,243 from fiscal year 2001 to fiscal year 2005. This reduction in manufacturing employment was coupled with a significant increase in manufacturing productivity and investment as shown by the expansion in real manufacturing output and in the growth of exports. Most of the decrease in employment has been concentrated in labor intensive industries, particularly apparel, textiles, tuna canning, and leather products.

Services

Puerto Rico has experienced significant growth in the services sector, which includes finance, insurance, real estate, wholesale and retail trade, tourism and other services, in terms of both income and employment over the past decade, showing a favorable trend as compared with certain other industrialized economies. During the period between fiscal years 2001 and 2005, the gross domestic product in this sector, in nominal terms, increased at an average annual rate of 4.9%, while payroll employment in this sector increased at an average annual rate of 1.1%. It should also be noted that in the Puerto Rico labor market, self-employment, which is not accounted for in the Payroll Survey, represents approximately 17% of total employment according to the Household Survey. Most of the self-employment is concentrated in the service and construction sectors. For example, in fiscal year 2003 the number of self-employed individuals was 180,464, out of which 46.0% were in the service sector and 10.5% were in the construction sector. The development of the services sector has been positively affected by demand generated by other sectors of the economy, such as manufacturing, construction and agriculture. The services sector in Puerto Rico has a diversified base.

The high degree of knowledge, skills, and expertise in professional and technical services available in Puerto Rico places the island in a favorable competitive position with respect to Latin America and other trading countries throughout the world.

The services sector ranks second to manufacturing in its contribution to gross domestic product, and it is the sector with the greatest employment. In fiscal year 2005, services generated \$32.3 billion of gross domestic product, or 39.4% of the total. Services employment grew from 516,135 in fiscal year 2001 to 547,057 in fiscal year 2005 (representing 52.5% of total non-farm payroll employment). This represents a cumulative increase of 6.0% during such period. Wholesale and retail trade, finance, insurance and real estate experienced significant growth in fiscal years 2001 to 2005, as measured by gross domestic product. From fiscal year 2001 to 2005, gross domestic product increased in wholesale and retail trade from \$8.3 billion to \$10.4 billion, and in finance, insurance, and real estate from \$11.3 billion to \$13.6 billion. There are sixteen commercial banks and trust companies currently operating in Puerto Rico. Total assets of these institutions as of December 31, 2005 were \$109.1 billion. As of December 31, 2005, there were approximately thirty-five international banking entities operating in Puerto Rico licensed to conduct offshore banking transactions with total assets of \$74.1 billion.

The following tables set forth gross domestic product and employment for the services sector for fiscal years 2001 to 2005.

Hotels and Related Services - Tourism

During fiscal year 2005, the number of persons registered in tourist hotels, including residents of Puerto Rico and tourists staying in more than one hotel during their visit, was 1,842,400, an increase of 3.1% over the number of persons registered during the same period in fiscal year 2004. The number of non-resident tourists registered in tourist hotels during fiscal year 2005 increased 2.8% compared to fiscal year 2004 due to new hotel rooms opened in 2005. Hotel rooms available during fiscal year 2005 increased 5.3% compared to fiscal year 2004. The average number of rooms rented in tourist hotels increased 3.1% during fiscal year 2005 compared to fiscal year 2004. The average occupancy rate in tourist hotels during fiscal year 2005 was 70.8% compared to 72.4% for fiscal year 2004. The decrease in the occupancy rate in tourist hotels during fiscal year 2005 was due to the addition of new hotel rooms.

During the first six months of fiscal year 2006, the number of persons registered in tourist hotels, including residents of Puerto Rico and tourists staying in more than one hotel during their visit, was 903,700, an increase of 1.1% over the number of persons registered during the same period in fiscal year 2005. The average occupancy rate in tourist hotels during the first six months of fiscal year 2006 was 66.6%, compared to 68.1% during the same period in fiscal year 2005. The average number of rooms rented in tourist hotels increased 2.1% during the first six months of fiscal year 2006 compared with the same period during fiscal year 2005. The average number of rooms available in tourist hotels increased 4.3% during the first six months of fiscal year 2006 compared to the same period in fiscal year 2005.

San Juan is the largest homeport for cruise ships in the Caribbean and one of the largest homeports for cruise ships in the world.

The following table presents data relating to visitors to Puerto Rico and tourist expenditures for the five fiscal years ended June 30, 2005.

**Commonwealth of Puerto Rico
Tourism Data⁽¹⁾
Number of Visitors**

Fiscal Years Ended June 30	Tourist Hotels⁽²⁾	Cruise Ship	Other⁽³⁾	Total	Total Visitors' Expenditures (in millions)
2001	1,186,800	1,356,600	2,364,400	4,907,800	2,728.1
2002	1,147,800	1,277,000	1,939,300	4,364,100	2,486.4
2003	1,239,200	1,163,900	1,999,200	4,402,300	2,676.6
2004	1,307,000	1,348,200	2,234,000	4,889,200	3,024.0
2005	1,361,640	1,386,925	2,324,275	5,072,840	3,238.6

(1) Only includes information about non-resident tourists registering in tourist hotels. They are counted once even if registered in more than one hotel.

(2) Includes visitors in guesthouses.

(3) Includes visitors in homes of relatives, friends, and in hotel apartments.

The Commonwealth, through the Convention Center District Authority, has completed the development of the largest convention center in the Caribbean, and the centerpiece of a 100-acre private development, including hotels, restaurants, cinemas, office space and housing. The convention center district is being developed at a total cost of \$1.3 billion to improve Puerto Rico's competitive position in the convention and group travel segments. The convention center opened on November 17, 2005, and 17 conventions have already been booked for the first year of operations.

The Convention Center District Authority also owns a multi-purpose coliseum located in San Juan, Puerto Rico. The coliseum, known as the Jose Miguel Agrelot Coliseum, was inaugurated in 2004 and has been host to various successful artistic and other events.

Government

The government sector of Puerto Rico plays an important role in the economy. In fiscal year 2005, the government accounted for \$8.3 billion of Puerto Rico's gross domestic product, or 10.2% of the total. The government is also a significant employer, providing jobs for 309,594 workers, or 29.7% of total non-farm payroll employment in fiscal year 2005.

On February 25, 1998, legislation was enacted permitting the unionization of employees of the central government (excluding municipal employees). Under this law, government employees are given collective bargaining rights subject to a number of limitations. Among those limitations are: employees are prohibited from striking; salary increases are contingent on the availability of budgeted revenues; employees cannot be required to become union members and pay union dues; and collective bargaining negotiations cannot occur in an election year. During fiscal year 2006, the Commonwealth and its instrumentalities have begun to negotiate the economic and non-economic terms of at least forty collective bargaining agreements, which could have a material impact on the General Fund.

On August 3, 2005, the Governor issued an Executive Order requiring most Executive Branch agencies to establish a voluntary employee hourly reduction program. The purpose of the program is to reduce salary expenditures by the government. The program establishes two hourly alternatives with different pay incentives: (1) one day per week work reduction (approximately 7.5 hours or 20% of the

work week) with a 15% reduction in salary and (2) 50% reduction in the regular hourly work week with a 35% reduction in salary (for those employees with 5 years or less before retirement, the second option will only entail a 25% reduction in salary). Participation in this voluntary program will not result in any payroll contribution reductions to the Government Employees Retirement System. See “Budget for Fiscal Year 2006” under *Budget of the Commonwealth of Puerto Rico*.

On May 1, 2006, certain non-essential services offered by government agencies and departments, including public schools, were suspended in connection with the Commonwealth’s attempt to address its budget deficit for fiscal year 2006. Approximately 95,000 public employees were granted a two-week unpaid leave of absence. For a more detailed discussion of this temporary government shutdown, see “2006 Projected Expenditures” under *Budget of the Commonwealth of Puerto Rico*.

Transportation

Thirty-four shipping lines offer regular ocean freight service to eighty United States and foreign ports. San Juan is the island’s leading seaport, but there are also seaport facilities at other locations in Puerto Rico including Arecibo, Culebra, Fajardo, Guayama, Guayanilla, Mayagüez, Ponce, Vieques, and Yabucoa.

Luis Muñoz Marín International Airport is currently served by 25 United States and international airlines. At present, there is daily direct service between San Juan and Atlanta, Boston, Chicago, Dallas, Miami, New York, Philadelphia, and numerous other destinations within the United States. There is also regularly scheduled service between Aguadilla and Ponce and New York and between Puerto Rico and other Caribbean islands and certain Latin American and European cities. A major United States airline uses San Juan as a hub for its intra-Caribbean airline service. Several smaller airports serve intra-island traffic.

The island’s major cities are connected by a modern highway system, which, as of December 31, 2004, totaled approximately 4,608 miles. The highway system comprises 379 miles of primary system highways, which are the more important interregional traffic routes and include PR-52, PR-22, PR-53 and PR-20 toll highways, 230 miles of primary urban system highways, 959 miles of secondary system highways serving the needs of intra-regional traffic and 3,041 miles of tertiary highways and roads serving local, intra-regional traffic.

The first phase of a new mass transit system, known as Tren Urbano, has been completed. Tren Urbano serves a portion of metropolitan San Juan and is expected eventually to serve the municipalities of Carolina and Caguas as well.

The Port of the Americas Authority (“PAA”) is responsible for the development and operation of the Port of the Americas, a deep draft port on the south coast of Puerto Rico. The first phase of the Port of the Americas was completed in fiscal year 2004. This initial phase included the improvement of piers 4, 5 and 6 of the Port and the acquisition of heavy equipment at a cost of \$40 million. During calendar year 2005, the PAA began its second phase of the Port which is expected to be completed by the end of calendar year 2007. Completion of this second phase will provide capacity to handle up to 250,000 Twenty-Foot Equivalent Units (“TEU”). This second phase includes (i) dredging the entrance channel and adjacent areas of the Port to a depth of 50 feet; (ii) reconstructing the container terminals; (iii) commencing certain required environmental risk mitigation procedures; and (iv) preparing final construction schematics. With respect to these tasks, dredging is 60% complete, the final design contract has been awarded, acquisition of environmental risk mitigation land is underway, and the contract for reconstruction of the container terminal was awarded on April 20, 2006. The Port is expected to be capable of providing capacity for up to 700,000 TEUs when the third phase is completed.

As of June 19, 2006, PAA had an outstanding balance of \$23.8 million under various lines of credit from GDB. PAA is authorized to borrow up to \$250 million under these lines of credit. This debt is payable from annual legislative appropriations until the PAA starts generating revenues sufficient to cover debt service and is also guaranteed by the Commonwealth. Partial operation of the Port of the Americas, at a capacity of up to 250,000 TEUs per year, could begin in early 2008.

Construction

Although the construction industry represents a relatively small segment of the economy compared to other sectors, it has made significant contributions to the growth of economic activity. During the period from fiscal year 2001 through fiscal year 2005, however, real construction investment decreased 0.9%. This decline is relatively small when compared to the high levels of construction activity recorded in prior fiscal years. The total value of construction permits increased 21.2% during the same five fiscal year period.

Public investment has been an important component of construction investment. During fiscal year 2004, approximately 41% of the total investment in construction was related to public projects. During fiscal year 2005, the total value of construction permits increased 0.1% compared with fiscal year 2004. Average payroll employment in the construction sector during fiscal year 2005 was 67,516, a decrease of 2.3% from fiscal year 2004.

During fiscal year 2005, total sales of cement, including imports, decreased 0.1% compared with fiscal year 2004.

Total construction investment for fiscal year 2005 decreased (in real terms) by 0.6% due principally to the reduction in construction related public projects. For fiscal years 2006 and 2007, the Planning Board forecasts construction investment increases (in real terms) of 0.5% and 1.3% for each year. Public investment will be primarily in housing, new schools (and school reconstruction programs), water projects, and other public infrastructure projects. Public investment in construction, however, could be negatively affected by the Commonwealth's fiscal difficulties. See "2006 Projected Expenditures" under *Budget of the Commonwealth of Puerto Rico*.

During the first eight months of fiscal year 2006, the number of construction permits increased 1.6%. The total value of construction permits for that period, however, decreased 7.6% compared to the same period in fiscal year 2005. The total sales of cement, including imports, increased 1.4% during the first nine months of fiscal year 2006 compared to the same period in fiscal year 2005.

Agriculture

The Department of Agriculture and related agencies have directed their efforts at increasing and improving local agricultural production, increasing efficiency and the quality of produce, and stimulating the consumption of locally produced agricultural products. During fiscal year 2005, gross income from agriculture was \$803.1 million, a decrease of 0.6% compared with fiscal year 2004. Agriculture gross income consists of the total value of production in the principal agricultural sectors, which include traditional crops, livestock and poultry, grains, vegetables, fruits, and other products. During fiscal year 2005, fruits, starchy vegetables, and ornamental plants contributed a higher percentage of the sector's income than in the previous fiscal year.

The Commonwealth supports agricultural activities through incentives, subsidies, and technical and support services, in addition to income tax exemptions for qualified income derived by bona fide farmers. Act No. 225 of 1995 provides a 90% income tax exemption for income derived from

agricultural operations, an investment tax credit equal to 50% of the investment in qualified agricultural projects, and a 100% exemption from excise taxes, real and personal property taxes, municipal license taxes and tariff payments. It also provides full income tax exemption for interest income from bonds, notes and other debt instruments issued by financial institutions to provide financing to agricultural businesses. Subsequent legislation imposed an aggregate annual limit of \$15 million on the investment tax credits available under Act No. 225.

Policy changes have been implemented to promote employment and income generated by the agricultural sector. The policy initiatives include a restructuring of the Department of Agriculture, an increase in government purchases of local agricultural products, new programs geared towards increasing the production and sales of agricultural products, and a new system of agricultural credits and subsidies for new projects.

Higher Education

During the five decades from 1950 to 2000, Puerto Rico made significant advances in the field of education, particularly at the college and graduate school level. The transformation of Puerto Rico during the 1950s and 1960s from an agricultural economy to an industrial economy brought about an increased demand for educational services at all levels. During the 1970s and 1980s, certain higher wage, higher technology industries became more prominent in Puerto Rico. More recently, employment in the services sector has increased significantly. This has resulted in an increased demand for workers having a higher level of education and greater expertise in various technical fields. During the same time period, enrollments in institutions of higher learning rose very rapidly due to growth in the college-age population, and the increasing proportion of college attendance by such population. During the 1990s and into the current decade, college attendance and college attendance as a percentage of the college-age population continued to increase.

The following table presents comparative trend data for Puerto Rico and the United States with respect to college-age population and the percentage of such population attending institutions of higher learning.

Academic Year	Commonwealth of Puerto Rico Trend in College Enrollment					
	Commonwealth of Puerto Rico			Mainland United States		
	Population 18-24 Years of Age	Higher Education Enrollment	Percent ⁽¹⁾	Population 18-24 Years of Age	Higher Education Enrollment	Percent ⁽¹⁾
1970	341,448 ⁽²⁾	57,340	16.8%	23,714,000 ⁽²⁾	8,580,887	36.2%
1980	397,839 ⁽²⁾	130,105	32.7%	30,022,000 ⁽²⁾	12,096,895	40.3%
1990	417,636 ⁽²⁾	156,147	37.4%	26,961,000 ⁽²⁾	13,621,000	50.5%
2000	428,892 ⁽²⁾	176,015	41.0%	27,143,455 ⁽²⁾	15,312,000	56.4%
2001	426,194 ⁽³⁾	185,015	43.4%	27,968,162 ⁽³⁾	15,928,000	56.7%
2002	423,852 ⁽³⁾	190,776	45.0%	28,442,293 ⁽³⁾	16,612,000	58.4%
2003	420,295 ⁽³⁾	199,842	47.6%	28,923,731 ⁽³⁾	16,910,000	58.5%
2004	416,020 ⁽³⁾	206,791	49.7%	29,245,102	17,095,000	58.4%

The University of Puerto Rico, the only public university in Puerto Rico, has eleven campuses located throughout the island. The University's total enrollment for academic year 2004-2005 was approximately 67,053 students. The Commonwealth is legally bound to appropriate annually for the University of Puerto Rico an amount equal to 9.60% of the average annual revenue from internal sources for each of the two fiscal years immediately preceding the current fiscal year.

In addition to the University of Puerto Rico, there are 40 public and private institutions of higher education located in Puerto Rico. Such institutions have a current enrollment of approximately 138,700 students and provide programs of study in liberal arts, education, business, natural sciences, technology, secretarial and computer sciences, nursing, medicine, and law. Degrees are offered by these institutions at the associate, bachelor, master, and doctoral levels.

Tax Incentives

One factor that has promoted and continues to promote the development of the manufacturing sector in Puerto Rico is the various local and federal tax incentives available, particularly those under Puerto Rico's Industrial Incentives Program and, until recently, Sections 30A and 936 of the U.S. Code. Tax and other incentives have also been established to promote the development of the tourism industry. These incentives are summarized below.

Industrial Incentives Program

Since 1948, Puerto Rico has had various industrial incentives laws designed to stimulate industrial investment in the island. Under these laws, which are designed to promote investment in Puerto Rico, companies engaged in manufacturing and certain other designated activities were eligible to receive full or partial exemption from income, property, and other local taxes. The most recent of these industrial incentives laws is the 1998 Tax Incentives Act.

The benefits provided by the 1998 Tax Incentives Act are available to new companies as well as companies currently conducting tax-exempt operations in Puerto Rico that choose to renegotiate their existing tax exemption grant, expand current operations or commence operating a new eligible business. The activities eligible for tax exemption include manufacturing, certain designated services performed for markets outside Puerto Rico (including the United States), the production of energy from local renewable sources for consumption in Puerto Rico and laboratories for research and development. Companies qualifying thereunder can benefit from income tax rates ranging from 2% to 7% for periods ranging from 10 to 25 years. In addition, the 1998 Tax Incentives Act grants 90% exemption from property taxes, 100% exemption from municipal license taxes during the first three semesters of operations and between 60% and 80% thereafter, and 100% exemption from excise taxes with respect to the acquisition of raw materials and certain machinery and equipment used in the exempt activities. The 1998 Tax Incentives Act also provides various special deductions designed to stimulate employment and productivity, research and development and capital investment in Puerto Rico.

Under the 1998 Tax Incentives Act, companies can repatriate or distribute their profits free of Puerto Rico dividend taxes. In addition, passive income derived from the investment of eligible funds in Puerto Rico financial institutions, obligations of the Commonwealth, and other designated investments are fully exempt from income and municipal license taxes. Individual shareholders of an exempted business are allowed a credit against their Puerto Rico income taxes up to 30% of their proportionate share of the exempted business's income tax liability. Gain from the sale or exchange of shares of an exempted business by its shareholders during the exemption period is subject to a 4% income tax rate.

Under the 1998 Tax Incentives Act, core pioneer industries that employ innovative technologies in their operations, including high technology industries with activities that produce a significant economic impact, can be eligible for income tax rates below 2%. Eligible manufacturing industries may also qualify for certain payroll and training deductions, building and construction expense deductions, a 25% credit for purchases of products manufactured in Puerto Rico, and a 35% credit for purchases of locally recycled products and products manufactured with locally recycled materials.

The 1998 Tax Incentives Act also provides investors who acquire an exempted business that is in the process of closing its operations in Puerto Rico a 50% credit in connection with the cash purchase of such corporation's stocks or assets. Also, exempted businesses that produce high technology products may be eligible for a credit equal to the amount in excess of \$100 million of the annual taxes retained on the payment of rights, rents, royalties and licenses related to the production of such goods. Finally, call centers servicing markets outside Puerto Rico are exempt from paying excise taxes on the purchase of equipment needed for the operation of such call centers.

Tourism Incentives Program

For many years, Puerto Rico has also had incentives laws designed to stimulate investment in hotel operations on the island. The most recent of these laws, the Tourism Incentives Act of 1993 (the "Tourism Incentives Act"), provides partial exemptions from income, property, and municipal license taxes for a period of up to ten years. The Tourism Incentives Act also provides certain tax credits for qualifying investments in tourism activities, including hotel and condo-hotel development projects. Recently enacted legislation provides further tourism incentives by granting certain tax exemptions on interest income received from permanent or interim financing of tourism development projects and fees derived from credit enhancements provided to the financing of such projects. See "Government Development Bank for Puerto Rico-Tourism Development Fund" under *Public Corporations*.

As part of the incentives to promote the tourism industry, the Commonwealth established the Tourism Development Fund as a subsidiary of GDB with the authority to (i) make investments in or provide financing to entities that contribute to the development of the tourism industry and (ii) provide financial guarantees and direct loans for financing hotel development projects. To date, the Fund has provided direct loans and financial guarantees for loans made or bonds issued to finance the development of seventeen hotel projects representing over 3,900 new hotel rooms.

Incentives under the U.S. Code

United States corporations operating in Puerto Rico have been subject to special tax provisions since the Revenue Act of 1921. Prior to enactment of the Tax Reform Act of 1976, under Section 931 of the U.S. Code, United States corporations operating in Puerto Rico (and meeting certain source of income tests) were taxed only on income arising from sources within the United States.

The Tax Reform Act of 1976 created Section 936 of the U.S. Code, which revised the tax treatment of United States corporations operating in Puerto Rico by taxing such corporations on their worldwide income in a manner similar to that applicable to any other United States corporation but providing such corporations a full credit for the federal tax on their business and qualified investment income in Puerto Rico. The credit provided an effective 100% federal tax exemption for operating and qualifying investment income from Puerto Rico sources.

As a result of amendments to Section 936 of the U.S. Code made in 1996 (the "1996 Amendments"), the tax credit was phased out over a ten-year period for companies that were operating in Puerto Rico in 1995, and is no longer available for corporations that establish operations in Puerto Rico

after October 13, 1995. The 1996 Amendments also eliminated the credit previously available for income derived from certain qualified investments in Puerto Rico.

Controlled Foreign Corporations

Because of the modification and phase out of the federal tax incentives under Section 936 of the U.S. Code, many corporations previously operating thereunder reorganized their operations in Puerto Rico to become controlled foreign corporations (“CFCs”). A CFC is a corporation that is organized outside the United States and is controlled by United States shareholders. In general, a CFC may defer the payment of federal income taxes on its trade or business income until such income is repatriated to the United States in the form of dividends or through investments in certain United States properties. The Puerto Rico Office of Industrial Tax Exemption has received notification from numerous corporations that have converted part or all of their operations to CFCs. These include most of the major pharmaceutical, instrument and electronics companies manufacturing in Puerto Rico.

CFCs operate under transfer pricing rules for intangible income that are different from those applicable to United States corporations operating under Section 936 of the U.S. Code (“Section 936 Corporations”). In many cases, they are allowed to attribute a larger share of this income to their Puerto Rico operation but must make a royalty payment “commensurate with income” to their U.S. affiliates. Section 936 Corporations were exempted from Puerto Rico withholding taxes on any cost sharing payments they might have opted to make, but CFCs are subject to a fifteen percent Puerto Rico withholding tax on royalty payments.

DEBT

Public Sector Debt

Public sector debt comprises bonds and notes of the Commonwealth, its municipalities, and public corporations (“notes” as used in this section refers to certain types of non-bonded debt regardless of maturity), subject to the exclusions described below.

Section 2 of Article VI of the Constitution of the Commonwealth provides that direct obligations of the Commonwealth evidenced by full faith and credit bonds or notes shall not be issued if the amount of the principal of and interest on such bonds and notes and on all such bonds and notes theretofore issued which is payable in any fiscal year, together with any amount paid by the Commonwealth in the preceding fiscal year on account of bonds or notes guaranteed by the Commonwealth, exceeds 15% of the average annual revenues raised under the provisions of Commonwealth legislation and deposited into the Treasury (hereinafter “internal revenues”) in the two fiscal years preceding the then current fiscal year. Section 2 of Article VI does not limit the amount of debt that the Commonwealth may guarantee so long as the 15% limitation is not exceeded. Internal revenues consist principally of income taxes, property taxes and excise taxes. Certain revenues, such as federal excise taxes on offshore shipments of alcoholic beverages and tobacco products and customs duties, which are collected by the United States Government and returned to the Treasury, and motor vehicle fuel taxes and license fees, which are allocated to the Highway and Transportation Authority, are not included as internal revenues for the purpose of calculating the debt limit, although they may be available for the payment of debt service.

All or a portion of the proceeds of certain refunding bonds issued by the Commonwealth were invested in guaranteed investment contracts or federal agency securities (in each case rated in the highest category by Moody’s and S&P, none of which is eligible to be used for a legal defeasance under Puerto Rico law (“non-eligible investments”). Since bonds refunded with proceeds of non-eligible investments are not legally defeased, such bonds are treated as outstanding for purposes of the 15% debt limitation.

Future maximum annual debt service for the Commonwealth's outstanding general obligation debt is \$705,522,695 in the fiscal year ending June 30, 2006 (based on the assumption that the Public Improvement Refunding Bonds, Series 2004 A, which are variable rate bonds, bear interest at their actual rate per annum through July 1, 2012 and thereafter at 12% per annum, and the Public Improvement Refunding Bonds, Series 2004 B, which are also variable rate bonds, bear interest at 12% per annum). Debt service for the PRASA guaranteed bonds paid by the Commonwealth during fiscal year 2005 (including, for this purpose, debt service payments due and paid on July 1, 2005) was \$30,127,367.50. The sum of those amounts (\$735,650,063) is equal to 9.46% of \$7,779,886,000, which is the average of the adjusted internal revenues for the fiscal year ended June 30, 2004 and fiscal year ended June 30, 2005. If bonds refunded with non-eligible investments described in the preceding paragraph were treated as not being outstanding, and the interest on the Public Improvement Refunding Bonds, Series 2004 B was calculated using the effective fixed interest rate payable by the Commonwealth under the interest rate exchange agreements entered into in respect thereof, the percentage referred to in the preceding sentence would be 8.11% and future maximum annual debt service for the Commonwealth's outstanding general obligation debt would be \$600,559,676.39 in the fiscal year ending June 30, 2020.

The Commonwealth's policy has been and continues to be to maintain the amount of such debt prudently below the constitutional limitation. Debt of municipalities, other than bond anticipation notes, is supported by real and personal property taxes and municipal license taxes. Debt of public corporations, other than bond anticipation notes, is generally supported by the revenues of such corporations from rates charged for services or products. See *Public Corporations*. However, certain debt of public corporations is supported, in whole or in part, directly or indirectly, by Commonwealth appropriations or taxes.

Direct debt of the Commonwealth is issued pursuant to specific legislation approved in each particular case. Debt of the municipalities is issued pursuant to resolutions adopted by the respective municipal assemblies. Debt of public corporations is issued pursuant to resolutions adopted by the governing bodies of the public corporations in accordance with their enabling statutes. GDB, as fiscal agent of the Commonwealth and its municipalities and public corporations, must approve the specific terms of each issuance.

The following table presents a summary of public sector debt as of March 31, 2006. Excluded from the table is debt not primarily payable from either Commonwealth or municipal taxes, Commonwealth appropriations or rates charged by public corporations for services or products, some of which debt is set forth in footnote 4 below. Also excluded from the table is debt the inclusion of which would reflect double counting including, but not limited to, \$1.6 billion of outstanding bonds (as of March 31, 2006) issued by the Municipal Finance Agency to finance its purchase of bonds of Puerto Rico municipalities, and \$2.6 billion of obligations of the Public Finance Corporation issued to purchase certain Commonwealth public sector debt.

**Commonwealth of Puerto Rico
Public Sector Debt
(in thousands)**

	<u>March 31, 2006</u>
Puerto Rico direct debt ⁽¹⁾	\$ 10,580,301
Municipal debt	2,283,652
Public corporations debt	
Puerto Rico guaranteed debt ⁽²⁾	697,073
Debt supported by Puerto Rico appropriations or taxes ⁽³⁾	16,945,455
Other non-guaranteed debt ⁽⁴⁾	8,972,463
Total public corporations debt	<u>26,614,991</u>
Total public sector debt	<u>\$ 39,478,944</u>

- (1) Includes general obligation bonds, tax and revenue anticipation notes, and lines of credit provided by GDB. Excludes certain Commonwealth general obligation bonds in the principal amount of \$1.08 billion that have been refunded with proceeds that were invested in guaranteed investment contracts or other securities not eligible to effect a legal defeasance, even though such bonds will be considered outstanding under their respective authorizing resolutions and for purposes of calculating the Commonwealth's constitutional debt limitation.
- (2) Consists of \$504.7 million of bonds issued by Aqueduct and Sewer Authority, \$169.9 million of State Revolving Fund Loans, incurred under various federal water laws, and \$22.5 million of bonds issued by Port of the Americas Authority. Excludes Public Buildings Authority bonds in the principal amount of \$2.88 billion as of March 31, 2006 and \$267 million of GDB bonds payable from available moneys of GDB.
- (3) Represents, among others, bonds and notes issued by Aqueduct and Sewer Authority, Highway and Transportation Authority, Housing Finance Authority, Infrastructure Financing Authority, Public Buildings Authority and Public Finance Corporation.
- (4) Excludes the following: \$1 billion of Infrastructure Financing Authority bonds, which are payable solely from the investment income of funds on deposit in the Infrastructure Development Fund consisting of proceeds from the sale of a controlling interest in Puerto Rico Telephone Company; \$1.2 billion of Children's Trust bonds which are payable solely from the payments to be received pursuant to the tobacco litigation settlement; \$641.3 million of Housing Finance Authority bonds, which are payable from Puerto Rico Housing Administration's annual allocation of Public Housing Capital Funds from the United States Department of Housing and Urban Development; \$153 million of Special Facilities Revenue Bonds issued by the Highway and Transportation Authority, which are payable from net toll revenues collected from the Teodoro Moscoso Bridge; \$155 million of Special Facilities Bonds issued by the Ports Authority, which are solely payable from the pledge of certain payments made by a private corporation under a special facilities agreement; \$97 million of Qualified Zone Academy Bonds issued by the Public Finance Corporation, which are payable from securities purchased with funds assigned by the Children's Trust to the Department of Education; \$84.1 million of Educational Facilities Revenue Bonds, 2000 Series A (University Plaza Project) issued by the Industrial, Tourist, Educational, Medical and Environmental Control Facilities Financing Authority, which are payable from rent payments made by the University of Puerto Rico; and approximately \$111 million of bonds issued by the Industrial, Tourist, Educational, Medical and Environmental Control Facilities Financing Authority to finance the construction of various government infrastructure projects, which are payable from rent payments made by various government entities. The bonds listed in this footnote are subsequently collectively referred to as the "Excluded Bonds." If the principal amounts of the Excluded Bonds were included in the above table, total public corporations debt would be \$30,128,755,000 and total public sector debt would be \$42,992,708,000.

Source: Government Development Bank for Puerto Rico

No deductions have been made in the table above for debt service funds and debt service reserve funds. The table above and the amounts shown throughout this section as representing outstanding debt include outstanding capital appreciation bonds at their respective original principal amounts and do not include any accretion thereon.

Debt Service Requirements for Commonwealth General Obligation Bonds

The following table presents the debt service requirements for Commonwealth general obligation bonds outstanding as of March 31, 2006.

The table excludes debt service on \$1.08 billion of general obligation bonds refunded with refunding bonds the proceeds of which, pending the redemption of the refunded bonds, were invested in guaranteed investment contracts or other securities not eligible to effect a legal defeasance. Such refunded bonds will be considered to be outstanding under their respective authorizing resolutions and for purposes of calculating the Commonwealth's constitutional debt limitation described above. In addition, in respect of certain variable rate general obligation bonds as to which the Commonwealth has entered into interest rate exchange agreements, the interest in the table is calculated by using the respective fixed rates of interest that the Commonwealth is paying under said agreements. Debt service requirements for each fiscal year, as shown in the following table, include principal and interest due on July 1 immediately following the close of such fiscal year.

	\$7,174,559	\$4,987,455	\$12,162,014

* Totals may not add due to rounding. Excludes the debt service on certain economically (but not legally) defeased general obligation bonds and includes the effective fixed rate on certain variable rate general obligation bonds as to which the Commonwealth has entered into interest rate exchange agreements.

(1) Since fiscal year 1997, the Commonwealth had been paying approximately \$30 million annual debt service on PRASA bonds and other obligations guaranteed by the Commonwealth. Beginning with the debt service payment due January 1, 2006, the Commonwealth stopped making such payments and PRASA resumed making all payments due on and after such date from its net revenues. See "Other Public Corporations - Aqueduct and Sewer Authority" under *Public Corporations* below.

(2) Approximately \$368 million of this amount has been financed through a GDB line of credit and \$100 million is being refinanced with the proceeds of the Commonwealth's Public Improvement Refunding Bonds, Series 2006 A. These financing mechanisms are intended to lower the debt service payments due from the Commonwealth on outstanding general obligation bonds for fiscal year 2006. See "Commonwealth's Structural Budget Imbalance" under *Puerto Rico Taxes, Other Revenues, and Expenditures* and "2006 Budget Approval Process" under *Budget of the Commonwealth of Puerto Rico*.

Ratings of Commonwealth General Obligation Bonds

In May 2005, Moody's Investors Service ("Moody's") and Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. ("S&P"), each announced downgrades to the Commonwealth's general obligation debt rating. Moody's and S&P lowered their respective ratings on the Commonwealth's general obligation debt from "Baa1" to "Baa2" and from "A-" to "BBB." Among the reasons given by the rating agencies for the reduction in the ratings were the concern for the Commonwealth's financial performance, particularly the structural imbalance in its budget, the low funding ratio of the Employees Retirement System of the Commonwealth and its instrumentalities (the "Employees Retirement System"), the uncertainty surrounding the approval of a budget for fiscal year 2006 and the availability of additional recurring revenue sources. See "Commonwealth's Budget Structural Imbalance" under *Puerto Rico Taxes, Other Revenues, and Exemptions*. See also *Retirement Systems and Budget of the Commonwealth of Puerto Rico*. For more information relating to the rating downgrades please refer to www.moodys.com and www.standardandpoors.com.

On March 22, 2006, S&P placed the Commonwealth's rating on CreditWatch with negative implications as a result of the Commonwealth's anticipated budget deficit for fiscal year 2006, slow progress on tax and fiscal reform and the apparent political impasse regarding these measures. S&P indicated it may take further rating action on or prior to June 30, 2006.

On February 24, 2006, Moody's placed the Commonwealth's general obligation rating of "Baa2" on its Watchlist for review and possible downgrade. Moody's also placed on its Watchlist all other bonds issued by various Commonwealth instrumentalities whose credit is directly or indirectly linked to that of the Commonwealth. On May 2, 2006, Moody's issued a report in response to the partial shutdown of the Commonwealth's government. In the report, Moody's stated that a prolonged political stalemate with respect to the resolution of the Commonwealth's budget deficit for fiscal year 2006 will have negative ratings implications.

On May 8, 2006, Moody's downgraded the Commonwealth's general obligation and appropriation bond ratings from "Baa2" to "Baa3" and from "Baa3" to "Ba1," respectively, and kept the ratings on Watchlist for possible further downgrades. Moody's action reflected the Commonwealth's strained financial condition, ongoing political conflict and lack of agreement regarding the measures necessary to end the government's multi-year trend of financial deterioration.

The Commonwealth has been assigned a negative ratings outlook by each of the rating agencies.

Commonwealth Guaranteed Debt

As of March 31, 2006, \$2.88 billion of Commonwealth guaranteed bonds of the Public Buildings Authority were outstanding. Maximum annual debt service on these bonds is \$219.5 million in fiscal year ending June 30, 2011, with their final maturity being July 1, 2036. No payments under the Commonwealth guaranty have been required to date for bonds of the Public Buildings Authority.

As of March 31, 2006, \$267 million of Commonwealth guaranteed obligations of GDB were outstanding. No payments under the Commonwealth guaranty have been required for any obligations of GDB to date.

As of March 31, 2006, GDB held approximately \$22.5 million of the Port of the Americas Authority's outstanding bonds, which are guaranteed by the Commonwealth. The Authority is authorized to issue bonds guaranteed by the Commonwealth in a maximum aggregate principal amount of \$250 million. The proceeds from these bonds will be used to continue the development of the Port. Currently,

GDB is authorized to purchase up to an aggregate principal amount of \$250 million of the Authority's bonds.

As of March 31, 2006, the aggregate outstanding principal amount of obligations of PRASA guaranteed by the Commonwealth was \$674.6 million. This amount consisted of \$292 million in revenue bonds sold to the public, \$212.7 million in bonds issued to the United States Department of Agriculture, Rural Development, and \$169.9 of loans by the State Revolving Funds for the benefit of PRASA. On January 2, 1997, the Commonwealth began to make debt service payments under the Commonwealth guaranty and continuously made payments through fiscal year 2005. Beginning with the debt service payment due January 1, 2006, the Commonwealth stopped making debt service payments required on these revenue bonds. PRASA has resumed payment of this debt from the net revenues it expects to receive as part of its newly revised tariff structure. See "Other Public Corporations - Aqueduct and Sewer Authority" under *Public Corporations* below.

Trends of Public Sector Debt

The following table shows the growth rate of short-term and long-term public sector debt and the growth rate of Gross National Product (in current dollars) for the five fiscal years ended June 30, 2005 and the first nine months of fiscal year 2006. As of March 31, 2006, outstanding short-term debt, relative to total debt, was 9.1%.

* Totals may not add due to rounding.

(1) In current dollars.

(2) Does not include the Excluded Bonds identified in footnote 4 of the table above entitled "Commonwealth of Puerto Rico -- Public Sector Debt," which would have been issued and outstanding at the time, all of which would be considered long-term debt.

(3) Obligations (other than bonds) issued with an original maturity of three years or less and lines of credit with a remaining maturity of three years or less are considered short-term debt.

(4) Includes a \$164 million line of credit from GDB to the Secretary of the Treasury, the proceeds of which were applied to pay debt service on general obligation bonds in lieu of funds which were available therefor in the General Fund.

(5) Does not include the tax and revenue anticipation notes that were outstanding at the close of the indicated fiscal years because prior to the end of said fiscal years sufficient funds had been set aside for the payment of such notes in full.

(6) Includes a \$368 million line of credit from GDB to the Secretary of the Treasury, the proceeds of which were applied to pay debt service on general obligation bonds in lieu of funds which were available therefor in the General Fund.

PUBLIC CORPORATIONS

In Puerto Rico, many governmental or quasi-governmental functions are performed by public corporations. These are governmental entities created by the Legislative Assembly with varying degrees of independence from the central government. Public corporations are generally created to perform a single function or a limited number of related functions. Most public corporations obtain revenues from rates charged for services or products, but many are subsidized to some extent by the central government. Most public corporations are governed by boards appointed by the Governor with the advice and consent of the Senate, but some public corporations are subsidiaries of departments of the central government. Capital improvements of most of the larger public corporations are financed by revenue bonds under trust agreements or bond resolutions, or notes under loan agreements. The following table presents the outstanding bonds and notes of certain of the public corporations as of March 31, 2006 ("notes" as used in this section refers primarily to certain types of non-bonded debt regardless of maturity). Debt of certain other public corporations is excluded from this table because such debt is payable primarily from funds or grants provided by the federal government or is payable from sources other than Commonwealth appropriations or taxes or revenues of public corporations, or is payable from revenues derived from private sector services or products, such as industrial development bonds. Also excluded from this table is debt of certain public corporations the inclusion of which would reflect double counting. No deductions have been made in the table for debt service funds and debt service reserve funds. More detailed information about the major public corporations is presented in the following sections.

Government Development Bank for Puerto Rico

The principal functions of GDB are to act as financial advisor to and fiscal agent for the Commonwealth, its municipalities and public corporations in connection with the issuance of bonds and notes, to make loans and advances to public corporations and municipalities, and to make loans to private enterprises to aid in the economic development of Puerto Rico.

As of March 31, 2006, \$1.1 billion of bonds and notes of GDB (excluding its subsidiaries) were outstanding, consisting of \$267 million in Commonwealth guaranteed GDB bonds and \$885 million of medium term senior notes. Act No. 12 of May 9, 1975, as amended, provides that the payment of principal of and interest on specified notes and other obligations of GDB, not exceeding \$550 million, may be guaranteed by the Commonwealth, of which \$267 million were outstanding as of March 31, 2006. As of said date, GDB also had \$5.8 billion in loans outstanding to the central government of the Commonwealth and its public corporations and municipalities. On May 25, 2006 and June 8, 2006, GDB issued its \$740,000,000 Senior Notes, 2006 Series B and its \$81,960,000 Senior Notes, 2006 Series C, respectively.

Act No. 82 of June 16, 2002 (“Act No. 82”) amended GDB’s Charter to authorize GDB to transfer annually to the General Fund, beginning with fiscal year 2001, up to 10% of its audited net income or \$10,000,000, whichever is greater. GDB is not required by Act No. 82 to transfer any funds. GDB made payments to the General Fund of \$11.6 million for fiscal year 2003 and \$18.4 million for fiscal year 2004. GDB did not make a payment to the General Fund under Act No. 82 for fiscal year 2005. GDB expects it will not make a payment to the General Fund under Act No. 82 for fiscal year 2006.

Act No. 271 of November 21, 2002 required GDB to make a special capital contribution to the Special Communities Perpetual Trust (the “Trust”) of \$500 million and to provide the Trust a \$500 million non-revolving line of credit. In December 2004, GDB transferred to the Trust the required \$500 million capital contribution and an additional \$270.7 million, which represented the remaining undisbursed balance of the \$500 million line of credit. The amounts transferred to the Trust were deposited in two investment accounts held by GDB for the benefit of the Trust. As of March 31, 2006, the Trust had repaid \$74.9 million of its line of credit and had an outstanding balance of \$425.1 million. The line of credit is payable from legislative appropriations.

GDB has several subsidiaries which perform various functions. The principal subsidiaries and their functions are listed below:

Housing Finance Authority. Housing Finance Authority (formerly known as Housing Finance Corporation) was created to provide needed rental housing units and stimulate the construction industry under federally subsidized programs. Effective February 8, 2002, Housing Finance Corporation became the Housing Finance Authority and the Housing Bank and Finance Agency was dissolved and its powers transferred to the Housing Finance Authority. Housing Finance Authority provides financing for rental housing units, stimulates the construction industry under federally subsidized programs and provides interim financing for low-income housing projects and single-family homeownership programs. It is also engaged in insuring and servicing mortgages originated by the former Housing Bank and Finance Agency. As of March 31, 2006, Housing Finance Authority’s total outstanding loans to the private sector for development of housing projects targeted to low-and moderate income families were \$75.2 million. The Authority’s mortgage loans to low and moderate income homeowners represented an additional \$97.4 million as of the same date.

Housing Finance Authority has outstanding tax-exempt revenue bonds and notes that were issued to finance the construction of housing units approved for federal rental subsidies and to finance home ownership of single family housing units. Such bonds and notes are generally limited obligations of Housing Finance Authority payable solely from revenues collected from such housing units, with certain exceptions. As of March 31, 2006, \$652.2 million of Housing Finance Authority bonds were outstanding.

As of March 31, 2006, the Authority also had outstanding \$544.3 million of bonds and notes issued to fund certain payments of the Commonwealth under its mortgage subsidy and other programs for low and moderate income families, and to guarantee certain insurance obligations of the former Housing Bank and Finance Agency.

As of March 31, 2006, the Authority had total notes and bonds outstanding of \$1.3 billion (including \$97.4 million of debt outstanding under GDB lines of credit) and total unrestricted net assets of \$513.7 million.

Tourism Development Fund. The Tourism Development Fund was created in November 1993 to promote Puerto Rico's hotel and tourism industry by making available direct loans and guarantees to secure the payment of private financing used for new hotel development projects. The Tourism Development Fund is also authorized to make capital investments in tourism related projects. As of March 31, 2006, the Tourism Development Fund had outstanding direct loans in an aggregate principal amount of \$275.7 million and guarantees issued in the outstanding amount of \$164.6 million to finance several hotels and tourism-related projects.

The Tourism Development Fund has made payments under its guarantees and letters of credit in the aggregate amount of approximately \$313.4 million with respect to several projects, including \$282 million disbursed to pay in full the bonds issued to finance three projects, which bonds had been declared due and payable at the direction of the Tourism Development Fund due to the failure of the borrowers of such projects to comply with their obligations under the related reimbursement agreements. Of the total amount disbursed, the Tourism Development Fund has been able to recover approximately \$199.7 million from the borrowers. After taking these payments and all related recoveries into consideration, the unrestricted net assets of the Tourism Development Fund as of March 31, 2006, were approximately \$102.6 million, and its allowances for losses on guarantees, loans, other real estate owned and letters of credit were approximately \$35.4 million.

Capital Fund. The Government Development Bank for Puerto Rico Capital Fund (the "Capital Fund") was created in November 1992 for the purpose of investing and trading in debt obligations and publicly traded shares of domestic and foreign corporations separate from GDB's general investment operations. As of March 31, 2006, the Capital Fund had assets of \$75.3 million, of which \$75.1 million were invested in an equity index fund that invests mainly in growth stocks.

Development Fund. The Puerto Rico Development Fund (the "Development Fund") was established in April 1977 to provide an alternate source of financing to private enterprises in Puerto Rico that have difficulties in obtaining financing from traditional sources. The Development Fund is also authorized to guarantee obligations of these enterprises and invest in their equity securities. As of March 31, 2006, the Development Fund had \$23.4 million in such investments. The Development Fund proposes to sell most of its assets to the Economic Development Bank for Puerto Rico. This transaction is expected to close in June 2006.

Public Finance Corporation. Puerto Rico Public Finance Corporation ("Public Finance Corporation") was established in November 1984 to provide agencies and instrumentalities of the Commonwealth with alternate means of meeting their financing requirements. Public Finance

Corporation currently holds notes payable by the Commonwealth, the Maritime Shipping Authority, the Office for the Improvement of Public Schools, the Department of Health, and the Aqueduct and Sewer Authority, among others. As of March 31, 2006, Public Finance Corporation had \$4.2 billion aggregate principal amount of bonds outstanding. All such bonds are limited non-recourse obligations of Public Finance Corporation payable solely from Commonwealth appropriations made to pay the notes held by Public Finance Corporation.

A description of certain other affiliates of GDB is provided in “Other Public Corporations” below.

Other Public Corporations

Aqueduct and Sewer Authority. Puerto Rico Aqueduct and Sewer Authority (“PRASA”) owns and operates the island’s public water supply and sanitary sewer facilities systems (the “Systems”).

PRASA needs to make a substantial investment in infrastructure and a major overhaul of its operations to maintain the viability of the Systems and to finance its expansion for new users. Funds for this investment are expected to be provided through a combination of revenues from PRASA, financing transactions, federal grants and other sources. Debt service on revenue bonds is payable from net revenues of the Systems after payment of current expenses. Due to PRASA’s financial difficulties (discussed below) and its inability to access the bond market, Act No. 45 was enacted in July 1994 to provide a Commonwealth guaranty of the principal and interest payments to the bondholders of all outstanding revenue bonds issued by PRASA. In addition, Act No. 45 was amended in 2000 to extend the Commonwealth payment guaranty to all outstanding bonds issued by PRASA to the United States Department of Agriculture, Rural Development, and loans granted by the Clean Water and Drinking Water State Revolving Funds for the benefit of PRASA. In February 2004, this guaranty was extended through new legislation to include debt obligations issued until 2010. The total debt of PRASA was \$1.2 billion as of March 31, 2006.

PRASA reported operational losses of \$282.5 million and \$343.0 million during fiscal years 2004 and 2005, respectively.

Beginning in fiscal year 2006, the Commonwealth’s General Fund ceased to provide financial assistance to PRASA. As part of its efforts to regain fiscal independence, PRASA announced substantial increases in water and wastewater service rates, to be implemented in two phases. The first phase took effect on October 10, 2005. The second phase will take effect on July 1, 2006. The new rate structure also includes changes from bi-monthly to monthly invoicing of residential customers. GDB has extended PRASA a line of credit in the aggregate principal amount of \$200 million to allow PRASA to implement its planned, two phase rate increase. PRASA expects to repay this line of credit from the additional net revenues generated by the rate increase. In order to achieve fiscal independence, however, PRASA will have to implement various changes, such as (i) aggressive cost savings programs; and (ii) a new and aggressive enforcement policy to identify and process delinquent customers. Although PRASA will require GDB financial assistance until these measures are fully implemented, they are intended to allow PRASA to become financially independent in the future.

Children’s Trust is a not-for-profit corporate entity created in 1999 as a public instrumentality of the Commonwealth. The Commonwealth has transferred to Children’s Trust all of its rights, title and interest under the tobacco litigation Master Settlement Agreement, including the Commonwealth’s right to receive initial, annual and strategic contribution payments to be made by the participating cigarette manufacturers under the Master Settlement Agreement.

Children's Trust issued \$1.2 billion aggregate principal amount of Tobacco Settlement Asset-Backed Bonds in October 2002. The bond proceeds were used, among other things, to pay the cost of certain capital expenses of the Commonwealth and certain capital and working capital expenses of PRASA. On June 30, 2005, the Children's Trust issued its \$108.2 million Tobacco Settlement Asset-Backed Bonds, Series 2005-A and 2005-B, to pay working capital expenses of the Commonwealth. As of March 31, 2006, the outstanding principal amount of the Trust's bonds was \$1.2 billion. These bonds and any other additional senior bonds issued by Children's Trust are secured by a statutory pledge of the payments made and to be made by participating manufacturers under the Master Settlement Agreement. To date, all principal and interest payments required to be made by the Trust on its outstanding bonds have been made on a timely basis from contribution payments made by participating manufacturers under the Master Settlement Agreement.

Convention Center District Authority. The Convention Center District Authority was created to own, develop, finance, plan, design, build, operate, maintain, administrate and promote a new convention center and designated private parcels located within the Convention Center District in San Juan. The convention center opened on November 17, 2005.

The Industrial, Tourist, Educational, Medical and Environmental Control Facilities Financing Authority ("AFICA") financed the construction of a multi-purpose coliseum in San Juan, known as the José Miguel Agrelot Coliseum, with a line of credit provided by GDB. The José Miguel Agrelot Coliseum was recently completed and transferred to the Convention Center District Authority. Pursuant to Act No. 185 of August 3, 2004, AFICA also transferred the line of credit to the Convention Center District Authority. As of March 31, 2006, this line of credit with GDB had an outstanding balance of \$153.1 million.

The Authority's lines of credit with GDB (including lines of credit with respect to the José Miguel Agrelot Coliseum) total \$645.7 million, of which \$500.9 million was outstanding as of March 31, 2006. On March 24, 2006, the Authority repaid approximately \$372 million of its lines of credit with the Bank from the proceeds of a bond issue in the aggregate principal amount of approximately \$468.8 million. The Authority intends to issue long-term bonds within the next few months to refinance its lines of credit with the Bank relating to the José Miguel Agrelot Coliseum.

Electric Power Authority. The Authority owns and operates the island's electric system. The capital improvement program for the five-year period ending June 30, 2010 is estimated to cost approximately \$2.3 billion and will be financed primarily by borrowed funds, supplemented by internally generated funds. The Authority's bonded debt consists of Power Revenue Bonds, secured by a lien on net revenues of the electric system. As of March 31, 2006, the Authority's total debt was \$5.8 billion, including \$5.2 billion of bonds outstanding (not including accretion of interest from the respective issuance dates on capital appreciation bonds). As a means of reducing its dependency on oil, the Authority has entered into long-term power purchase agreements with the operators of two co-generation plants that use fuels other than oil. Currently, these two co-generation plants provide approximately 27% of the Authority's energy needs.

Health Insurance Administration was created in 1993 to implement the health reform by negotiating and contracting for the provision of comprehensive health insurance coverage for qualifying (generally low income) Puerto Rico residents. Under this system, the government selects, through a bidding system, one private health insurance company in each of eight designated regions of the island and pays such insurance company the insurance premium for each eligible beneficiary within such region.

In January 2006, the Commonwealth entered into various contracts with several Medicare Advantage Organizations for the provision of health coverage to approximately 200,000 eligible

beneficiaries. Pursuant to these agreements, the Commonwealth pays each Medicare Advantage Organization a premium difference to cover services not included in their contracts with the Center for Medicaid and Medicare Services. The health insurance system covers all of the municipalities, and approximately 1.5 million persons were covered by the system during fiscal year 2006.

The total cost of the health insurance program for fiscal year 2006 is estimated at \$1.57 billion, compared to \$1.46 billion for fiscal year 2005 and \$1.37 billion for fiscal year 2004. For fiscal year 2006, the General Fund covered \$984 million of the total cost of the health insurance program, while the remaining \$586 million was paid from federal, municipal and other sources. The fiscal year 2007 budget estimates the cost of the health insurance program at more than \$1.7 billion, of which the General Fund is expected to cover \$1.6 billion. Negotiations with insurance companies will be focused on cost containment strategies that will lower the plan costs to projected total income, which is currently estimated at \$1.62 billion. See *Budget of the Commonwealth of Puerto Rico*.

Highways and Transportation Authority. The Authority is responsible for highway construction in Puerto Rico. Such construction is financed by debt (interim notes and revenue bonds), revenues of the Authority, and federal and Commonwealth grants. Debt service on the Authority's revenue bonds constitutes a first lien on its gross revenues, which consist currently of all the proceeds of the tax on gasoline, one-half of the proceeds of the tax on gas oil and diesel oil, all the proceeds of the excise taxes on crude oil, unfinished oil and derivative products, up to \$120 million per fiscal year, highway toll revenues (which were increased approximately 43% in September 2005), and the gross receipts of \$15.00 per vehicle per year from certain motor vehicle license fees. Such revenues (except for toll revenues) may be applied first to the payment of debt service on general obligation bonds and notes of the Commonwealth and to payments required to be made by the Commonwealth under its guarantees of bonds and notes, to the extent that no other revenues are available for such purpose. The Commonwealth has never applied such revenues for such payment. In September 2005, the Authority issued bonds in an amount of \$1.5 billion to finance various highway projects and refund certain of the Authority's revenue bonds. As of March 31, 2006, the Authority's total debt was \$6.5 billion.

The Authority has completed the first phase of a new mass transit system, known as Tren Urbano, to serve a portion of metropolitan San Juan. The first phase of Tren Urbano was constructed under several design/build contracts, including a design/build/operate contract covering the design and construction of the system and the operation of Tren Urbano for five years with an additional five-year option at the Authority's election. The cost of the first phase was \$2.25 billion, which cost was financed by Federal Transit Administration grants, other federal funding sources and the Authority's own resources, including bond financings. Tren Urbano commenced operations in June 2005.

The Authority is a party to a concession agreement under which a private company designed, constructed and currently is operating a toll bridge spanning the San José Lagoon. The toll bridge was financed with special facility revenue bonds of the Authority, the outstanding principal balance of which was \$153.2 million as of March 31, 2006, payable by the private operator of the bridge principally from toll revenues. The concession is for a term of 35 years, subject to earlier termination or extension. The bridge opened for traffic in February 1994. In certain circumstances described in the concession agreement, including where toll revenues are insufficient to generate certain rates of return to the private operator, the private operator may require the Authority, among other things, to assume the operator's obligations with respect to the special facility revenue bonds. Some of those circumstances, including low toll revenues, exist at this time, but the Authority does not currently anticipate that the operator will exercise its remedy against the Authority.

Puerto Rico Industrial Development Company participates in the Commonwealth-sponsored economic development program by providing physical facilities, general assistance, and special incentive

grants to manufacturers. The Company was merged with the Economic Development Administration in January 1998. Rentals derived from the leasing of specified facilities of the Company are pledged to the payment of the Company's revenue bonds. As of March 31, 2006, the Company's total debt was \$308 million. The Company has recently restructured its operations in order to allow it to react more quickly to changing business situations. Part of this restructuring includes a significant reduction in the number of its employees.

Industrial, Tourist, Educational, Medical and Environmental Control Facilities Financing Authority ("AFICA") was created in June 1977. The Authority has issued revenue bonds to finance industrial, tourist, educational, medical, and environmental control facilities in Puerto Rico for the use of private companies, non-profit entities, or government agencies. The bonds are payable solely from payments to be made to the Authority by such private companies, non-profit entities, or government agencies, and do not constitute a debt of the Commonwealth or any of its other public corporations or municipalities. As of March 31, 2006, approximately \$1.7 billion of the Authority's bonds were outstanding.

Infrastructure Financing Authority was created in June 1988 to provide financial, administrative, consulting, technical, advisory, and other types of assistance to other public corporations, governmental instrumentalities, political subdivisions and municipalities (collectively, "Benefited Entities") authorized to develop infrastructure facilities and to establish alternate means for financing infrastructure facilities. The Authority is authorized to issue bonds and provide loans, grants and other financial assistance for the construction, acquisition, repair, maintenance and reconstruction of infrastructure projects by Benefited Entities. The Authority's enabling act also established the Puerto Rico Infrastructure Fund, funded with annual fixed amounts from the first proceeds of federal excise taxes imposed on rum and other articles produced in Puerto Rico and sold in the United States which are transferred to Puerto Rico pursuant to the United States Internal Revenue Code of 1986, as amended. Currently, this amount is \$70 million, and it will increase to \$90 million for fiscal years 2007 to 2052. Rum is the only article currently produced in Puerto Rico subject to federal excise taxes, the proceeds of which are required to be returned to the Treasury. The Authority is using these amounts to provide financial support for various infrastructure and other projects. As of March 31, 2006, the Authority's total debt was \$1.5 billion.

The Authority has provided assistance to PRASA, among other Benefited Entities, with regards to (i) the design and construction of various strategic regional water and sewer projects intended to provide improved services to targeted regions throughout the island; (ii) the implementation of an action plan to address a number of small water and sewer rehabilitation projects; (iii) the achievement of compliance with certain environmental laws; and (iv) the establishment of a prioritized capital program.

In June 1998, the Authority's enabling act was amended to establish the Infrastructure Development Fund, a permanent trust fund to be utilized by the Authority for the purpose of financing infrastructure projects. The Infrastructure Development Fund was initially funded in March 1999 with \$1.2 billion of proceeds received by the Telephone Authority from the sale of a controlling interest in Puerto Rico Telephone Company. This initial amount will remain permanently deposited in a segregated, perpetual account, denominated the "corpus account," and must be invested exclusively in U.S. government or U.S. government-backed obligations. The income from such investment may only be used to finance infrastructure projects related to the Commonwealth's water and sewer systems. Other moneys in the Infrastructure Development Fund not attributable to the corpus account or the investment income thereon may be used for other infrastructure projects. The Authority is the custodian and administrator of the Infrastructure Development Fund. In October 2000, the Authority issued \$1.093 billion of bonds payable from and secured by a pledge of the interest received by the Authority from the investments of the Infrastructure Development Fund. The proceeds of this bond issue were used to finance certain aqueduct and sewer infrastructure development projects.

Maritime Shipping Authority commenced operations in 1974 upon the acquisition of three shipping lines serving Puerto Rico and the United States mainland. In 1995, the assets and operations of the Maritime Shipping Authority were sold to a private investor group. The remaining debt of the Authority was refinanced through the issuance of bonds by Public Finance Corporation, a subsidiary of GDB. The aggregate principal amount of such bonds outstanding as March 31, 2006, was \$328.5 million (not including accreted values of capital appreciation bonds outstanding). The bonds are payable from funds to be appropriated annually by the Legislative Assembly of Puerto Rico.

Municipal Finance Agency was created in 1972 as a municipal “bond bank” for Puerto Rico. The Agency is authorized to issue bonds to purchase general obligation bonds and notes of Puerto Rico municipalities and to fund a debt service reserve. Debt service on the Agency’s bonds is payable from debt service payments on municipal bonds held by the Agency and from the debt service reserve, including investment income thereon. The Commonwealth has agreed to pay such amounts to the debt service reserve as may be necessary to maintain it at its required level, subject to appropriation by the Legislative Assembly, which appropriation is authorized but not legally required to be made. To date no such payments have been required. As of March 31, 2006, the Agency had \$1.6 billion of bonds outstanding.

Port of the Americas Authority. Port of the Americas Authority is responsible for the development and operation of the Port of the Americas (the “Port”), a deep draft port on the south coast of Puerto Rico. In December of 2004, the first phase of the Port was completed at a cost of \$40 million. The Authority is authorized to issue bonds guaranteed by the Commonwealth in a maximum aggregate principal amount of \$250 million. The proceeds from these bonds will be used to continue the development of the Port. Currently, GDB is authorized to purchase bonds of the Authority in an aggregate principal amount not to exceed \$250 million. As of March 31, 2006, GDB held approximately \$22.5 million of the Authority’s outstanding bonds, which are guaranteed by the Commonwealth.

Ports Authority. The Authority owns and operates the major airport and seaport facilities in Puerto Rico. The Authority derives revenues from a variety of sources, including charges on airplane fuel sales, air terminal space rentals, landing fees, wharfage, dockage and harbor fees, and rentals for the lease of seaport equipment and property. As of March 31, 2006, the Authority had \$494.4 million in debt, including \$301.5 million under a line of credit with GDB.

Public Buildings Authority is authorized to construct, purchase or lease office, school, health, correctional and other facilities for lease to departments, public corporations, and instrumentalities of the Commonwealth. Bonds that have been issued by the Authority to finance such facilities (through retirement of interim notes or otherwise) are payable from lease payments, which are largely derived from legislative appropriations and are further secured by the Commonwealth’s guaranty. The Authority is authorized by law to have outstanding at any one time up to \$3.325 billion of bonds guaranteed by the Commonwealth. As of March 31, 2006, \$2.88 billion of such bonds of the Authority was outstanding (not including accretion of interest from the respective issuance dates on capital appreciation bonds). As of March 31, 2006, Public Building Authority’s line of credit with GDB had an outstanding balance of \$50.2 million.

Special Communities Perpetual Trust. The Special Communities Perpetual Trust is an irrevocable and permanent trust created in November 2002 as a public corporation. The Trust’s principal purpose is to fund development projects which address the infrastructure and housing needs of underprivileged communities. Act No. 271 of November 21, 2002 required GDB to make a special capital contribution to the Special Communities Perpetual Trust of \$500 million and to provide the Trust a \$500 million non-revolving line of credit. In December 2004, GDB transferred to the Special Communities Irrevocable Trust the required \$500 million capital contribution and an additional \$270.7

million, which represented the remaining undisbursed balance of the \$500 million line of credit. The amounts transferred to the Special Communities Irrevocable Trust were deposited in two investment accounts held by GDB for the benefit of the Special Communities Perpetual Trust, of which \$209.9 million had been disbursed to the Trust as of March 31, 2006. As of March 31, 2006, the Special Communities Perpetual Trust's line of credit with GDB had an outstanding balance of \$425.1 million. The line of credit is payable from legislative appropriations.

Telephone Authority was created in July 1974 when the Commonwealth purchased the Puerto Rico Telephone Company ("PRTC") from International Telephone and Telegraph Corporation. PRTC operates the principal telephone system in Puerto Rico.

In March 1999, the Telephone Authority sold a controlling interest in PRTC to a consortium led by GTE International Telecommunications Incorporated, which was subsequently acquired by Verizon Communications, Inc. The net proceeds of the sale received at closing were applied to defease outstanding bonds of the Authority in the principal amount of \$756 million, to make a \$1.2 billion deposit to the Infrastructure Development Fund held by the Infrastructure Financing Authority and to pay certain benefits to PRTC employees. In January 2002, Verizon exercised its option to purchase an additional 15% of PRTC stock for \$172 million. The Commonwealth retains a 28% stock participation in PRTC. The proceeds from the Verizon stock option exercise and the remaining 28% ownership interest were transferred to the Employees Retirement System of the Commonwealth and its instrumentalities.

In April 2006, Verizon announced that it had reached an agreement to sell all of its PRTC stock to Sercotel, S.A. de C.V., a subsidiary of América Móvil, S.A. de C.V. ("Sercotel"). The Authority has certain "tag along" rights, which permit it to participate in the transaction with Sercotel and sell all of its remaining PRTC stock to Sercotel at the same price per share offered to Verizon. The Authority is evaluating whether it will exercise its rights to sell its remaining PRTC stock to Sercotel.

University of Puerto Rico (the "University"), with approximately 67,053 students in academic year 2004-2005, is by far the largest institution of higher education on the island. Government appropriations are the principal source of University revenues, but additional revenues are derived from tuition, student fees, auxiliary enterprises, interest income, federal grants, and other sources. University capital improvements have been financed mainly by revenue bonds. As of March 31, 2006, the University's total debt was \$464 million.

On December 21, 2000, AFICA issued its \$86,735,000 Educational Facilities Revenue Bonds, 2000 Series A (University Plaza Project) for the purpose of financing the construction of additional student housing and parking and office space for the University. The project was built and is being operated by Desarrollos Universitarios, Inc., a Puerto Rico not-for-profit corporation, and is leased to the University for a term equal to the term of the bonds with University lease payments being sufficient to pay debt service on said bonds as they become due.

Other public corporations (not described above) have outstanding debt in the aggregate amount of \$1.3 billion as of March 31, 2006. Debt service on \$640.3 million of such outstanding debt is being paid from legislative appropriations. However, the Commonwealth is not obligated to make any such appropriations. Additional legislative appropriations are made to enable certain of such corporations to pay their operating expenses.

INSURANCE MATTERS

Government-owned property is insured through policies obtained by the Secretary of the Treasury and through self-insurance, except for property owned by the Electric Power Authority and PRASA,

which is insured through arrangements and policies obtained by the respective Authorities. Personal injury awards against the Commonwealth are limited by law to \$150,000 per occurrence.

RETIREMENT SYSTEMS

General. Public employees of the Commonwealth and its instrumentalities are covered by five retirement systems: the Employees Retirement System, the Puerto Rico System of Annuities and Pensions for Teachers (the “Teachers Retirement System”), the Commonwealth Judiciary Retirement System (the “Judiciary Retirement System”), the Retirement System of the University of Puerto Rico (the “University Retirement System”), and the Employees Retirement System of Puerto Rico Electric Power Authority (the “Electric Power Authority Retirement System”).

The University Retirement System and the Electric Power Authority Retirement System apply to employees of the University of Puerto Rico and Electric Power Authority, respectively. The Commonwealth is not required to contribute directly to those two systems, although a large portion of University revenues is derived from legislative appropriations.

Covered Employees. The Teachers Retirement System covers public school teachers and certain private school teachers, as well as teachers working in administrative positions. Act No. 91 of March 29, 2004 established that (i) all new teachers hired from that date and thereafter are covered by the Teachers Retirement System; and (ii) employees of the Teachers Retirement System as of that date may elect to participate in the Teachers Retirement System or in the Employees Retirement System. The Judiciary Retirement System covers judges, and the Employees Retirement System covers all other employees of the Commonwealth, its municipalities and instrumentalities. As of March 31, 2006, the total number of participants, including active participants and retirees, in the three systems was as follows: Employees Retirement System, 291,778; Teachers Retirement System, 77,511; and Judiciary Retirement System, 684. The three systems are financed by contributions made by employers (the Commonwealth, public corporations, and municipalities) and employees, and investment income.

Funding Requirements. The central government is responsible for approximately 67% of total employer contributions to the Employees Retirement System, and the other 33% is the responsibility of public corporations and municipalities. The central government is also responsible for 100% and 99% of total employer contributions to the Judiciary and Teachers Retirement Systems, respectively. Retirement and related benefits provided by the systems and required contributions to the systems by employers and employees are determined by law rather than by actuarial requirements. For the Employees Retirement System, required employer contributions consist of approximately 9.275% of applicable payroll. Required employee contributions for the Employees Retirement System vary according to salary and how the individual employee’s retirement benefits are coordinated with social security benefits. For the Judiciary Retirement System, required contributions consist of 20% of applicable payroll for the employer and 8% for the employees. For the Teachers Retirement System, required contributions consist of 8.5% of applicable payroll for the employer and 9.0% for the employees.

Actuarial Valuation of Employees Retirement System. According to the most recent actuarial valuation of the Employees Retirement System and Judiciary Retirement System submitted by a firm of independent consulting actuaries, as of June 30, 2003, the total pension benefit obligations for the Employees Retirement System and Judiciary Retirement System were \$11.2 billion and \$166.7 million, respectively. The unfunded pension benefit obligations of the Employees Retirement System and Judiciary Retirement System for the same period were \$9.2 billion and \$105 million, respectively, representing a funding ratio of 17% and 37.1%, respectively. Any amounts receivable from the Commonwealth with respect to benefits under special benefits laws (discussed below) are considered in the actuarial evaluation process to determine the unfunded pension benefit obligation of the Employees

Retirement System to the extent receivables are recognized as such by the Employees Retirement System. The June 30, 2003 actuarial valuation was completed in accordance with the "Projected Unit Credit" method and assumed an investment return of 8.5% per year and a salary increase of 5% per year. Insofar as the statutorily mandated annual deposit to the Employees Retirement System and Judiciary Retirement System is insufficient to cover the actuarial pension benefit obligation, the unfunded pension benefit obligation of the System will continue to increase in the short term, and additional funding from the Commonwealth may ultimately be necessary to cover such unfunded obligation.

Actuarial Valuation of Teachers Retirement System. According to the most recent actuarial valuation of the Teachers Retirement System submitted by a firm of independent consulting actuaries, as of June 30, 2004 the accrued actuarial liability of the system was \$4.7 billion and the value of its assets amounted to \$2.4 billion, representing a funding ratio of 51%, and the resulting unfunded accrued liability was \$2.3 billion. This funding ratio takes into account the recent turn-around in the equities market and the restructuring of the portfolio's asset composition. The actuarial valuation assumed an investment return of 8%, yearly salary increases of 5%, employee and employer contributions of 9% and 8.5%, respectively, an inflation rate of 3.5%, and a remaining amortization period of 16 years for the unfunded accrued liability. The actuarial accrued liability does not include benefits paid under special benefits laws (described below) and will not include the obligation with respect to the prospective payments under special benefits laws because these are not obligations of the Teachers Retirement System, and the funding for such benefits will originate from the Commonwealth's General Fund. Insofar as the statutorily mandated annual deposit to the Teachers Retirement System is insufficient to cover the actuarial pension liability, the unfunded pension benefit obligation will continue to increase in the short term, and additional funding from the Commonwealth may ultimately be necessary to cover such unfunded liability.

Special Benefits. Various special benefits laws enacted in previous years provided for additional benefits for the Employees Retirement System, Teachers Retirement System, and Judiciary Retirement System. Specifically, in the case of the Employees Retirement System, Act No. 10 of May 21, 1992 provided for special benefit increases of 3% every three years. The first 3% increase was granted to retirees who had been receiving their annuities for three or more years as of that date. The second 3% increase was granted to retirees who had been receiving their annuities for three or more years as of January 1, 1995. This increase is being financed by additional contributions from the employers. The third 3% increase was granted to retirees who had been receiving their annuities for three or more years as of January 1, 1998. This third increase is being partially funded with additional contributions from some of the employers. In June 2001, the Legislative Assembly approved a fourth 3% increase, effective as of January 1, 2001, in post-retirement annuity payments granted on or prior to January 1, 1998. This increase will be funded by the General Fund for retirees who were employees of the central government and by municipalities and public corporations for retirees who were their employees. In June 2003, the Legislative Assembly approved a fifth increase of 3% in post retirement benefits effective January 1, 2004. This increase will also be funded by the General Fund for retirees who were employees of the central government and by municipalities and public corporations for retirees who were their employees. Subsequent increases will depend upon the express approval of the Board of Trustees of the Employees Retirement System and the Legislative Assembly, and must provide a funding source. In the case of the Judiciary Retirement System, Act No. 41 of June 13, 2001 provided a 3% special benefit increase in annuity payments, commencing on January 1, 2002 and every three years thereafter, to retirees who have been receiving their annuities for three or more years as of that date. This increase will be funded by the General Fund.

The Teachers Retirement System is seeking reimbursement from the Commonwealth in the amount of \$119 million for special benefits paid by the System to its beneficiaries through June 30, 2005 pursuant to special benefit laws enacted by the Legislative Assembly. The Teachers Retirement System's

interpretation of these special benefit laws, to the effect that the Commonwealth is required to reimburse the Teachers Retirement System for such special benefits paid, is being disputed by OMB. This dispute is currently under inter-agency arbitration proceedings. The Employees Retirement System is also seeking reimbursement from the Commonwealth (in connection with other special benefits laws applicable to its beneficiaries) in the amount of \$77.4 million, representing cumulative benefits paid to beneficiaries through June 30, 2005. The Employees Retirement System projects an additional shortfall of \$39.4 million for fiscal year 2006 in connection with special benefits laws payments. OMB believes that the basis of the claims from the Employees Retirement System is valid but that the amounts claimed remain to be verified and reconciled. See "Fiscal Year 2006 Budget" under *Budget of the Commonwealth of Puerto Rico*. Recently, the Employees Retirement System received a \$42.9 million payment from OMB to cover shortfalls related to special benefit laws payments.

Amendments to Employees Retirement System. In February 1990, the organic act of the Employees Retirement System was amended to reduce the future pension liabilities of the Employees Retirement System. Among other provisions, the legislation increased the level of contributions to the Employees Retirement System and limited the retirement benefits for new employees by increasing the length of employment required for the vesting of certain benefits and reducing the level of benefits in the case of early retirement. The legislation also reduced the level of occupational disability benefits and death benefits received by new employees.

In 1999, the organic act of the Employees Retirement System was further amended to change it, prospectively, from a defined benefit system to a defined contribution system. This amendment provides for the establishment of an individual account for each employee hired by the Commonwealth after December 31, 1999 and for those current employees who elect to transfer from the existing defined benefit system. The individual account of each current employee is credited initially with an amount equal to his aggregate contributions to the Employees Retirement System, plus interest. Current employees who did not elect to transfer to the new defined contribution system will continue accruing benefits under the current defined benefit system. The individual account of each participant of the new defined contribution system is credited monthly with the participant's contribution and is credited semiannually with a rate of return based on either of two notional investment returns. Such accounts are not credited with any contribution by the employer. Instead, employer contributions will now be used completely to reduce the accumulated unfunded pension benefit obligation of the Employees Retirement System.

The law approving the sale of a controlling interest in PRTC to a consortium led by GTE International Telecommunications Incorporated (subsequently acquired by Verizon Communications Inc.) provides that any future proceeds received by the government from the sale of its then remaining 43% stock ownership in PRTC will be transferred to the Employees Retirement System to reduce its accumulated unfunded pension benefit obligation. In January 2002, Verizon exercised its option to purchase an additional 15% of the stock of PRTC for \$172 million. The proceeds of the sale were transferred to the Employees Retirement System. The Commonwealth is currently evaluating whether it will exercise its tag along rights in connection with the sale by Verizon of its PRTC stock to Sercotel. If the Commonwealth were to exercise its tag along right, the Employees Retirement System could receive approximately \$500 million from the sale of its remaining stock participation in PRTC.

Cash Flow Shortfalls. The Employees Retirement System's disbursements of benefits during fiscal years 2003, 2004, and 2005 exceeded contributions and investment income for those years. The cash shortfall for fiscal year 2003 was covered with a portion of the proceeds from the sale to Verizon of the 15% stock ownership in PRTC and a loan received from the Department of the Treasury. The cash shortfall for fiscal year 2004 was covered with a loan received from the Department of the Treasury. Balances owed to the Department of the Treasury and other pending working capital needs through fiscal

year 2005 were refinanced through a repurchase agreement with a financial institution in an amount of \$138 million collateralized with the assets of the Employees Retirement System. A cash shortfall of approximately \$70 million is also expected for fiscal year 2006. This shortfall will be covered either by a sale of assets, a loan from the Department of the Treasury, or some other financial market transaction.

Efforts to Address Cash Flow Shortfall and Improve Funding Ratio. The Employees Retirement System anticipates that its future cash flow needs for disbursement of benefits to participants is likely to exceed the sum of the employer and employee contributions received and its investment and other recurring income. If, as discussed above, the Commonwealth decides to sell its remaining PRTC stock, the proceeds of approximately \$500 million may be used to fund any cash flow imbalance, or portion thereof, in the next few years. The Employees Retirement System is also evaluating other measures to improve its cash flows and funding ratio. Some of these measures include, but are not limited to, the establishment of a maximum salary to calculate pension benefits, aggressive collection efforts with respect to employer contributions owed by the Commonwealth, the municipalities and public corporations, and the transfer to the Employees Retirement System of any amounts remaining in the Children's Trust after payment of all the outstanding bonds. See "Proposed Tax Reform" under *Puerto Rico Taxes, Other Revenues, and Expenditures*.

In addition, legislation has been submitted that, if enacted, will authorize the issuance of pension obligation bonds ("POBs"). The POBs will contribute approximately \$2 billion in assets to the Employees Retirement System and will be payable solely from the Commonwealth's General Fund. While the POBs are outstanding and the Commonwealth is paying debt service, General Fund transfers to the Employees Retirement System in any fiscal year will be reduced by an amount equal to the lesser of \$100 million and the debt service on the POBs payable in such fiscal year. The proposed legislation also includes a measure that would increase employee and employer contributions to the Employees Retirement System. Employee contributions would increase to 10% while employer contributions would gradually increase by .5% each fiscal year to a maximum of 12.5% in fiscal year 2012. The Employees Retirement System projects that current contributions, together with investment and other recurring income, earnings on the \$2 billion that would be raised by the issuance of the POBs, and the proposed increase in employee and employer contributions will allow it to improve its funding ratio. It is uncertain, however, if and when the legislation submitted will be considered and approved.

The following tables present the Statement of Plan Net Assets and Statement of Changes in Plan Net Assets of the Employees Retirement System, the Judiciary Retirement System, and the Teachers Retirement System for fiscal years 2003, 2004, and 2005, and for the six month period ended December 31, 2005 with respect to the Employees Retirement System.

COMMONWEALTH FINANCIAL STATEMENTS

For fiscal year 2005, the basic financial statements of the Commonwealth were audited by KPMG LLP. KPMG LLP did not audit the financial statements of the Public Buildings Authority capital project fund (a major fund), and certain activities, funds and component units identified separately in their report. Those financial statements were audited by other independent auditors whose reports were furnished to KPMG LLP, and its opinion on the basic financial statements, insofar as it relates to the amounts included in the basic financial statements pertaining to such activities, funds and component units, was based solely on the reports of the other auditors. The report of KPMG LLP contains an emphasis paragraph for the adoption of Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposits and Investment Risk Disclosures*, as of June 30, 2005.

The Comprehensive Annual Financial Report of the Commonwealth (“CAFR”) for fiscal year 2005, which includes the basic financial statements of the Commonwealth for fiscal year 2005, was filed by the Commonwealth with each nationally recognized municipal securities information repository.

PUERTO RICO TAXES, OTHER REVENUES, AND EXPENDITURES

The Secretary of the Treasury has custody of the funds of the central government and is responsible for the accounting, disbursement and investment of such funds. Central government funds are grouped into three major categories or “types” of funds, as follows: (i) Governmental Fund Types, which include the General, Special Revenue, Debt Service (also referred to herein as Redemption), and Capital Project Funds; (ii) Proprietary Fund Types, which include the Enterprise and Internal Service Funds; and (iii) Fiduciary Fund Types, which include the Trust and Agency Funds. These funds do not include funds of the municipalities, because the municipalities are governmental entities with independent treasuries. The Special Revenue Fund is incorporated into the General Fund for financial reporting purposes (but not for budgetary purposes).

The General Fund is the primary operating fund of the Commonwealth. General Fund revenues are broadly based and include revenues raised internally as well as those from non-Puerto Rico sources. Internal revenues consist principally of income taxes and excise taxes. Revenues from non-Puerto Rico sources are derived from federal excise taxes and customs duties returned to the Commonwealth. The primary expenditures of the Commonwealth through the General Fund are for grants and subsidies, and personal and other services.

Summary and Management’s Discussion of General Fund Results

The following table presents the actual revenues and expenditures of the General Fund on a cash basis for fiscal year 2003 through fiscal year 2005 and the estimated revenues and expenditures for fiscal year 2006. The information relating to fiscal year 2006 is based on, with respect to revenues, the actual amounts received through April 2006 and the Secretary of the Treasury’s original estimates for the balance of the fiscal year and, in the case of expenditures, the estimated figures of expenditures for such fiscal year. For a discussion of the anticipated budget deficit for fiscal year 2006, see “2006 Projected Expenditures” under *Budget of the Commonwealth of Puerto Rico*.

The amounts shown in the following table as expenditures may be different than those reflected in the budget or in the Commonwealth’s financial statements because the table shows only cash disbursements, while the budget includes all authorized expenditures, regardless of when the related cash is actually disbursed. In addition, transfers to the Redemption Fund (used to pay debt service on the Commonwealth’s bonds), which are included in the budget under “debt service,” are shown as a deduction from total revenues in calculating “adjusted revenues” in the table and are not included under

“expenditures.” Finally, certain expenditures incurred in excess of budgeted amounts may not be reflected in the table as expenditures to the extent they are paid from reserve funds, such as moneys in the Budgetary Fund. For example, in fiscal years 2003, 2004, and 2005, there were approximately \$150 million, \$85 million, and \$98.6 million, respectively, of such expenditures that are not reflected in the table. A discussion of the budget for fiscal year 2006 and the budget for fiscal year 2007 appears below under *Budget of the Commonwealth of Puerto Rico*.

Amounts listed under “Other Income” represent recurring General Fund revenues not appropriately attributable to other revenue line items, such as repayment of General Fund advances to municipalities and government agencies and funds. “Other Expenditures” represent recurring General Fund expenditures not appropriately attributable to other expenditures line items, such as advances to government agencies and municipalities, which advances are to be reimbursed to the General Fund by law. Amounts listed under “Capital Outlays and Other Debt Service” represent debt service on obligations and capital expenditures for which the Legislative Assembly has by resolution agreed to appropriate funds. General Fund revenues, expenditures, and transfers as presented in the table differ from the General Fund revenues, expenditures, and transfers as presented in the financial statements of the Commonwealth, as the latter statements reflect an expanded General Fund entity in accordance with generally accepted accounting principles.

(e) Estimated.

(1) Excludes transfers by the Commonwealth to the Conservation Trust Fund and amounts deposited by the Secretary of the Treasury into a separate account for the promotion of Puerto Rico runs in foreign markets.

(2) Consists of net revenues from the General Fund's non budgetary funds plus a reserve for future tax refunds reduced by estimated tax refunds.

(3) Consists of amounts to pay principal of and interest on general obligation bonds and notes of the Commonwealth. Does not include amounts deposited directly into the Redemption Fund from non-General Fund revenues.

(4) Consists of proceeds of borrowing from GDB and proceeds from Commonwealth's Tax and Revenue Anticipation including \$741 million loan authorized by the Legislature in 2006.

(5) Consists of amounts of repayments of borrowing from GDB and repayments of Commonwealth's Tax and Revenue Anticipation Notes.

(6) Includes net proceeds from the sale of \$100,000,000 Commonwealth of Puerto Rico Public Improvement Refunding Bonds, Series 2006 A.

(7) Includes \$50 million from the Emergency Fund used for operating expenses.

Source: Department of the Treasury

Fiscal Year 2006 Estimated Revenues

General Fund estimated total revenues for the first ten months of fiscal year 2006 were \$7.2 billion, which is \$151 million less than the amount originally budgeted. The reduction is attributable to the current economic slowdown, the current Commonwealth fiscal crisis (described below in “Commonwealth’s Budget Structural Imbalance”) and the high price of oil and its derivatives. Total revenues for the first ten months of fiscal year 2006 showed an increase of \$344 million, or 5%, when compared to the same period in fiscal year 2005. This increase, in comparison with fiscal year 2005, was attributable to increases in income taxes from individuals (\$120 million), corporations (\$44 million), taxes withheld from non-residents (\$288 million) and external revenues (\$45 million), together with decreases in excise taxes (\$92 million), and non-tax revenues (\$54 million). The increase in revenues from individual income taxes is mainly attributable to administrative measures. The increase in the withholding tax on non-residents for the first ten months of fiscal year 2006 includes two extraordinary payments amounting to \$200 million.

Budgeted expenditures for fiscal year 2006 were \$8.945 billion. Estimated expenditures for fiscal year 2006 amount to \$9.683 billion. For a discussion of the difference between the budgeted expenditures, estimated expenditures and the measures that the Commonwealth has identified to cover the estimated budget imbalance, see “Budget for Fiscal Year 2006” and “2006 Projected Expenditures” under *Budget of the Commonwealth of Puerto Rico*.

Fiscal Year 2005

General Fund total net revenues for fiscal year 2005 were \$8.306 billion, representing an increase of \$320 million or 4%, from fiscal year 2004 net revenues. This amount excludes proceeds of a loan of \$550 million obtained from GDB, which is included as part of “Proceeds of notes and other borrowings.” The major changes in revenues from fiscal year 2004 were: (i) increases in total income taxes of \$188 million, mainly resulting from increases in income taxes collected from individuals of \$165 million and in income taxes collected from corporations of \$40 million; (ii) increases in total excise taxes of \$99 million; and (iii) net increases in other revenues of \$32 million, mainly as a result of an increase in miscellaneous non-tax revenues of \$51 million.

Total cash expenditures for fiscal year 2005 were \$9.220 billion (excluding \$98.6 million covered with funds from the Budgetary Fund), which exceeded budgeted expenditures by \$366 million, attributed mainly to increases in the area of education (\$300.5 million), public safety and protection (\$18.6 million), health (\$28.7 million), welfare (\$10.2 million), and economic development (\$8 million). This amount also excludes approximately \$98.6 million of additional expenditures that were not originally budgeted. Various financing transactions were entered into to cover this imbalance.

Fiscal Year 2004

General Fund total net revenues for fiscal year 2004 were \$7.985 billion, representing an increase of \$143 million, or 1.8%, from fiscal year 2003 net revenues. This amount excludes proceeds of a loan of \$233 million obtained from GDB, which is included as part of “Proceeds of notes and other borrowings.” This amount also excludes \$88 million of additional non-recurring revenues. The major changes in revenues from fiscal year 2003 were: (i) increases in total income taxes of \$128 million, mainly resulting from increases in income taxes from individuals of \$203 million and in income taxes withheld from non-residents of \$114 million; (ii) increases in total excise taxes of \$42 million; and (iii) decreases in other revenues of \$65 million, mainly as a result of a decrease in miscellaneous non-tax revenues of \$59 million. Approximately \$170 million of the increase in total income taxes for fiscal year 2004 relates to the collection of past taxes as a result of an incentives plan implemented by the Treasury.

Total cash expenditures for fiscal year 2004 were \$8.004 billion, which amount excludes certain amounts related to fiscal year 2004 but disbursed in fiscal year 2005. This amount also excludes approximately \$293 million of additional expenditures that were not originally budgeted and were covered with reserve funds (\$50 million), the reimbursement of certain federal education funds (\$141 million), and other sources. After considering (i) debt service payments (separately identified in the table as “Transfers to Redemption Fund”), (ii) \$227 million in net borrowings from GDB and other sources, and (iii) \$63 million in other income from the General Fund’s non-budgetary funds, the ending cash balance of the General Fund decreased from \$179 million at the end of fiscal year 2003 to \$109 million at the end of fiscal year 2004.

Fiscal Year 2003

General Fund total revenues for fiscal year 2003 were \$7.841 billion, representing an increase of \$387 million, or 5.2%, from actual fiscal year 2002 revenues. This amount excludes proceeds of a loan of \$250 million obtained from GDB, which is included as part of “Proceeds of notes and other borrowings.” The major changes from fiscal year 2002 were: (i) increases in income taxes from individuals of \$67 million and in corporate income taxes of \$71 million; (ii) increases in excise taxes on alcoholic beverages and cigarettes of \$83 million, and an increase in motor vehicles excise taxes of \$81 million; (iii) an increase in electronic lottery revenues of \$32 million; and (iv) a decrease in miscellaneous non-tax revenues of \$124 million and in income taxes withheld from non-residents of \$66 million. The decrease in miscellaneous non-tax revenues relates to certain special administrative measures that had been implemented by the Secretary of the Treasury in fiscal year 2002 and that did not apply to fiscal year 2003.

Total cash expenditures for fiscal year 2003 were \$7.590 billion, which amount excludes certain amounts related to fiscal year 2003 but disbursed in fiscal year 2004. This amount also excludes \$150 million of additional expenditures that were not originally budgeted and were covered with reserve funds, federal fiscal relief funds and other sources. The principal reason for these higher expenditures was higher than anticipated education costs. After considering (i) \$332 million in debt service payments (separately identified on the table as “Transfers to Redemption Fund”), (ii) \$238 million in net borrowings from GDB (which includes the \$250 million loan mentioned above) and other sources, and (iii) \$79 million in reserve for future tax refunds reduced by estimated tax refunds (separately identified on the table as “Other Income (refunds)”), the ending cash balance of the General Fund was reduced from \$350 million at the end of fiscal year 2002 to \$179 million at the end of fiscal year 2003.

Commonwealth’s Structural Budget Imbalance

As discussed in more detail in “2006 Projected Expenditures” under *Budget of the Commonwealth of Puerto Rico*, the Commonwealth is experiencing a budget imbalance in fiscal year 2006 which comes in the wake of several recent fiscal years during which the Commonwealth had insufficient recurring revenues to cover its expenditures. These imbalances have been covered in the past with loans from GDB, financing transactions (including long-term bond issues) and other non-recurring resources. During fiscal year 2005, the amount by which the Commonwealth’s operating expenditures exceeded its recurring revenues (the so-called structural imbalance) was approximately \$1 billion. The Commonwealth estimates that during fiscal year 2006, the structural imbalance will be approximately \$1.2 billion. This amount represents the difference between (a) its estimate of recurring revenues of \$8.845 billion (which excludes \$100 million derived from refunding certain fiscal year 2006 debt service and any adjustment required due to the lower level of collections experienced during the first eleven months of fiscal year 2006); and (b) \$10.1 billion, which is comprised of the sum of (i) anticipated expenditures of \$9.683 billion, and (ii) \$368 million of debt service due during fiscal year 2006 on the Commonwealth’s general obligation bonds, which is being paid from a GDB line of credit and ultimately

will be paid from the proceeds of a Commonwealth bond issuance (the “Financed Debt Service”). See “2006 Budget Approval Process” under *Budget of the Commonwealth of Puerto Rico*. As discussed in further detail below, the Commonwealth expects to cover the fiscal year 2006 structural imbalance by financing the Financed Debt Service (\$368 million), issuing the Commonwealth’s Public Improvement Refunding Bonds, Series 2006 A to refinance certain fiscal year 2006 debt service on general obligation bonds (\$100 million) and financing most of the remaining portion of the Commonwealth’s fiscal year 2006 budget deficit with a GDB loan of up to \$741 million.

In addition to the Financed Debt Service, there are certain other expenditures not included in the amount of estimated expenditures for fiscal year 2006 that may increase the structural imbalance. These include certain vendor debts from prior fiscal years, estimated amounts required to cover maintenance expenses incurred by Public Buildings Authority (“PBA”) (approximately \$75 million) and subsidy and operational expenses incurred by the Agricultural Services and Development Administration (“ASDA”) (approximately \$75 million). These last two items are being covered by lines of credit from GDB collateralized by real estate and accounts receivable, with payment expected from the sale of such pledged real estate and/or the collection of such pledged receivables.

The Commonwealth is considering new revenue sources and expenditure reductions to address the structural imbalance beyond fiscal year 2006. In this regard, the Commonwealth is proposing to enact a new consumption tax as part of a comprehensive tax reform and implement the reductions in recurring expenditures provided for in the fiscal reform legislation explained below. See “Proposed Tax Reform” below and “Fiscal Reform” under *Budget of the Commonwealth of Puerto Rico*.

Proposed Tax Reform

On November 21, 2005, as a result of a joint effort by the two principal political parties to address the Commonwealth’s structural budget imbalance and its other fiscal difficulties, the Legislative Assembly approved, and the Governor signed, Joint Resolution No. 321 (the “Joint Resolution”). The Joint Resolution sets forth the basic principles that would govern the reform of the Commonwealth’s tax system. The proposed tax reform is aimed at increasing revenues by expanding the tax base through the implementation of the consumption tax. In general terms, the proposed tax reform is expected to (i) broaden the tax base through the implementation of a consumption tax, (ii) reduce certain individual income taxes, and (iii) simplify the administration of the tax system.

On November 16, 2005, legislation with respect to the tax reform, including a 7% consumption tax, was introduced in the House of Representatives with a proposed effective date of July 1, 2006. On January 16, 2006, the Governor presented his own tax reform proposal to the Legislative Assembly. The Governor’s principal proposals, which include the replacement of the Commonwealth’s excise tax with a 7% consumption tax, the elimination or reduction of many existing income tax deductions, and reductions in the existing income tax rates, were substantially similar to the principal proposals of the Joint Resolution.

The Governor’s tax reform proposal included the substitution of the 5% general excise tax with a 7% consumption tax and the earmarking of 1.5% for transfer to the Commonwealth’s municipalities and 1% for the payment of the Commonwealth’s appropriation debt. Currently, the Commonwealth’s yearly debt service on its appropriation debt is approximately \$500 million. The Commonwealth expected to refinance and restructure part of the appropriation debt in order to reduce its yearly debt service to approximately \$300 million, which is the amount earmarked for debt payments under the Governor’s proposal.

The Secretary of the Treasury expects that the tax reform proposed by the Governor will provide a net increase in the General Fund's annual revenues, after taking into consideration proposed reductions in income taxes and the earmarking of certain of the consumption tax revenues as described above. This net increase in annual revenues, and their future growth based on economic growth, together with savings achieved through the implementation of fiscal spending controls and the reduction of annual debt service on the Commonwealth's outstanding appropriation debt, is expected to reduce and eliminate the structural imbalance by fiscal year 2009.

While the Executive Branch and the Legislative Assembly agree that a comprehensive tax reform must be enacted, there is disagreement as to the specifics of such tax reform, particularly whether the aggregate consumption tax rate should be 5.5% or 7%.

On June 21, 2006, the House of Representatives approved a package of tax reform measures intended as a substitute for the tax reform bill presented by the Governor. These measures impose a 5.5% sales tax, eliminate the 5% general excise tax for most articles and provide some income tax reductions.

The Senate is evaluating the sales tax bill approved by the House of Representatives. The President of the Senate has stated that the sales tax bill may require significant amendments prior to its approval by the Senate. The Governor has stated that he will sign the sales tax bill only if it is significantly amended. Therefore, there is no assurance that the sales tax bill will be enacted as presented and, if enacted, that it will generate sufficient revenues to resolve the Commonwealth's fiscal difficulties.

Fiscal Year 2007 Projected Revenues

The Secretary of the Treasury's original projection of total revenues for fiscal year 2007 was \$9.684 billion, representing an increase of \$1 million over estimated actual expenditures for fiscal year 2006 of \$9.683 billion. This projection of total revenues for fiscal year 2007 assumed, among others, (a) the enactment, on or prior to June 30, 2006, of a comprehensive tax reform that would reduce certain income tax rates and substitute a 7% consumption tax for the 5% general excise tax, (b) real gross national product growth of 2.5%, and (c) the expansion of the tax base.

Without the additional revenues expected to be generated by the proposed tax reform, the Secretary of the Treasury projected that total revenues for fiscal year 2007 would be \$9.188 billion. According to the proposed budget package, this would represent a budget imbalance of approximately \$496 million, which would have to be addressed by new revenue raising measures (which require legislative approval), additional non-recurring revenues or additional expenditure reductions. Also, delays in the implementation of a tax reform could result in a budget imbalance for fiscal year 2007.

The final projections of total revenues for fiscal year 2007 will depend on the terms of the tax reform package ultimately approved. For a discussion of the tax reform, see "Proposed Tax Reform" above.

Major Sources of General Fund Revenues

Income Taxes

The Commonwealth's income tax law, the Internal Revenue Code of 1994, as amended (the "P.R. Code"), imposes a tax on the income of individual residents of Puerto Rico, trusts, estates, and domestic and foreign (if engaged in a trade or business in Puerto Rico) corporations and partnerships at graduated rates. A flat tax is imposed on certain payments made to non-residents of Puerto Rico, which is collected through an income tax withholding.

Individuals. Resident individuals are subject to tax on their taxable income from all sources. The P.R. Code has five tax brackets for individuals with tax rates of 7%, 10%, 15%, 28%, and 33%. Dividend income from Puerto Rico corporations and certain qualifying foreign corporations is taxed at a rate of 10%.

Gain realized from the sale or exchange of a capital asset by resident individuals, if held for more than six months, is taxed at a rate of 12.5%.

Interest income in excess of \$2,000 on deposit with Puerto Rico financial institutions is taxed at a rate of 17%; the first \$2,000 of interest income from such institutions is exempt from taxation. Interest income on certain qualifying debt obligations issued by Puerto Rico corporations and certain qualifying foreign corporations and paid to resident individuals, trusts, estates, corporations and partnerships qualifies for a special 10% tax rate.

Corporations and Partnerships. Puerto Rico corporations and partnerships are subject to tax on income from all sources; foreign corporations and partnerships that are engaged in a trade or business in Puerto Rico are subject to tax on their income from Puerto Rico sources and on income from sources outside Puerto Rico that is effectively connected with the conduct of their trade or business in Puerto Rico. Unless a corporation or partnership qualifies for partial exemption from corporate income and other taxes under the industrial incentives program (see "Tax Incentives" under *The Economy* above), it is subject to tax at graduated rates.

In general, the P.R. Code provides for six income tax brackets for corporations and partnerships, with the highest rate (39%) applicable to net taxable income in excess of \$300,000. Also, Act No. 41 of August 1, 2005 was enacted to impose a temporary additional tax of 2.5% on corporations and partnerships with a net taxable income of \$20,000 or more. In addition, Act No. 98 of May 16, 2006, provides for an extraordinary tax of 5% on resident corporations and partnerships engaged in business for pecuniary profit and whose gross income for the immediately preceding taxable year ended on or prior to December 31, 2005 exceed \$10 million. The 5% tax must be paid on or prior to July 31, 2006 and such amount may be subsequently claimed as a tax credit against such entity's income tax liability. Act No. 89 of May 13, 2006 also imposes an additional special tax for the taxable year commencing in 2006 of 2% on the net income subject to standard taxation of all corporations operating under the provisions of the Puerto Rico Banking Law.

Gains realized from the sale or exchange of a capital asset, if held for more than six months, are taxed at a maximum rate of 20%. Dividends received by Puerto Rico corporations and partnerships of foreign corporations and partnerships engaged in trade or business in Puerto Rico are subject to general income tax rates. A dividends received credit may be available when the corporation or partnership making the distribution is organized in Puerto Rico. A special tax rate of 17% is applicable to dividend distributions of REITs received by corporations. Interest income on certain qualifying debt obligations issued by Puerto Rico corporations and certain qualifying foreign corporations and paid to resident corporations and partnerships qualifies for a special tax rate of 10%.

In general, corporations and partnerships operating under a new grant of tax exemption issued under the 1998 Tax Incentives Act are subject to a maximum income tax rate of 7% during their basic exemption period. Certain corporations and partnerships covered by the tax incentives acts continue to be subject to a maximum tax rate of 45% on their taxable income. Corporations and partnerships covered by the Puerto Rico Tourism Incentives Act of 1993, as amended, are subject to a maximum tax rate of 42% on their taxable income. The P.R. Code also provides for an alternative minimum tax of 22%.

The P.R. Code imposes a branch profits tax on resident foreign corporations less than 80% of whose gross income qualifies as income effectively connected with a Puerto Rico trade or business. The branch profits tax is 10% of an annual dividend equivalent amount, and it applies without regard to the Puerto Rico source of income rules.

Interest from Puerto Rico sources paid to non-resident non-affiliated corporate recipients is not subject to any income or withholding tax. Interest paid to certain related non-resident recipients is subject to a withholding tax of 29%. Dividends paid to non-resident corporate recipients are subject to a withholding tax of 15%. Dividends distributed by corporations (including Section 936 Corporations) operating under new grants of tax exemption issued under the 1998 Tax Incentives Act are not subject to Puerto Rico income tax. However, royalty payments made by such corporations to non-resident recipients are subject to a 15% withholding tax. The basic tax on dividends paid to foreign corporate shareholders of Section 936 Corporations operating under grants of tax exemption issued under prior incentives laws is 10% but is subject to reduction if a percentage of the profits are invested in certain eligible instruments for specified periods of time.

Subject to certain exceptions, payments in excess of \$1,500 during a calendar year made by the Commonwealth and persons engaged in a trade or business in Puerto Rico in consideration of the receipt of services rendered in Puerto Rico are subject to a 7% withholding tax.

Excise Taxes

The P.R. Code imposes a tax on articles and commodities that are imported into or manufactured in Puerto Rico for consumption in Puerto Rico and a tax on certain transactions, such as hotel occupancy, public shows, and horse racing. The excise tax on certain articles and commodities, such as cigarettes, alcohol and petroleum products, is based upon the quantity of goods imported. The excise tax on motor vehicles is based on their suggested retail price. The P.R. Code imposes a tax at an effective rate of 6.6% of the F.O.B. factory price for imported goods and 3.6% of the sales price of goods manufactured in Puerto Rico, except sugar, cement, cigarettes, motor vehicles and certain petroleum products, which are taxed at different rates. Goods to be used by the government, except for motor vehicles and construction equipment, are not exempt. Exemptions apply to certain articles, such as food and medicines, and to articles designated for certain users.

Other Taxes and Revenues

Motor vehicle license plate and registration fees comprise the major portion of license tax receipts. Recent legislation was enacted to increase license fees on luxury vehicles.

Non-tax revenues consist principally of lottery proceeds, documentary stamps, permits, fees and forfeits, proceeds of land sales and receipts from public corporations in lieu of taxes.

Revenues from non-Commonwealth sources include customs duties collected in Puerto Rico and excise taxes on shipments of rum from the island to the United States mainland. The customs duties and excise taxes on shipments are imposed and collected by the United States and returned to the Commonwealth. The excise tax on shipments of rum from Puerto Rico and other rum producing countries is \$13.50 per gallon. Of this amount, \$13.25 per proof gallon has been or will be returned to the Treasury during the period from July 1, 1999 to December 31, 2005. Effective January 1, 2006, the amount returned will be reduced to the lesser of \$10.50 per proof gallon and the actual excise tax imposed. Legislation is currently pending in both houses of the United States Congress, however, that would increase the amount of federal excise taxes per proof gallon transferred to the Commonwealth to \$13.50 after December 31, 2005 and before January 1, 2007. This legislation would also allocate \$0.50 of the total tax so returned to the Conservation Trust Fund, a charitable trust established in 1968 pursuant to

a Memorandum of Understanding between the United States Department of the Interior and the Commonwealth whose mission is to protect natural resources in Puerto Rico.

Property Taxes

Personal property, which accounts for approximately 49% of total collections of taxable property, is self-assessed. Real property taxes are assessed based on 1958 property values. No real property reassessment has been made since 1958, and construction taking place after that year has been assessed on the basis of what the value of the property would have been in 1958. Accordingly, the overall assessed valuation of real property for taxation purposes is substantially lower than the actual market value. Also, an exemption on the first \$15,000 of assessed valuation in owner-occupied residences is available.

Property taxes are assessed, determined and collected for the benefit of the municipalities by the Municipal Revenues Collection Center (“CRIM”), a government instrumentality of the Commonwealth. However, a special 1.03% tax on the assessed value of all property (other than exempted property) imposed by the Commonwealth for purposes of paying the Commonwealth’s general obligation debt is deposited in the Commonwealth’s Redemption Fund.

The following table presents the assessed valuations and real and personal property taxes collected for fiscal years ending June 30, 2000 through June 30, 2005.

(2) During fiscal year 2004 a property tax amnesty was approved by the Legislative Assembly and implemented by CRIM. In addition to the amounts shown, under the amnesty program a total of \$105.3 million was collected in fiscal year 2004 and \$21.1 million in fiscal year 2005.

Source: Municipal Revenues Collection Center

Collections of Income and Excise Taxes

The Treasury has continued its program for improving tax collections. The program consists, in part, of taking the initiative in sponsoring and implementing tax reform, particularly in the areas of excise taxes and income taxes, in order to decrease the incidences of nonpayment of taxes and to expand the taxpayer base. The program has also included (i) improving the methods by which delinquent taxpayers are identified, primarily through the use of computer analyses, (ii) computerizing the processing of tax returns, and (iii) identifying and eliminating taxpayer evasion.

Transfers to General Obligation Redemption Fund

These consist of transfers from the General Fund to the Redemption Fund for the amortization of the principal of and interest on general obligation bonds and notes of the Commonwealth.

Components of General Fund Expenditures

Grants and Subsidies

This category includes grants and contributions to municipalities, public corporations with independent treasuries, and charitable institutions. It also includes items for or included in court awards, damage awards for personal injury or property damage, and payment of taxes and payments in lieu of taxes.

Personal Services

This category includes compensation paid for personal services rendered to the Commonwealth and its public instrumentalities by individuals or firms in the form of salaries, wages, *per diems*, fees, commissions, or other forms of compensation.

Other Services

This category includes compensation for services other than the services referred to above, including advertising, printing, communications, legal expenses, utilities, building and equipment rental and maintenance expenses, insurance premiums and miscellaneous services.

Materials and Supplies

This category includes all articles that ordinarily have a short life and durability, lose their characteristic identity in the process of use, have only nominal value (\$25 or less), or are not otherwise chargeable as equipment.

Equipment Purchases

This category includes items that have three special characteristics distinguishing them from materials: durability, long useful life, and high unit cost. In addition, these items are subject to centralized inventory control as fixed assets.

Capital Outlays and Other Debt Service

Capital outlays are made primarily for land acquisition or interests in land, construction of buildings, roads, bridges and other structures, and permanent improvements and additions. Other debt service includes payments on notes held by GDB to be paid from the General Fund and payments for the amortization of the principal of and interest on non-general obligations payable from Commonwealth appropriations.

Transfers to Agencies

These transfers include the repayment of loans and advances to other funds, certain refunds, advances from other funds and other receipts, repayment of advances from other funds, grants and contributions to other funds under the custody of the Secretary of the Treasury and other items. The

major portion of grants and contributions in recent fiscal years has consisted of transfers to cover the costs of health reform and advances to the municipalities.

Other Expenditures

This category represents recurring General Fund expenditures not appropriately attributable to other expenditure line items, such as advances to government agencies and municipalities, which advances are to be reimbursed to the General Fund by law.

Federal Grants

Puerto Rico receives grants under numerous federal programs. Federal grants to the agencies and instrumentalities of the Commonwealth government, including public corporations, are estimated to be \$4.420 billion for fiscal year 2006, an increase of \$328.8 million, or 8%, from fiscal year 2005. The following table presents revenues from federal grants by broad program areas, which are accounted in the central accounting system of the Treasury. The figures for fiscal years 2002, 2003, and 2004 are actual figures. The estimated figures for fiscal years 2005 and 2006 are based on the information submitted by each agency to OMB.

BUDGET OF THE COMMONWEALTH OF PUERTO RICO

Office of Management and Budget

OMB's predominant mission is to assist the Governor in overseeing the preparation of the budget of the Commonwealth and supervise its administration of the agencies of the Executive Branch. In helping to formulate the Governor's budget, OMB evaluates the effectiveness of agency programs, policies, and procedures, assesses competing funding demands among agencies, and sets funding priorities.

In addition, OMB oversees and coordinates the Administration's initiatives in financial management, information technology, general management and organizational structure, and supervises the agencies' compliance with the Governor's program and regulatory policies. In each of these areas, OMB's role is to help improve administrative management, develop better performance measures and coordinating mechanisms, and promote efficiency in the use of public funds.

Budgetary Process

The fiscal year of the Commonwealth begins each July 1. The Governor is constitutionally required to submit to the Legislative Assembly an annual balanced budget of revenues, capital improvements, and operating expenses of the central government for the ensuing fiscal year. The annual budget is prepared by OMB, in coordination with the Planning Board, the Treasury, and other government offices and agencies. Section 7 of Article VI of the Constitution provides that "The appropriations made for any fiscal year shall not exceed the total revenues, including available surplus, estimated for said fiscal year unless the imposition of taxes sufficient to cover said appropriations is provided by law."

The annual budget, which is developed utilizing elements of program budgeting, includes an estimate of revenues and other resources for the ensuing fiscal year under (i) laws existing at the time the budget is submitted, and (ii) legislative measures proposed by the Governor and submitted with the proposed budget, as well as the Governor's recommendations as to appropriations that in his judgment are necessary, convenient, and in conformity with the four-year investment plan prepared by the Planning Board.

The Legislative Assembly may amend the budget submitted by the Governor but may not increase any items so as to cause a deficit without imposing taxes to cover such deficit. Upon passage by the Legislative Assembly, the budget is referred to the Governor, who may decrease or eliminate any item but may not increase or insert any new item in the budget. The Governor may also veto the budget in its entirety and return it to the Legislative Assembly with the Governor's objections. The Legislative Assembly, by a two-thirds majority in each house, may override the Governor's veto. If a budget is not adopted prior to the succeeding fiscal year, the annual budget for the preceding fiscal year as originally approved by the Legislative Assembly and the Governor is automatically renewed for the ensuing fiscal year until a new budget is approved by the Legislative Assembly and the Governor. This permits the Commonwealth to continue making payments of its operating and other expenses until a new budget is approved.

Financial Control and Adjustment Procedures

Revenue estimates for budgetary purposes are prepared by the Treasury, except for estimates of federal grants, which are prepared by OMB based on information received from the various departments and other recipients of such grants. Revenue and federal grant estimates are under continuous review and, if necessary, are revised at least quarterly during the fiscal year. Fiscal control over expenditures is exercised by the Governor, through the Director of OMB, and the Secretary of the Treasury. Monthly reviews and expenditure cut-off procedures are followed to prevent expenditure in excess of appropriations.

During any fiscal year in which the resources available to the Commonwealth are insufficient to cover the appropriations approved for such year, the Governor may take administrative measures to reduce expenses and submit to both houses of the Legislative Assembly a detailed report of any adjustment necessary to balance the budget, or make recommendations to the Legislative Assembly for new taxes or authorize borrowings under provisions of existing legislation or take any other necessary

action to meet the estimated deficiency. Any such proposed adjustments shall give effect to the “priority norms” established by law for the disbursement of public funds in the following order of priority; first, the payment of the interest on and amortization requirements for public debt (Commonwealth general obligations and guaranteed debt for which the Commonwealth’s guarantee has been exercised); second, the fulfillment of obligations arising out of legally binding contracts, court decisions on eminent domain, and other unavoidable obligations to protect the name, credit and good faith of the Commonwealth; third, current expenditures in the areas of health, protection of persons and property, education, welfare and retirement systems; and fourth, all other purposes.

A Budgetary Fund was created by Act No. 147 of June 18, 1980, as amended (the “Budgetary Fund”), to cover the appropriations approved in any fiscal year in which the revenues available for such fiscal year are insufficient, to secure the payment of public debt, and to provide for unforeseen circumstances in the provision of public service. Currently, an amount equal to one percent of the General Fund net revenues of the preceding fiscal year is deposited annually into the Fund. In addition, other income (not classified as revenues) that is not assigned by law to a specific purpose is also required to be deposited in the Budgetary Fund. The maximum balance of the Budgetary Fund may not exceed 6% of the total appropriations included in the budget for the preceding fiscal year. As of July 1, 2005, the balance in the Budgetary Fund was \$81.7 million. As of June 30, 2006, the Budgetary Fund is projected to have a balance of less than \$10 million.

An Emergency Fund was created by Act No. 91 of June 21, 1966, as amended (the “Emergency Fund”), to cover unexpected public needs caused by calamities, such as wars, hurricanes, earthquakes, droughts, floods and plagues, and to protect people’s lives and property and the public sector credit. The Emergency Fund is capitalized annually with an amount totaling no less than one percent of the General Fund net revenues of the preceding fiscal year. Act No. 91 was amended on August 28, 2003, to set an upper limit to the Emergency Fund of \$150 million at the beginning of the fiscal year and was further amended in 2005 to authorize the disbursement of funds from the Emergency Fund to cover certain General Fund expenditures and operational costs of the State Emergency Management Agency. The 2005 amendment also authorizes GDB to lend to the Commonwealth up to \$150 million to replenish the Emergency Fund to provide funding for emergency and disaster needs. As of July 1, 2005, prior to the aforementioned 2005 amendment, the balance in the Emergency Fund was \$52.7 million.

Appropriations

Appropriations in the central government budget of Puerto Rico consist of the following:

- (i) General Fund appropriations for recurring ordinary operating expenses of the central government and for contributions to public corporations, municipalities, and private organizations. Such appropriations are made by a single annual law known as the Joint Resolution of the General Budget.
- (ii) General Fund appropriations for special operating expenses and for capital expenditures. Such appropriations are authorized by separate law for one or more years for special programs or activities, which may be permanent or transitory.
- (iii) Disbursements of Special Funds for operating purposes and for capital improvements. For the most part, such disbursements do not require annual legislative authorization, because they are authorized by previous legislation or by the United States Congress. Federal grants constitute the major part of the resources of the Special Funds.
- (iv) Bond Fund appropriations for capital expenditures financed by bonds. Such expenditures occur in one or more years.

In Puerto Rico, the central government performs many functions, which in the fifty states are the responsibility of local governments, such as providing public education, police and fire protection. The central government also provides significant annual grants to the University of Puerto Rico and to the municipalities.

In the summaries of the central government budgets presented below, grants to the University of Puerto Rico are included in current expenditures for education and the debt service on general obligation bonds is included in current expenses for debt service. Debt service on Sugar Corporation notes paid by the Commonwealth is included in current disbursements for economic development, and debt service on Urban Renewal and Housing Corporation bonds and notes and on Housing Finance Authority mortgage subsidy bonds paid by the Commonwealth is included in current expenses for housing.

For fiscal year 2006, approximately 53% of the General Fund was committed for payment of the central government payroll. In addition, approximately 25% of the General Fund was committed to the payment of fixed charges such as municipal subsidies, grants to the University of Puerto Rico, funding for the judicial branch, deposits to the Budgetary and Emergency Funds, among others, and debt service on the direct debt of the Commonwealth. For fiscal year 2007, it is proposed that approximately 54% and 6% of the General Fund be committed for payment of the central government payroll and debt service on the direct debt of the Commonwealth, respectively. In the case of the judicial branch, legislation approved in December of 2002 provides that, commencing with fiscal year 2004, the Commonwealth will appropriate annually to the judicial branch an amount initially equal to 3.3% of the average annual revenue from internal sources for each of the two preceding fiscal years. This percentage will increase until it reaches 4% in fiscal year 2008, and may be further increased upon review, with scheduled reviews every five years.

2006 Budget Approval Process

On March 16, 2005, the Governor submitted to the Legislative Assembly of the Commonwealth a proposed balanced budget of resources and expenditures for fiscal year 2006 providing for General Fund resources and expenditures of \$9.684 billion. The Legislative Assembly, which is controlled by the principal opposition political party, however, did not approve the Governor's proposed budget and instead, on June 30, 2005, approved a budget resolution for fiscal year 2006 that provided for General Fund expenditures of \$9.258 billion. The Governor vetoed this budget resolution because the revenue measures contained therein, as estimated by the Secretary of the Treasury, were insufficient to cover the budgeted expenditures as required by the Constitution. He did, however, sign into law certain revenue-raising measures approved by the Legislative Assembly estimated to generate approximately \$130 million in new revenues. Although the revenue-raising measures contained language conditioning their effectiveness on the approval by the Governor of the \$9.258 billion budget resolution, according to the Secretary of Justice these revenue-raising measures are enforceable regardless of such language. Although no legal action has been initiated thus far, no assurance can be given that the effectiveness of such revenue measures will not be challenged.

As a result of the Governor's veto, and in accordance with the Commonwealth's Constitution, the budget for fiscal year 2005 (with certain adjustments) carried over and continued in effect for fiscal year 2006. The Governor, through the adoption of Executive Order 2005-58 on August 30, 2005 (the "Budget 2006 Executive Order"), as amended, made certain additional adjustments to the budget in order to bring the total expenditures in line with the Secretary of the Treasury's estimate of total revenues for fiscal year 2006 of \$8.945 billion. These adjustments included, among others, a \$368 million reduction related to a portion of debt service for general obligation bonds due during fiscal year 2006 and other debt obligations of the Commonwealth (the "Excluded Debt Service"), which is being paid from a GDB line of credit already in place and ultimately from the proceeds of a Commonwealth bond issue.

2006 Projected Expenditures

Based on the spending rate experienced during the first nine months of fiscal year 2006, total expenditures for the fiscal year are currently estimated to reach \$9.683 billion. The expenditures in excess of the Budget 2006 Executive Order are attributable to \$429 million of payroll and other related costs, \$219 million of health and retirement systems related expenditures, and \$90 million of other expenditures. Approximately \$354.7 million is due to expenditures in excess of budgeted amounts by the Department of Education, of which \$294.4 million, or 83%, is attributable to payroll and related expenses. This amount of excess expenditures does not include the Additional Expenditures related to fiscal year 2006 which are not included in the projected expenditures, including certain vendor debts from prior fiscal years and \$368 million of debt service due during fiscal year 2006 on the Commonwealth's general obligation bonds (which debt service is being paid from a GDB line of credit rather than from the General Fund and is expected ultimately to be paid from the proceeds of a Commonwealth bond issuance).

Based on the expected budget deficit and the fact that the Commonwealth was unable to meet certain of its operating expenditures, including payroll, commencing on May 1, 2006, the Governor proposed legislation authorizing GDB to finance \$638 million of the Commonwealth's budget deficit for fiscal year 2006. The remaining portion of the expected budget deficit for fiscal year 2006 would be covered with funds available in the Budgetary Fund, the Emergency Fund, and additional expenditure reductions. On April 25, 2006, the Senate approved a loan in the principal amount of approximately \$531.5 million instead of the \$638 million loan proposed by the Governor. The House of Representatives, however, did not approve the loan. Due to the lack of approval for a loan to cover the Commonwealth's budget deficit for fiscal year 2006, on April 26, 2006, the Governor signed an executive order allocating the Commonwealth's remaining revenues to those central government agencies that offer essential services (the "Deficit Executive Order").

The Deficit Executive Order took effect on May 1, 2006 and, as a result, certain non-essential services offered by government agencies and departments, including public schools, were suspended. Approximately 95,000 public employees were granted an unpaid leave of absence.

On May 8, 2006, the Governor of Puerto Rico, the President of the Senate and the Speaker of the House of Representatives (the "Speaker of the House") appointed a special four member committee (the "Committee") which was given the task of: (i) resolving the impasse between the Executive Branch and the Legislative Assembly with respect to ending the partial shutdown of government agencies that began on May 1, 2006 and addressing the budget deficit of the Commonwealth for fiscal year 2006, and (ii) evaluating measures designed to provide a long-term solution to the Commonwealth's structural budget imbalance. On May 10, 2006, the Committee recommended that, on or prior to May 15, 2006, the Legislative Assembly: (i) adopt measures designed to end the partial government shutdown and allow the Commonwealth to compensate the 95,000 public employees who were granted an unpaid leave of absence, and (ii) approve a loan by the Bank to the Commonwealth of up to \$741 million to finance the budget deficit for fiscal year 2006. As a compromise between previous proposals, the Committee recommended that a portion of such loan be payable from the proceeds of certain new tax measures to be enacted by the Legislative Assembly estimated to generate over \$200 million and that the remaining balance of such loan be payable from the proceeds of a 1% portion of the consumption tax proposed to be enacted, which portion would be earmarked for the payment of the Commonwealth's appropriation debt, as mentioned below.

The Committee also recommended the enactment, on or prior to June 30, 2006, of: (i) legislation allocating a 1% portion of the consumption tax for the payment of the Commonwealth's appropriation debt, and (ii) a comprehensive tax reform and a fiscal reform consistent with the proposals set forth in Joint Resolution No. 321 of November 21, 2005. The Committee also recommended giving priority to

legislation that will reduce the size and expenses of the government and provide for the financial needs of the municipal governments and the retirement systems through the transfer of assets and any budget surplus resulting from the tax reform.

On the same day, the Governor, the President of the Senate and the Speaker of the House announced their acceptance of the Committee's recommendations and stated they would act upon such recommendations.

On May 12, 2006 the Legislative Assembly approved, and on May 13, 2006 the Governor signed, legislation authorizing the Bank to lend up to \$741 million to finance the Commonwealth's budget deficit for fiscal year 2006. This action allowed the Commonwealth to resume full government operations on May 15, 2006. The Legislative Assembly also approved and the Governor signed legislation creating an Urgent Needs Fund to be funded by a 1% portion of the consumption tax proposed to be enacted and used exclusively to pay debt service on appropriation debt, including the aforementioned loan. Any future budget surplus will also be deposited in the Urgent Needs Fund and will be used to cover the cost of certain early retirement programs and amortize the Commonwealth's debt with the Teachers' Retirement System, the Employees Retirement System and the Judiciary Retirement System, in that order.

In order to address the Commonwealth's structural budget imbalance, the previously referred to legislation also provides for the approval of: (i) additional recurring revenue measures estimated to provide a net tax revenue increase of approximately \$300 to \$400 million, and (ii) a three-year expenditure reduction program expected to generate savings in the Executive Branch of at least \$350 million per year. The parties, however, must still reach an agreement as to a specific consumption tax rate and tax relief measures to be implemented as part of the tax reform as well as the provisions of the fiscal reform.

The Secretary of the Treasury's estimate of total revenues for fiscal year 2006 is \$8.945 billion, which includes \$100 million of net proceeds from the sale of the Commonwealth's Public Improvement Refunding Bonds, Series 2006 A but excludes a \$741 million loan by GDB pursuant to Act No. 90 of May 13, 2006. This estimate of revenues has not been adjusted to take into account actual collections during the first ten months of fiscal year 2006, which have fallen approximately \$151 million below budgeted amounts. The shortfall in total revenues for the entire fiscal year, compared to the original estimate, may be in excess of \$151 million.

Although the Commonwealth is using its best efforts in order to maximize revenues and reduce expenditures, there is no assurance that revenues will reach the budgeted amount of \$8.945 billion or that expenditures will not exceed the estimated level of \$9.683 billion.

Budget for Fiscal Year 2006

The consolidated budget for fiscal year 2006, including the resources and appropriation made in connection with the approval of GDB's loan to the Commonwealth of \$741 million, totals \$25.6 billion. Of this amount, \$15.6 billion is assigned to the central government. This includes General Fund total resources and appropriations of \$9.683 billion, which represents an increase of \$463 million, or 5%, over actual expenditures for fiscal year 2005. The following table presents a summary of the Commonwealth's central government budget for the fiscal year ending June 30, 2006.

Commonwealth of Puerto Rico
Summary of Central Government Annual Budget

(1) Does not include grants received by agencies whose accounting systems are not centralized in the Treasury.

(2) Act No. 93 of August 20, 1997 establishes that resources that do not represent revenues become part of the Budgetary Fund.

(3) Includes \$60 million from the Budgetary Fund.

(4) Includes \$75 million from the Emergency Fund.

Sources: Department of the Treasury and Office of Management and Budget

In the fiscal year 2006 budget, revenues and other resources of all budgetary funds total \$13.8 billion, excluding balances from the previous fiscal year and authorized general obligation bonds. The net increase in General Fund revenues in the fiscal year 2006 budget, as compared to fiscal year 2005 preliminary results, is accounted for mainly by increases in personal income taxes (up \$174 million), retained non-resident income taxes (up \$16 million), corporate income taxes (up \$271 million), various excise taxes (up \$137 million), licenses (up \$23 million), contributions from the lottery fund (up \$13 million), electronic lottery fund (up \$15 million), federal excise taxes on offshore shipments (up \$9 million), and decreases in tollgate taxes and withholding taxes on dividends (down \$6 million each), inheritance and gift taxes (down \$5 million), other excise taxes (down \$41 million) and other miscellaneous non-tax revenues (down \$59 million).

Current expenses and capital improvements of all budgetary funds total \$15.6 billion, an increase of approximately \$1.1 billion from fiscal year 2005. The major changes in General Fund expenditures by program in fiscal year 2006 are mainly due to increases in education (up \$304.6 million), health (up \$158.7 million), public safety and protection (up \$37.8 million), contributions to municipalities (up \$16.5 million), other debt service, consisting principally of Commonwealth appropriation debt (up \$124.3 million), and decreases in general government (down \$36.2 million), economic development (down \$14.9 million), housing (down \$7.1 million), and debt service on Commonwealth's general obligation and guaranteed debt (down \$263 million).

The general obligation bond authorization for the fiscal year 2006 budget is \$675 million.

Fiscal Reform

On May 25, 2006, the Governor signed legislation providing for a fiscal reform of the government of the Commonwealth (the "Fiscal Reform Legislation"). The legislation applies to every instrumentality and entity of the Executive Branch funded, in whole or in part, from the General Fund and sets forth as the public policy of the Commonwealth the reduction of government spending, the elimination or consolidation of redundant agencies, the reduction of government payroll without causing the layoff of regular employees or increasing the actuarial liability of the retirement systems, the limitation of unnecessary, extravagant or excessive spending, and the limitation of public relations and other similar expenses.

Specifically, the legislation requires the Executive Branch to realize savings of at least \$300 million during fiscal year 2007 and \$350 million per fiscal year thereafter until fiscal year 2009. Furthermore, on or prior to the third anniversary of the enactment of the legislation, the Commonwealth's budget of operational expenses must not exceed ninety-eight percent (98%) of the Commonwealth's recurring revenues. Similarly, the budget for the Legislative Assembly will remain at the fiscal year 2005 level until fiscal year 2008. The legislation also imposes a government-wide hiring freeze and institutes certain mechanisms through which important positions may be filled.

The Fiscal Reform Legislation prohibits the use of debt, loans or any other financing mechanisms to cover operational expenses or balance the budget of the Commonwealth. It also prohibits the use of savings realized from the refinancing of outstanding debt to cover the Commonwealth's operational expenses or balance the budget and further provides that collections during any fiscal year in excess of budgeted amounts must be deposited in the Urgent Needs Fund and used for the purposes for which such fund was created (i.e., the repayment of certain Commonwealth appropriation debt and repaying the Commonwealth's debt with the retirement systems). The Fiscal Reform Legislation provides that no branch of government is authorized to spend in excess of budgeted amounts and imposes financial and criminal penalties on the director of any instrumentality that violates this provision.

Finally, the Fiscal Reform Legislation requires the implementation of certain internal controls designed to prevent overspending and allow the Commonwealth to better manage its finances. It requires that all covered entities certify annually, among other things, their payroll expenses, the number of employees, the savings achieved during the fiscal year and how they plan to achieve further savings, and the performance of their investments. The Fiscal Reform Legislation also requires that the Governor submit to the Legislative Assembly, together with the proposed budget for the fiscal year, a seven-year strategic plan providing for the restructuring and consolidation of agencies and instrumentalities of the Commonwealth.

Despite his approval of the Fiscal Reform Legislation, the Governor has stated that certain of its provisions may be unconstitutional because they impinge on Executive Branch prerogatives. As such, the Governor has informed the Legislative Assembly that certain provisions of the Fiscal Reform Legislation will be implemented at the Executive Branch's discretion and through the use of the Executive Branch's prerogatives. There is no assurance that the Fiscal Reform Legislation will generate the expected savings or that it will be implemented as enacted.

Proposed Budget for Fiscal Year 2007

On April 3, 2006, the Governor submitted to the Legislative Assembly a proposed balanced budget of resources and expenditures for fiscal year 2007 providing for General Fund resources and expenditures of \$9.684 billion, which represents an increase of \$1 million from estimated actual expenditures for fiscal year 2006. The total resources included in the proposed budget assume the enactment, on or prior to June 30, 2006, of the Governor's proposed tax reform, which was estimated to generate gross revenues of approximately \$2.15 billion. As such, total resources for the General Fund for fiscal year 2007 included a net increase in total tax collections of approximately \$776 million.

The proposed consolidated budget for fiscal year 2007 totals \$26 billion. Of this amount, \$15.3 billion is assigned to the central government. This includes General Fund total resources and appropriations of \$9.684 billion, which represents an increase of \$1 million over projected actual expenditures for fiscal year 2006. The following table presents a summary of the Commonwealth's proposed central government budget appropriations for the fiscal year ending June 30, 2007.

Commonwealth of Puerto Rico
Summary of Central Government Appropriations
Fiscal Year Ending June 30, 2007

Sources: Office of Management and Budget.

The House of Representatives has approved a General Fund budget for fiscal year 2007 of \$9.436 billion, which is \$248 million, or 4.5%, less than the budget proposed by the Governor. This budget reduction is attributable principally to decreases in the amount allocated to operational expenses. The budget approved by the House of Representatives is approximately \$52 million less than the budget cuts required by the Fiscal Reform Legislation. The Director of OMB has expressed concern over the consequences that these budget cuts may have on the government's ability to offer basic services.

There is no assurance that a budget for fiscal year 2007 will be approved by the Legislative Assembly and signed by the Governor on or prior to June 30, 2006. If the budget is not approved by such date, the fiscal year 2006 budget (which itself had carried over from fiscal year 2005) would carry over to fiscal year 2007. See "2006 Budget Approval Process" under Budget of the Commonwealth of Puerto Rico.

Differences between Budget and Basic Financial Statements

Revenues and expenditures, as reported by the Treasury in its Basic Financial Statements, may differ substantially from resources and appropriations in the annual budget for a number of reasons, including the following:

- (i) The budgetary accounts are on a cash basis, while financial statements prepared by the Treasury include accruals and other adjustments as required by government accounting standards.
- (ii) Expenditures for current purposes in a particular fiscal year may include amounts appropriated for earlier periods but not previously expended and, conversely, may exclude amounts appropriated for such fiscal year but not expended until later periods.

(iii) Bonds are authorized by the Commonwealth in accordance with a four-year capital improvement program. Since bond sales are determined by bond market conditions and other factors, the amounts of bonds sold for these improvements are financed by advances from the General Fund to the Capital Projects Fund, which are later reimbursed from proceeds of bond or notes sales.

LITIGATION

The Commonwealth is a defendant in numerous legal proceedings pertaining to matters incidental to the performance of routine governmental operations. Under Act No. 104 of the Legislative Assembly of Puerto Rico, approved on June 25, 1955, as amended (“Act No. 104”), persons are authorized to sue the Commonwealth only for causes of actions specified in said Act. The Commonwealth may be liable under Act No. 104 for damages up to a maximum amount of \$75,000 or \$150,000 if the suit involves actions for damages to more than one person or where a single injured party is entitled to several causes of action. Under certain circumstances, as provided in Act No. 9 of the Legislative Assembly of Puerto Rico, approved on November 26, 1975, as amended (“Act No. 9”), the Commonwealth may provide its officers and employees, including directors of public corporations and government instrumentalities and mayors of the municipalities of the Commonwealth, with legal representation, as well as assume the payment of any judgment that may be entered against them. There is no limitation on the amount of the judgment that may be paid under Act No. 9.

With respect to pending and threatened litigation, as of June 30, 2005, the Commonwealth has included in its financial statements reported liabilities of approximately \$219 million for awarded and anticipated unfavorable judgments. This amount represented the amount estimated at the time as a probable liability or a liability with a fixed or expected due date, which would require future available financial resources for its payment. The Commonwealth believes that the ultimate liability in excess of amounts provided in the financial statements, if any, would not be significant.

The Commonwealth is a defendant in two lawsuits filed, one in Commonwealth court and one in the United States District Court for the District of Puerto Rico, by an association of primary care health centers seeking to recover from the Commonwealth \$120 million of Medicaid funds retained by the Department of Health since 1997. In June 2004, the Superior Court of the Commonwealth in San Juan determined that the Commonwealth must return those funds. The Commonwealth appealed this decision. As of June 30, 2004, the Commonwealth has accrued \$120 million for this legal contingency. With respect to the federal case, a preliminary injunction was issued by the Court against the Commonwealth requiring it to disburse approximately \$20 million in six payments beginning in October 2005.

The Commonwealth is a defendant in two lawsuits filed in local and federal district court by an association of insurance companies seeking to recover from the Commonwealth approximately \$38 million of compulsory motor vehicle insurance premiums allegedly belonging to the insurance companies or their policyholders, which were transferred by the Secretary of the Treasury to the General Fund. The Commonwealth believes that its ultimate liability, if any, would not be significant.

The Commonwealth is also a defendant in various cases, including a class action presented by parents of special education students alleging deficient services to these students in the areas of education and health care before Commonwealth Courts. One court recently decided in favor of the parents’ request to include damage claims in the same class action case. This decision is appealable and thus, not final at this time. The Commonwealth does not anticipate any final determination or damages award, in any case, to be granted in this fiscal year.

The Commonwealth and various component units are defendants in other lawsuits alleging violations of constitutional rights (for example, by municipalities) civil rights, breach of contract, and

other damage claims. Preliminary hearings and discovery proceedings are in progress. The amounts claimed exceed \$7.8 billion; however, the ultimate liability cannot be presently determined. It is the opinion of the Commonwealth that the claims are excessive. No provision for any liability that may result upon adjudication of these lawsuits has been recognized by the Commonwealth. The Commonwealth believes that the ultimate liability, if any, would not be significant.

FOUNDED 1866

June __, 2006

Honorable Juan Carlos Méndez
 Secretary of the Treasury of Puerto Rico
 San Juan, Puerto Rico

Dear Sir:

We have examined Act No. 33 of the Legislature of Puerto Rico, approved December 7, 1942 (the "Act"), and certified copies of the legal proceedings, including a resolution adopted by the Secretary of the Treasury of the Commonwealth of Puerto Rico and approved by the Governor of the Commonwealth of Puerto Rico on June 22, 2006 (the "Resolution"), and other proofs submitted relative to the issuance and sale of the following described bonds (the "Bonds"):

\$101,695,000

COMMONWEALTH OF PUERTO RICO

PUBLIC IMPROVEMENT REFUNDING BONDS, SERIES 2006 A

Dated: Date of Delivery.

Maturing on the dates and in such principal amounts and bearing interest at the rates, all as set forth in the Resolution. The Bonds are issuable as registered Bonds without coupons in the manner and in accordance with the terms and conditions of the Resolution. The Bonds are subject to redemption as set forth in the Resolution.

We have also examined one of the Bonds as executed and authenticated.

From such examination we are of the opinion that:

1. The Act is valid.
2. Said proceedings have been validly and legally taken.
3. The Act and said proceedings and proofs show lawful authority for the issuance and sale of the Bonds, and the Bonds constitute valid and binding general obligations of the Commonwealth of Puerto Rico for the prompt payment of the principal of and the interest on which the good faith, credit and taxing power of the Commonwealth of Puerto Rico are pledged.

June 23, 2006

Page 2

4. Under the provisions of the Acts of Congress now in force and under existing regulations, rulings and court decisions, (i) subject to continuing compliance with the covenants referred to below and requirements of the Internal Revenue Code of 1986, as amended (the "Code"), regarding the use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the Treasury of the United States, if required, interest on the Bonds is not includable in gross income for federal income tax purposes; and (ii) the Bonds and the interest thereon are exempt from state, Commonwealth of Puerto Rico and local income taxation. No opinion is expressed as to the effect of any action taken or not taken after the date of this opinion without our approval (except for such action or omission to act as is provided in the documents pertaining to the Bonds) or in reliance upon advice of counsel other than ourselves on the exclusion from gross income of the interest on said Bonds for federal income tax purposes.

Interest on the Bonds is not a specific item of tax preference for the purposes of the federal alternative minimum tax imposed on individuals and corporations. Interest on the Bonds is, however, includable in the computation of the alternative minimum tax on corporations imposed by the Code. The Code contains other provisions that could result in tax consequences, upon which we express no opinion, as a result of (a) ownership of Bonds or (b) the inclusion in certain computations (including, without limitation, those related to the corporate alternate minimum tax) of interest that is excluded from gross income.

The Commonwealth of Puerto Rico and Puerto Rico Aqueduct and Sewer Authority have covenanted to comply, to the extent permitted by the Constitution and laws of the Commonwealth of Puerto Rico, with the requirements of the Code so that interest on the Bonds will remain exempt from federal income taxes to which it is not subject on the date of issuance of the Bonds. We are not aware of any provisions of the Constitution or laws of the Commonwealth of Puerto Rico which would prevent the Commonwealth of Puerto Rico and such instrumentalities from complying with the requirements of the Code.

Respectfully submitted,

[To be signed "Sidley Austin LLP"]
